

How to Build a Sheet Fort

1. Find an open spot. Most rooms will probably be big enough.
2. Get your materials.
 - 2.1. 1 Bed Sheet
 - 2.2. 2 Chairs

3. Set up the 2 chairs facing away from each other, with space in between.

4. Get the sheet and pull it over the top of the chairs.

5. The fort is now complete, but it is recommended that you add more to it.
