

# EDIBLE LANDSCAPES

OF YAMHILL CO.

## SEED STARTING GUIDE - 2024

We have a lofty goal of growing 2000+ organic fruit and vegetable seedlings by our May 11th Edible Garden Festival. To accomplish this goal, we have created the following guidelines to ensure we have the supply we need to pull off this community giveaway.

Please remember that you will need to “harden off” the starts before they can be left outside and/or planted. Please begin hardening off starts no later than May 4th, one week before the event. Scan the QR code for more information on hardening off and seed starting.

### HERBS
