

# Yeeo

A new service that translate your ideas into reality and maintain your home by simple taps.

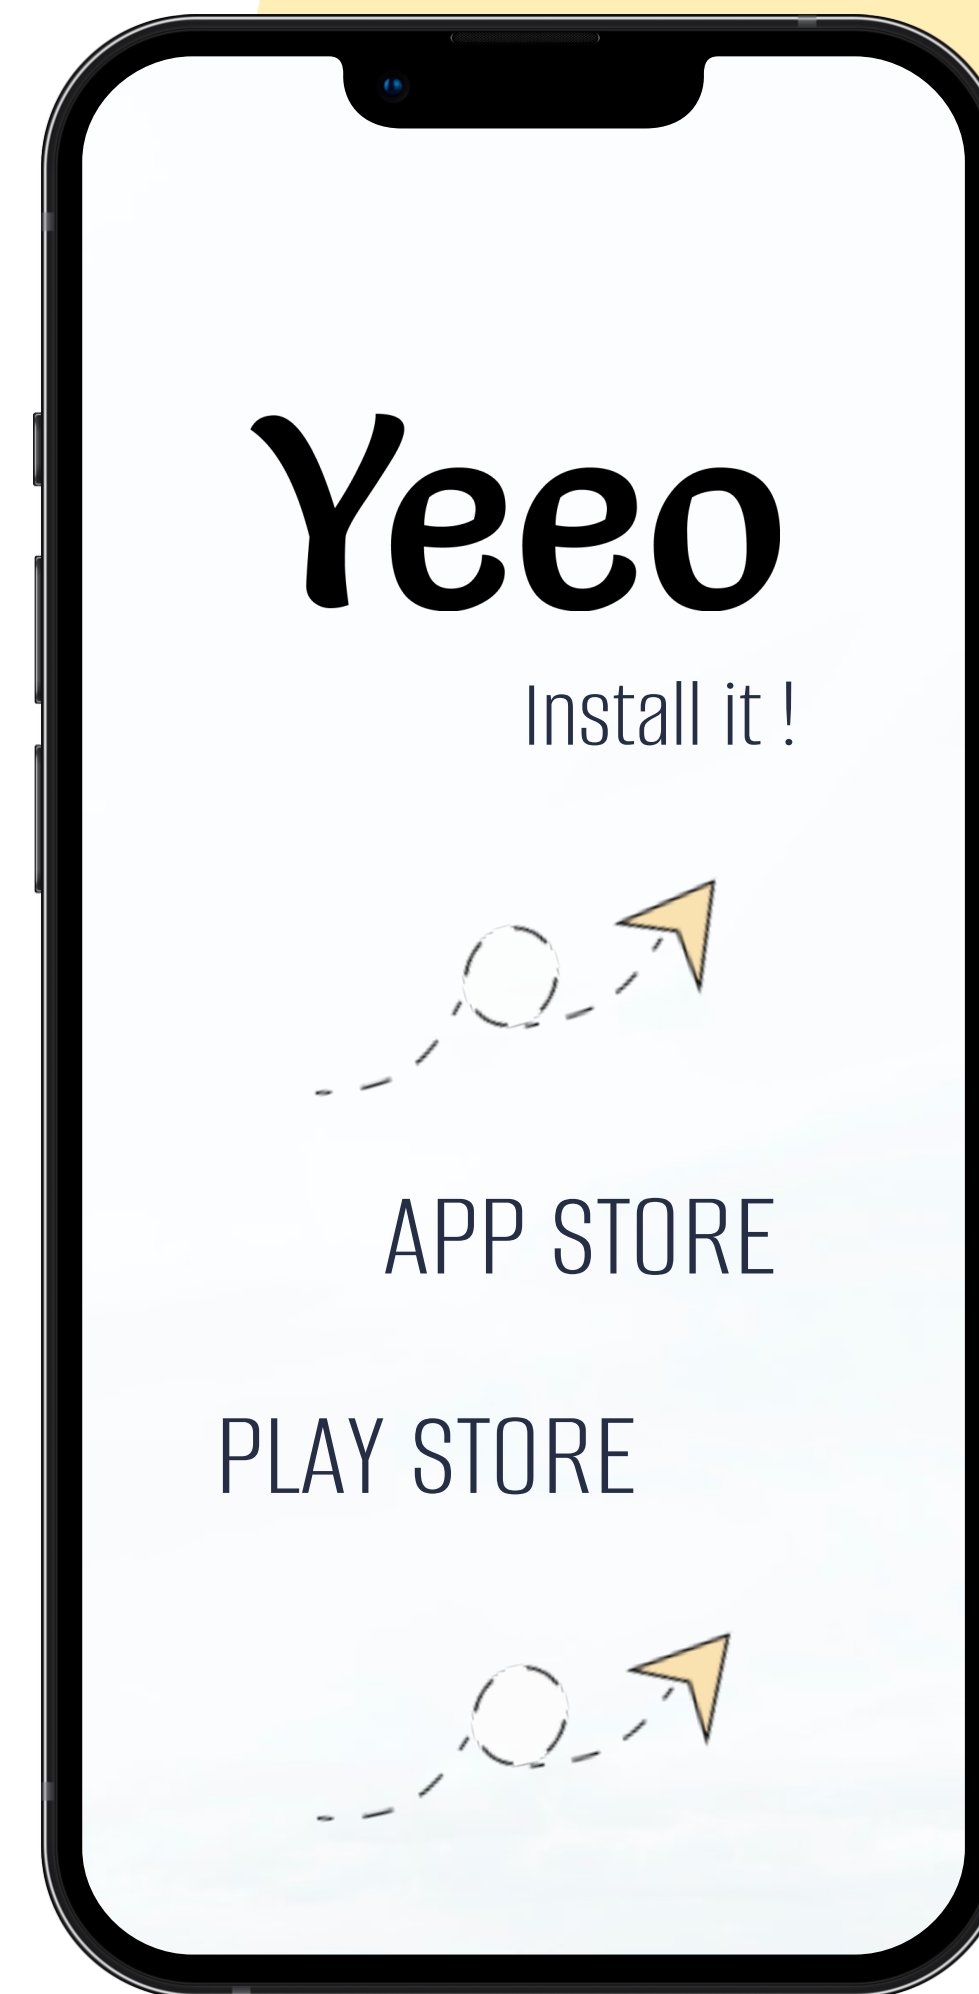

# SAFETY & PROTECTION

we try to protect you from unprofessional contractors

At Yeeo we believe that the process of choosing the right contractor should be easy, safe and convenient. We also believe that people should have the choice to arrange their data about their favorite contractors.

Yeeo is a platform that will minimize the hustle of contractors on you.

# Three Saves

## Save space

Will help in leaving other social media platforms for friends and family and put the space for entertainment and joy only while we arrange your work at Yeeo.

## Save time

Will save the hustle of finding the right service by categorising companies for you once you join Yeeo.

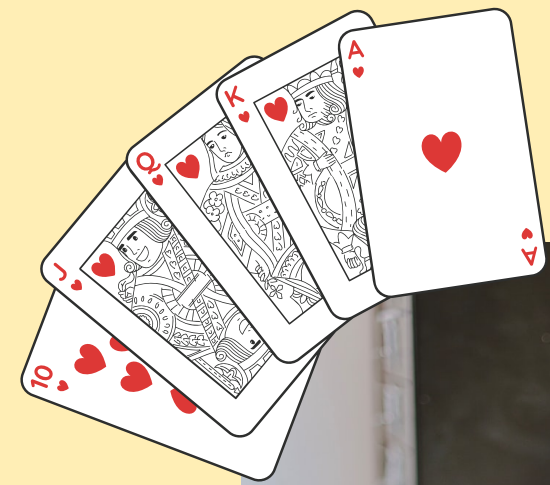

## Save money

Will show you different proposals from different contractors which will help in comparing and getting best price.

a sip of tea

a pice of cake

we  
get  
you

## Technicall

We will find technical service companies to fix broken things and maintain the home for you.

## Decoration

You want to decorate your house? share your thoughts and we will find you a good contractar that will help in completing the job for you.

## Projects

What if you want to build house, swimming pool, extension or even change your house into smart? we will simply generate for you companies that will do that for you.

# SOLUTIONS

## For Better Experience

### Competition

competition where customer will have the opportunity of having different bidings that will lead to the best price.

### Alternatives

working on creating a fast alternative environment for costumer in case of changing the contractor.

### Authentic reviews

trying to build a reliable review system to make the process of choosing contractors more trusted.

# Yeeo

What does it mean?

Yeeo 

If something is broken people usually say yee, yeoo, yaa... so we combined it into yeeo.

The arrow means send us the yeeo and dont worry about anything.

# How to use our logo?

Use our logo in black color and in white background preferably.

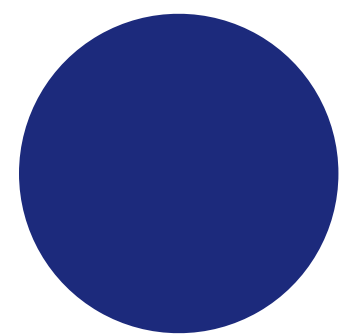

Dont put the logo flipped or tilted.
