Describe your residence, house, condo, townhouse etc,

Do you have a fenced yard?

Do you have any other pets? If so what are their breeds and ages? Are the intact or spay/neutered?

How many hours a day will the puppy be alone? Where will the puppy spend most of it's time? Are you interested in crate training?

Have you owned a dog before from a puppy?

Have you ever surrendered a pet? If yes, what were the circumstances?

How many people are in your family? Do any have allergies, special needs, disabled, elderly? If you have children, what are their ages?

Will you take your puppy to Puppy Class and/or Obedience Classes and/or Virtual class? Training is an essential part of dog ownership and does form part of our contract and warranty agreement. We work hard to start your puppy on the right path, but much of the work takes place from 8-26weeks and is a life long habit. Training can start as soon as you get your puppy home. We highly recommend www.baxterandbella.com. We have a discount code specifically for our puppy parents and friends SCALLYWAGDOODLES for 25% off.

Describe your lifestyle and activity level, so we can help match the best pup for your lifestyle?

Do you have a vet? If yes, please list name and address?
May we contact your vet?

Goldendoodles require daily brushing when they are in long coat, and typically grooming/clipping every 6-8 weeks. The average cost of a trip to the groomers is around \$100, so this additional cost will need to be factored in, unless you are confident about clipping and grooming yourself – we are here for advice on how to, as always. Learning how to groom can be fun and certainly helps with bonding, but it is time consuming - so sometimes its better to book in with a groomer.

We would love to get updates on us vet visits, weights as puppy grows and lots of photos, as it helps us track out our breeding program and chart the development of our lines. Are you OK with this? We don't expect weekly or monthly – just now and again and know that we are always here, even if we don't reach out to you, you are not alone once you take a puppy home, we are available for coaching and advice always.

All of our puppies are sold on a spay/neuter contract, and we advise no sooner than 12-18 months of age, to allow for full structural and emotional development of the puppy to adulthood, removal of the sex organs have been shown to have adverse conditions down the line in some dogs, when altering has taken place much sooner in the puppys life. Often vets will try to book the pup for desexing at 6 months, please please, talk to us first. Often owners are told that desexing a puppy fixes certain embarrassing situations..... it doesn't! there are many reasons not to alter a developing puppy too soon. Desexing earlier than a year will invalidate my health guarantee. For more information – please ask.

Are you OK to wait until the puppy is fully grown before altering?

If you are looking for a breeding quality puppy with full breeding rights, please contact us directly to discuss.

Do you agree to contact us first if you can no longer keep the puppy for whatever reason? We will always take back our offspring at any age and rehome on your behalf.

Puppy Pick Selection is based on the order of deposits received, the waitlist deposits (\$250) and/Deposit received after pregnancy announcement (\$500) prior to whelping day . Please be available for notification to keep your place of selection.

Temperament Testing will be done at seven weeks and families may pick their puppies then-- Balance of puppy price is due at six weeks

Delivery may be available within British Columbia and Alberta, please request a quotation which will be based on Kms from our home to the delivery point, duration and whether an overnight stay is required. Delivery charges are due before travel.

We do not ship puppies. If you live out of the area, we have contacts for Flight Nannies or Pet Ground Transport services, please ask.

Sallywags reserve the right for first and/or second pick of the litter—We keep back puppies with a certain temperament, body structure, head shape, nose width, furnishings, hair type, bite and confirmation.

We are happy to share all breeder charts and notes. We have a private puppy group called “Sallywag Doodle Puppies” on Facebook and post daily videos and weekly photos. Please read through the contract/warranty on the website for more information regarding my policies, the protocols and procedures we follow.

If you are interested in a Premium Package puppy, we also offer a service where your puppy stays with us and undergoes daily training for 8 more weeks. Your puppy will be fully crate and potty trained, walks on a loose leash and knows all of its basic commands including recall. This service is by quotation, so please contact us if a Fully Trained puppy is what you are looking for.

If theres anything you would like to add that would help us place a puppy well suited to your family and lifestyle, or if you have any other criteria that hasn't been addressed above, feel free to comment below.

Thank You

We look forward to extending our Canine family with yours.
