#### Recognition of Student Accolades

-Dr. Mahailey Albain presented high school students Grace Albright and Zayla Brown Certificates of Merit from Michigan Technological University's Society of Women Engineers. Both girls were given this distinguished award for their excellence in STEM, outstanding performance in math and science, and active school involvement.

#### **Superintendent's Report**

Celebrations – We continue to see more and more kiddos engaged in extracurricular activities in all buildings as you heard even tonight about the media club. I applaud our staff for stepping up for added programs each and every year.

Community Outreach: Factual information is being provided by the MCISD toward the end of this month describing the upcoming Monroe County Technology Millage May 5

Operations: 31aa Funding: The District declined these funds, as did a majority of districts across the county and state of Michigan, to protect our district's legal integrity, safeguard our employees' rights, and preserve local control over how we approach school safety. This will not change our commitment to student safety or mental health as we will continue to invest in prevention, counseling, and safety initiatives using local and alternative funding sources, ensuring that every student learns in a safe, supportive environment.

Filter First filters and fountains have all been installed, and all required signage has been put up in the district. This includes labeling all water sources as consumable, filtered or non-consumable (unfiltered). This does not mean that our water is bad, just a requirement as part of this grant to ensure folks are drinking the safest water possible.

#### Upcoming Meetings:

The BOE was reminded of the upcoming meetings.

#### **Administrative Reports**

January written administrative reports can be found on the District's website under the District Tab for the Board of Education.
