## OUR FLOORING COLLECTION

Our flooring collection was developed to combine durability, performance, and refined design.

More than just a surface, flooring sets the tone for every space.

Made with advanced SPC technology, our floors offer exceptional stability, 100% waterproof protection, and resistance to scratches and daily wear.

Designed for both residential and light commercial use, they deliver long-term performance with minimal maintenance.

Each color and texture was carefully selected to reflect modern interior trends while maintaining a timeless aesthetic.

Strong enough for everyday life. Sophisticated enough for elevated spaces.

# WHAT IS SPC FLOORING?

SPC rigid vinyl flooring (Rigid Core LVP) is the latest upgrade and improvement of the Luxury Vinyl Tiles (LVT).

It's in fact considered to be the new trend in floor covering.

The main content of SPC are natural limestone powder, polyvinyl chloride and stabilizer which combined by a certain ratio to provide us a very stable composite material.

100% Waterproof

Quick Installation

Wear-Resistant

Kid-Safe

ECO-Friendly

Stable Structure

Super Durable

Easy To Clean

Quiet Step

Non-Slip

Fire-Retardant

Insect Proof

## Click System

## A-C-K SERIES INTRODUCTION

- SPC Flooring is made of poly materials, shaped by the processing of extruding, stable dimension, with water-proof performance.
- With specialized UV coating treatment, its stain-resistance, antibacterial and waterproof is highly enhanced, and fireproofing grade can even reach EN Class Bfl-s1.
- Using special transparent polymer wear-resistant layer, to ensure that the floor color is not worn for a long time, making the floor durable.

# WAYS TO INSTALL

# TECHNICAL INFORMATION

<b>Products Data</b>		
Vinly flooring tile dimension	9" x 60"	
Thickness	5.5mm,6mm,6.5mm,8mm	
Wear layer thickness	0.3mm,0.5mm	
Surface finish	Matte	
<b>Safety Criteria</b>	<b>Standard</b>	<b>Value</b>
Flammability	EN13501-1	Bf1
Slip Resistance	EN13893	DS
Formaldehyde Emission	EN717-1	None
Castor Wheel Test	EN425	Pass
Color Fastness	ISO105-B02	≥6
Determination of Migration of Heavy Metals	EN71	None
<b>Perfomance</b>	<b>Standard</b>	<b>Value</b>
Wear Resistance	EN-660-2	≤0.015g
Flexibility	EN435	No damage
Flexibility Curling After Exposure To heat	EN434	≤1.2mm(80°C ,6hrs)
Peel Resistance	EN431	≥2.8Kgf/cm2
Dimensional Stability	EN434	≤0.08%(80°C,6hrs)
Residual Indentation	EN434	≤0.1mm
