ABOUT TRADEPRENEUR

Tradepreneur aims to provide informed research practices on key educational and industry issues in an accessible manner. This platform intends to promote the institutions, teams and individuals that place quality research at the top of their agenda and work in collaboration with others to achieve their goals. Setting the stage for the change-makers in a global research network and brings a difference in society is our key mission. This platform brings together the academician, researchers and research scholars to exchange and share their experiences and research results about all aspects of science, social sciences management, economics and engineering. It also provides the premier interdisciplinary forum for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the fields of engineering, management and social sciences.

ABOUT CONFERENCE

The new world vision is a holistic view. It is also an ecological view. It considers the world as an integrated whole a global village, rather than a separated or isolated collection of parts. This emerging new world vision has introduced the era of responsibility. The new decade has started, in this new decade Management, Science & technology, will play a key role in development. The objective of this conference is to understand the global perspective invarious sector
