NOV REPORT

FROM THE BRINK OF DESPAIR TO THE ARMS OF GRACE

Sumathi's life was a never-ending storm. A mother abandoned, a woman rejected, she reached the brink where ending her life felt like the only escape from unbearable pain. One fateful night, as she stood on the edge of despair, ready to plunge into eternal silence, a kind stranger handed her a pamphlet from True Joy Global Foundation. The message read, "Come as you are, Jesus loves you."

Skeptical yet desperate, Sumathi walked with hope and faith the next day. She poured her heart out, and for the first time, someone listened without judgment. We introduced her to the love of Jesus Christ, a love so profound it transformed her brokenness into hope. Through counseling, prayers, and support, she began to rebuild not only her life but her child as well. Today, Sumathi is a testimony of grace, mentoring other women who are lost in the shadows of despair. True Joy Global Foundation became the bridge that led her to the Savior who changed her life forever.

WHEN THE STREETS WERE HIS HOME, GOD WAS HIS REFUGE

Mogalaiah was a familiar sight on the streets—frail, hungry, and forgotten. Each day was a battle against hunger, and each night was a reminder of his loneliness. One evening, as he lay shivering under the open sky, True Joy Global Foundation volunteers approached him with warm food and kind words.

Not only did we nourish his body, but we also fed his soul with God's Word. As he wept and prayed with us, Mogalaiah felt a strength he hadn't known in years. Today, he is no longer just surviving but living with newfound purpose and dignity. Mogalaiah's transformation is a testament to how God's love can heal the deepest wounds.

WHEN PAIN BECOMES UNBEARABLE, HOPE FINDS A WAY

For months, Vathsalya endured excruciating pain as her kidney stones worsened. The agony would strike like sharp daggers, leaving her gasping for relief. Every visit to the restroom was a nightmare, and she could hardly sleep or eat. Her meager earnings as a tailor barely sustained her, let alone cover the costs of medical treatment.

When Vathsalya reached out to True Joy Global Foundation, she was frail and in tears. Without hesitation, we arranged for screening tests and provided her with medication to alleviate her pain. Her condition improved slightly, but the stones remain, and surgery is her only hope. We continue to support her emotionally and spiritually while urging others to pray for her recovery. Vathsalya's courage to endure amidst such suffering reminds us of the strength that faith can bring.

LEFT JOBLESS BUT NOT HOPELESS

Rahul was a diligent worker, tirelessly laboring at construction sites to support his family. One fateful day, a tragic accident crushed his left leg, leaving him bedridden and jobless. The injury not only stole his mobility but also his ability to provide for his loved ones.

When Rahul reached out to, his spirit was shattered. We stepped in to support for his daily needs. With our encouragement, Rahul is slowly regaining his strength and hope. Though his journey is far from over, Rahul now believes that his scars will one day tell a story of resilience and faith.

SURVIVING THE FLAMES, SUFFERING THE LOSS

Gopi's world turned into a nightmare when his own brother, driven by jealousy, set fire to his hut. He and his wife narrowly escaped the flames, but their 9-year-old son perished in the inferno. The loss was unbearable, and their charred home stood as a haunting reminder of their tragedy.

When we found Gopi, he was a man broken beyond words. We provided a temporary shelter, clothing, and counseling to help him and his wife begin healing. More than anything, we surrounded them with love and prayer. While their son's absence will forever be felt, Gopi now clings to the hope that one day they will reunite in eternity.

THE TIFFIN SELLER WHO REFUSED TO GIVE UP

Mubeena was the epitome of resilience. As a devoted believer in Allah and a self-made entrepreneur, she ran a humble tiffin center to support her three daughters. But life dealt her a cruel hand. Her husband, burdened by debt, abandoned the family, leaving them to fend for themselves. Overwhelmed by the shame of his actions, he took his own life, plunging Mubeena and her daughters into despair.

When True Global Foundation stepped in, Mubeena's tiffin center was struggling, and her spirit was crushed. We provided her with financial aid to stabilize her business and emotional support to rekindle her hope. Today, Mubeena stands strong, her faith unwavering, and her daughters are back in school. She teaches us that with faith and a helping hand, even the darkest storms can be weathered.

THE SINFUL PAST THAT LED TO A MIRACULOUS CHANGE

Pankajam lived a life shrouded in darkness, running a brothel that shattered countless lives. But when the cries of the innocent reached heaven, a punishment she never foresaw struck her—cervical cancer. Abandoned by everyone, she now lives under a bridge, battling pain and regret.

When we found her, she was frail, hopeless, and yearning for redemption. Through our care, we provided her with nutritious food, clothing, blankets, mosquito net and, more importantly, shared the love of God. Her heart, once hardened, softened with repentance. Pankajam now spends her days praying for those she once hurt, a powerful testimony of how God's grace can transform even the vilest sinner.

THANK

YOU
