

MULTI LTE SIM BONDING ROUTER FOR BANDWIDTH AGGREGATION

Features:

 6 Hour Battery Backup

 6 SIM Cards

Warranty

DC 12-19V

DHCP

Multi ISP

Firewall

Remotely Upgrade

Web Based GUI

Wi-Fi WAN

Gigabit Ethernet

Dual Cooling

Upto 100 Mbps Bonding

Multipath Enabled

Secure Tunnelling

TureBOND PRO is An Innovative Router Developed for Enterprise Applications That depend on **LTE, 4G, and 3G**.

It is Equipped with **7 Inputs** and **2 Output**.
Inputs are **6 x LTE SIM Slot** and **1 x WWAN**.
Output is **Gigabit LAN & Wi-Fi 5GHz**.

TureBOND PRO Design to serve Live Streaming or High-Speed Upload Witch Known as a Critical Application for **Mobile Broadband** and **4G, 3G**.

1:1 Server Bandwidth

Free Upto 1 Year with device

1:1 Bandwidth

Remote Access

Premium Support

Quad Core CPU

2GB RAM + 25GB SSD

Real Time Dashboards

 DC Input: 12V-19V Variable DC Input

 Temperature Range: 5° to +75°C

 Dimensions: 200*160*75 mm

 Weight: 1340 gm
