

Jessica vonGoeler, MBA

Biotech Program Leader | CMC Operations | Manufacturing Readiness | Supply Chain Strategy

978-921-4355 jessica.vongoeler@gmail.com www.linkedin.com/jessicavongoeler www.JessicavonGoeler.com

PROFILE

Accomplished biotech operations and program leader with 10+ years of experience driving cross-functional initiatives in regulated environments. Proven success directing multimillion-dollar budgets, managing CDMO partnerships, and leading site start-ups that advance IND readiness, safeguard compliance, and accelerate delivery of transformative therapies. Recognized for simplifying complexity, aligning diverse stakeholders, and thriving in ambiguous, high-stakes environments.

CORE STRENGTHS

- Stakeholder alignment & influence
- Program & operations management
- External manufacturing & Contract Manufacturing oversight
- Tech transfer & site readiness
- Supply chain strategy & optimization
- Clear communication & executive reporting

SELECT ACHIEVEMENTS

Directed \$13M CMC service portfolio at Gates MRI, implementing and tracked readiness metrics that improved transparency for senior leadership.

Managed \$20M+ GMP manufacturing site start-up, integrating Engineering, Tech Ops, MSAT, Quality, Facilities, and Supply Chain to achieve operational readiness.

Designed capacity frameworks that improved budget performance by 8% and reduced material order risks by 60%.

Oversaw \$10M+ in external manufacturing contracts supporting gene therapy programs, protecting transfer timelines and supply continuity.

Reduced planning cycles from 3 months to 2 weeks, cutting costs by 15% while increasing responsiveness.
