

Hampton Propagande Second Annual Newsletter

Hello friends, family and supporters. We are happy to announce that Hampton Propagande LLC has now been officially formed for one year! After graduating from the Seattle Film Institute, Benjamin Hampton formed the LLC, to produce socially politically conscious content. Whether informative, educational, inspirational, satirical or emotional, it is content that seeks to challenge, influence, motivate and add perspective to our current paradigm. Over the next few months original content that we have created and produced will be released. These include original music videos, an animation cartoon, a video & podcasts series and a sports commercial.

On top of these developments, we will be promoting a true crime novel about the JFK assassination slated to be released 11/22/22, along with a documentary about George W. Bush to be released on 9/11/22. Benjamin Hampton has also earned his first CO-Executive Producing credits for his role in the movie Mosquito State (2020), that premiered at the Venice International Film Festival. Along with producing credits, Benjamin has teamed up with a very good friend that he met over 20 years ago, who brought him into join this exciting new venture. There will be an exciting wave of films that Hampton Propagande will have a role in, that will be the result of this exciting friendship and business that has culminated with the reconnection of two old dear friends. Over the next year, Hampton Propagande seeks to grow from a small privately owned LLC that produces video content, to a larger production company with part time employees and content creators. It is

with your help, support, and assistance that we can meet these financial and collective company goals.

The first project slated to be released is an animated music video that we designed, created and produced for the artist **Immortal Technique**. Immortal Technique is an amazing, thought provoking, inspiring, politically conscious rapper, who makes informative and important music. He has personally been leading what he calls Rebel Army Runs, where he goes to different neighborhoods, housing projects, and lower income towers to deliver food to elderly citizens and those in need. This is a great project and we donated this video for free to the artist to use to raise funds for these Rebel Army Food runs, in which they are blessing many hungry people in a pivotal time of need. The total cost of the project to produce was \$10,000, we are hoping to match or double that amount fundraising to help support these families and people struggling who are in need.

The second project is titled **Lucas Strong**. This animation and cartoon based off the comic book we created, is an inspiring and emotionally riveting piece that centers around the heroic 7 year old real life story of Lucas Bride. Lucas, was five years old, two years ago when he was diagnosed with a very rare type of brain cancer called **Medulloblastoma**. This was a terrifying experience for the family as they held on with worry and fear, that Lucas would not recover or beat the disease. Lucas thrived and showed perseverance, strength and endurance to overcome these arduous physical treatments. This is a non profit animation, that we have produced to be gifted to Lucas later this month! It will be a surprise for Lucas and his family, and I highly encourage you to donate to this project if you are able. It is inspiring, informative and a nice cautionary tale for parents to heed, to closely monitor and listen to your children's medical and personal needs. Luckily, the quick action by Lucas' parents, may have expedited his treatment and recovery

while quite possibly saving his life!

Hampton Propagande has also produced a music video meant to be a tribute to [Breonna Taylor](#), with a debut of our new video and podcast series. [Episode 1](#) focuses on the killing of Breonna Taylor and violent aftermath, of protests that swept across the nation in the ensuing months. [Episode 2](#) we interviewed accredited *LA Times* columnist **Gustavo Arellano Miranda** where we discuss the violent rise of the Alt Right Hate groups, along with attacks on Journalists and the Breonna Taylor case. Speaking on the many prescient issues, that have shaped our current social political narrative, it is important and crucial for a small business like ours, to contribute our art and message into this lexicon of progressive, socially conscious, responsible content. We will be releasing more content in the coming months, that will be centered and focused in these mediums.

Lastly, I would like to take this opportunity to highlight a talented cinematographer and musician, who has helped edited and produced some of our latest content scheduled to be released. Joseph Sphar just completed his coursework at the

Seattle Film Institute. He began working with Hampton Propagande LLC last year, and has been instrumental in the production of our content that we are beginning to disseminate. Joseph is a hard worker, an exceptionally gifted musician, and will become a force in the film industry! I would like to take this opportunity to endorse and support Joseph to help him meet his personal and professional goals.

Joseph is highly proficient in using Adobe Premiere editing software. He is skilled at mixing audio and recording his own music for soundtracks as well. He is knowledgeable at using 4K cameras and technical equipment along with color correction and some basic after effects. With the 4K Black Magic camera, Joseph can shoot, edit and produce his own content for personal, professional or commercial use.

Thank you for your time, support and contributions! We appreciate each of you and look forward to sharing this exciting venture with you!

In these very controversial and challenging times, we ask for your assistance, support and encouragement. We are all in this fight together, to make our country a better one to live in for our children tomorrow and in the future. Together, we can make positive, impactful change. Check out our website @ [Hamptonpropagande.com](https://hamptonpropagande.com) stop by our Facebook, Instagram, Ankor Podcast Page, Patreon site or Twitter, pages also as we are set to expand those as well!

Sincerely,

Benjamin Hampton,

Hampton Propagande LLC
