Gender Preference?

Colour Preference? 1<sup>st</sup> and 2<sup>nd</sup> choices

Occupation of all Adults:

Describe your residence, Do you own or rent?

Do you have a fenced yard? If not, how will the puppy be exercised daily?

Do you have any other pets? If so what are their breeds and ages? Are they intact or spayed/neutered?

How many hours a day will the puppy be alone? Where will the puppy spend most of its time? Do you believe in crate training? If someone is home during the day how will you prevent separation anxiety? If no one is home during the day, do you have a plan for potty breaks?

Have you owned a dog before? Have you ever surrendered a pet?

Have you raised a puppy?

How many people are in your family? Are there allergies, special needs, disabled, elderly and/or children. If so, what are their ages?

Does everyone agree to adopt a puppy? Is this puppy a surprise or a gift?

Will you take your puppy to Puppy Class and/or Obedience Classes and/or Virtual class? Training your puppy is part of my contract and warranty agreement. I work so hard to start your puppy on the right path, you will be surprised at what your puppy already knows. I believe training should start as soon as you get your puppy home. I highly recommend [www.baxterandbella.com](http://www.baxterandbella.com). I even acquired a discount code specifically for my puppy parents and friends SCALLYWAGDOODLES for 25% off.

Describe your lifestyle and energy level? Do you want a dog more interested in lounging? Are you a busy household? Are you sporadically active? Do you need a dog to match your high activity levels? The more specific you are about the better.

Goldendoodles have an average activity level. They are a cross between Golden Retrievers and Poodles. Puppies often have a lot of energy and can chew, dig, bark, soil the house and cry at night. They can play roughly and scratch your skin with their nails and teeth. They may get sick on floors, furniture and cars. Please tell us your patience level and how you might deal with the challenges of normal puppy behaviour?

Socialization with humans and other dogs is critical to healthy and emotional development in a puppy. Because of Covid socialization restrictions, how do you plan to properly socialize your puppy?

Please keep in mind the more flexible you are about size, sex, colour etc., the more likely you are to find a suitable puppy. The more specific you are about aesthetic requirements, the longer you should expect it to take to find a puppy to match your requirements. Breeding is a complex endeavour, our first priorities will always be health and temperament, not aesthetic traits. If you want to order a customized puppy that is within a very limited specific coat type, colour, size or gender we may not be the right breeder for you. We specifically accept applications from families whose primary interest is a well-bred and well raised puppy. That said, we do our best to match families with a puppy that compliments their lifestyle and wishes.

Are you willing to take a puppy that does not meet your stated preferences?

Do you have a vet? If yes, please list name and address?

May we contact your vet?

Goldendoodles require grooming every 6-8 weeks. It is usually \$100 on average each time. Lack of grooming and/or combing can cause mats and harm to the skin. Are you committed to this necessary expense?

Do you agree to send us follow up reports of vet visits, weights, and lots of photos?

We have a spay/neuter contract for all pet home puppies, to be performed no sooner than 12-18 months. Can you keep the puppy/dog safe and agree not to breed the dog? \*Bitches should not be left unattended in a back yard or walked off leash whilst in heat, there is no excuse for an accidental breeding and is a painful experience for a maiden bitch.

Do you agree to contact us first if you can no longer keep the puppy for whatever reason? We will always take back our creations and rehome on your behalf.

Puppy Pick Selection is based on order of deposits received as waitlist deposits (\$250) and/Deposit received after pregnancy announcement (\$500) prior to whelping day. Please be available for notification to keep your place of selection.

Temperament Testing will be done at seven and a half weeks and families may pick their puppies then-- Balance of \$3975.00 for a total of \$4725.00 inclusive of GST, is due at six weeks

Delivery may be available within British Columbia and Alberta, please request a quotation which will be based on Kms from our home to the delivery point, duration and whether an overnight stay is required. Delivery charges are due before travel.

We do not ship puppies. If you live out of the area, you will be expected to pick up your puppy in person.

How do you plan to pick up your puppy?

We reserve the right for first and/or second pick of the litter—We keep back puppies with a certain temperament, body structure, head shape, nose width, furnishings, hair type, bite and confirmation.

We are happy to share all breeder charts and notes. We have a private puppy group called “Scallywag Doodle Puppies” on Facebook and post daily videos and weekly photos. Please read through the contract/warranty on the website for more information regarding my policies, the protocols and procedures we follow.
