**Day: Tuesday**

## **God cleared the way for us to reach the “Tribal People”**

True Joy Global Foundation always depends upon God’s will to see the great works which he does through our small organization. His perfect timing brought indigent people close to us who are greatly in need of help. The people which you can see below belong to “Yanadi” a scheduled tribe in India. They mainly subsist on Agriculture labour, inland fishermen, watchmen in the fields and orchards of farmers. Collection

of firewood, rickshaw pulling, rodents catching etc:

We found some people from that group who lost their parents in an accident where their bodies were crushed under the boulder after rolling down the hill. From then on, they left alone and sufferings surrounded them. Even they searched for food in garbage bins to save their lives from hunger.

God has seen their afflictions and the help was received by only our lord God itself. As believers of Christ, we did as he commanded us to do and brought them closer to the love of God and his salvation.

**Day: Thursday**

## **Six orphans seeking help to go to school.**

When we meet orphans, most of them ask for food, clothing and shelter, but rarely some children ask for help to go to school and these six children fall under this category. We received a call from one of our volunteers by stating that some children were working in construction sites. Immediately, we rushed into the place where they were in with food packets & clothes and distributed it to them.

We gathered all the children and started asking about the cause of working. Some said that their parents willingly sent them to work for household expenses, and some of them said that they want to meet their needs because there is no one to look after them. We conducted a counselling session to the supervisor who assigns the work to the children, and meanwhile our volunteers separated the orphans from the group and brought them to us.

Later, one child asked us do we support their education by providing the basic needs? We said yes, by god's grace we could and told them to depend on him for every need. Hope God will fulfil their needs through our organization.

**Day: Wednesday**

## **True Joy Global Foundation revealed “True Love” to teens.**

The word “Love” has faded away from the world and most people are using it for their own selfish desires. To make people know what true love is, we visited Bethapudi village (Bapatla Mandal) and revealed the true love of the lord Jesus Christ.

The majority of the teens in this picture censured us and showed boredom before

starting the sermon. But the Holy Spirit touched their hearts and helped them to know the love which Jesus had shown on the cross.

These teens have a heart to know the true God and his love, but they are strongly tied to their religious backgrounds. So to make them know the truth, first we decided to compare the love which today's world is following with the true love of Jesus and have shown them the difference between these two.

Finally, some teens from this group accepted the truth and some were in a dilemma.

Anyhow, God is the centre of our life, and we strongly believe that he will soften the hardened hearts.

**Day: Friday**

## **Alcohol addicted adolescents accepted Christ as their lord and saviour.**

Care and support are the two main key things which are vital for every child to lead a better life. Just imagine what if there is no one to take care of. Gopi and Shankar (From left to right) are also in the same position where no one helped them. These two adolescents are badly disturbed and kicked out by their relatives after losing their parents in COVID-19.

No one helped them with basic needs, and no one even consoled them. Whenever they approached some of their relatives' homes, they literally closed the door on their face. Yet still, they stand in front of the house by thinking that at least these people won't give a glass of water to drink, but they won't.

From then on, their hearts are hardened and thought to teach them a lesson by reaching a good position in life. They started to work hard but Satan, the deceiver of the whole world, tempted them to drink alcohol, and they got addicted to it and enjoyed life in darkness.

But the light of Jesus shone upon their lives and installed true Joy in their hearts. Now they are in great need of spiritual care and our organization is with them. We also request you

too to come and help the perishing souls through our organization.

**Day: Monday**

## **Distributed food and clothing to widows.**

We can see numerous passages in the bible dealing with widows. It means that God has a special concern for them, along with orphans and others in difficult circumstances. So, as a child of God, it is our responsibility to do what our lord has commanded, and we did the same to them.

All these women's lifestyles are wholly different, they are nomads who collect the scrap from different places and sell it to scrap

buyers, and it is the source of their income. They shared all the problems with us while they were travelling from one place to another.

Even sometimes they struggle a lot if there is any medical emergency for their kids, and they feel it as a burden to pay the hospital bills. We heard about all their trials and tribulations and told them to have hope in God. We have a strong desire to adopt their children and want to give them food, shelter, and education. Let us one in spirit and follow the Holy Spirit guidance.

**Day: Thursday**

**The hearts of the children are overwhelmed with God's love.**

When we know that someone loves us unconditionally without expecting anything from us, how do we feel? The overwhelming joy flows through the hearts of children after listening to the love which God has for us. We visited a village called Stuart puram to share the Gospel.

In the entire one and a half hours meeting, no child even turns from his place. Now just

understand how much attention they paid?  
Children's hearts are sensitive. If we train them correctly on a proper path, definitely, they won't turn from it. So, true Joy global foundation took the initiative to spread the love and sacrifice of our lord Jesus Christ.

All these children belonged to the families of economically deprived, but they are rich by heart. They don't have proper resources, but they know how to utilize the resources which they have. They are content with what God gave them. Their honest lifestyle was seen by our lord and sent us to help them to know the love which he has for them.

**Day: Monday**

**True Joy Global Foundation embraced the underprivileged.**

Our hearts go out to the underprivileged families who are struggling a lot to meet the necessities of life. We have noticed a few men from this category and helped them with physical and spiritual food.

These people are migrants from the North Andhra region who left their villages to find employment in the towns and cities. Likewise,

they came to Bapatla town and were on a job hunt. Luckily, some of them found the daily wage labour jobs in different sectors and some of them can't.

But they have great unity and help each other until they succeed. You can see their houses which are completely covered with metal sheets and a crowd of people take shelter in each house, and also they don't have hygiene food and water.

After seeing all these things, we prayed together for their situation and helped them. We also request all the believers to help the people around you and sow the seeds of Gospel in their hearts.
