

Dumaresq Solar Farm

Traffic Impact Assessment & Management Plan Investigation

Call for Expressions of Interest (EOIs)

Dumaresq Solar Farm (the “Project”) is located within the Inverell Shire Council, with the Project site being located between the towns of Ashford and Bonshaw – accessed directly from Bonshaw Road.

The Project will occupy between 200 and 205 hectares once constructed and has a project life of up to 40 years. The Project site is intersected by Transgrid’s Dumaresq to Bulli Creek 330kV Transmission Lines. In addition to PV Panels, the Project will likely include significant Battery Energy Storage.

The Project is advancing technical connection studies and community engagement, and soon will advance the Environmental Impact Statement preparation. Details on the Project can be reviewed at: www.dumaresqsolarfarm.com

Expressions of Interest

Dumaresq Solar Farm Pty Limited (*the Project SPV*) invites businesses both across the New England area and wider locations to register an EOI in order to provide consulting services to develop a Traffic Impact Assessment & Management Plan which will form part of the Environmental Impact Study. The dedicated email for all EOI responses is: eo@dumaresqsolarfarm.com

Scope of Works

The high level scope for this initial work package is based on providing professional consulting services which will investigate and report on a number of matters including:

- An assessment of peak and average traffic generation for both construction and operational periods.
- A cumulative impact assessment of traffic across the wider region when alternate Renewable Energy and other significant projects are considered.
- A description of any proposed road upgrades that might be required which would need to be developed in collaboration with various NSW authorities.
- A framework of mitigation measures for any transport impacts that are likely to result during the construction period.

There will likely be other matters requiring investigation, with the final scope of works being settled once SEARs has been received.

Initial Notification Only

The exact scope of the package works will be outlined in the detailed Request For Proposal (RFP) that will be issued to parties that are invited to tender.

That RFP will also outline information required to be submitted on other data points including capabilities & experience (*including with solar developments*), potential conflicts of interest, personnel & insurances.

Dumaresq Solar Farm

This EOI process is at an early stage and there is no representation that the Scope of Works will proceed on any timetable, nor at all. Any Scope of Works may be subject to change.

Whilst all parties are thanked in advance for lodging an EOI, Dumaresq Solar Farm will only be in contact with those that are invited to submit a Tender.
