

# Out 'N About Dog Daycare & Boarding Medication Form

Dog Name: \_\_\_\_\_

Medications must be in the original container from the treating veterinarian with printed instructions on the label of the container. The label must have your dogs name, description of medication, dosage and frequency of medication. Special instructions should include, take with or without food, and the way your dog takes their meds. (i.e. with peanut butter, cheese whiz, mixed in their bowl, directly by mouth, etc..) We like to make their experience taking meds like they do at home. Make sure the medicine you bring will not expired during their stay. Expired medication will not be administered.
