

STOWLOCH WHISKEY

AGED 8+ YEARS

Stowloch Whiskey Single Barrel Reserve (SBR) is curated from specially selected barrels. Each Single Barrel Reserve is born using natural Ozark Highlands limestone-filtered water, food-grade heirloom-seed ingredients, long fermentation & then aged a minimum of 8 years in Missouri Oak

CERTIFIED

Stowloch Whiskey is certified under Missouri law as an "Ozark Highlands" whiskey. This quality standard requires chemical free water from the Ozark Highlands, Missouri-made barrels, & aging of at least 4 years. And the process from birth to bottle must take place in the Ozark Highlands.

SMOOTH & SWEET

The mash build and long fermentation gives Stowloch Whiskey an incredibly smooth finish even at barrel proof. This pre-prohibition recipe uses traditional distilling to ensure each bottle is truly delicious.

SIZE - 750 ML

BTL/CASE - 12
