

# ADVANTAGES OF WOOD LAP

## AFFORDABLE

Starting at just \$35, our WOOD LAPS are far more budget friendly than some of our competitors

WOOD LAPS are approximately 1/2" thick making them strong and stable over time

## DURABLE

## LASTING

Manufactured from high-quality lumber and carefully cut from the best sections, our WOOD LAPS are designed for extended use and many projects

WOOD LAPS are light and easy to mount onto a faceting machine. This can prevent straining the motor over time

## LIGHT-WEIGHT

## HIGHLY VERSATILE

Our laps can be adapted to polish difficult facets and with many faceting machine set-ups

WOOD LAPS perform well with a variety of polishing compounds and operates like many alternatives

## SIMPLE TO USE

## EASY TO MAINTAIN

Resurfacing the WOOD LAP requires only a quick sanding, cleaning with mineral spirits, and a lubricant
