# Our Mission

The mission of the [Canada 911 Ride Foundation](#) is to honor and preserve the legacy of fallen emergency first responders—police, fire, and EMS—who have bravely sacrificed their lives in the line of duty.

We achieve this by placing Automated External Defibrillator (AED) devices in their names, ensuring their life-saving spirit continues to serve the community. In addition, we provide post-secondary educational support to the children of these heroes and collaborate with the [Mikey Network](#) to expand the availability of public access AEDs, further embedding their legacy into the fabric of our communities.

# A History of Giving

Over the past 19 years, our foundation proudly raised hundreds of thousands of dollars to fulfill its mission, making a meaningful impact on countless lives through various initiatives. Highlights of our efforts included:

- **Honoring the Legacy of Fallen Emergency First Responders**

We commemorated emergency first responders who made the ultimate sacrifice in the line of duty by dedicating public-access Automated External Defibrillators (AEDs) in their honor. This initiative ensured their legacy endured, empowering communities and allowing their service to continue saving lives even in their absence.

- **Empowering the Children of Fallen Heroes**

We supported the children of fallen emergency service first responders by providing educational bursaries. These bursaries alleviated financial barriers and enabled them to pursue post-secondary education, helping them achieve their dreams and build brighter futures.
