## Purpose

At Woodland Environmental, we recognize that environmental stewardship is fundamental to our operations, services and community responsibility. We are committed to conducting our business in a manner that protects and enhances the environment while delivering exceptional service to our clients.

## Scope and Responsibilities

This policy applies to all employees, contractors, and stakeholders engaged in activities on behalf of Woodland Environmental, across all projects and operational activities.

All employees and contractors are responsible for understanding and implementing this policy in their daily activities.

Senior management shall ensure resources, support and leadership are provided to achieve environmental objectives.

## Policy Statements

### Compliance and Best Practice

- Comply with all relevant environmental legislation, regulations, and standards.
- Strive to exceed minimum regulatory requirements where practical, adopting best practices to minimise environmental impacts.

### Sustainable Operations

- Implement measures to reduce waste, energy consumption, and carbon emissions in offices and field operations.
- Promote the use of environmentally sustainable products and services wherever feasible.

### Project and Client Engagement

- Integrate environmental considerations into all aspects of project planning, execution, and management.
- Provide guidance and advice to clients to support sustainable and compliant project outcomes.

### Quality and Continuous Improvement

- Align Environmental Management practices with our **Quality Management System (QMS)**, ensuring environmental objectives are integrated into operational and management processes.
- Regularly review and improve environmental practices, setting measurable objectives to enhance performance.
- Encourage employees to identify opportunities for improvement and participate in training and awareness programs.

### Stakeholder Collaboration

- Engage with clients, suppliers, and the community to promote environmentally responsible practices.
- Support initiatives that protect biodiversity, natural resources, and ecosystems.

---

## Commitment

Woodland Environmental is committed to protecting the environment, supporting sustainable development and maintaining a culture of environmental responsibility across all aspects of our business, in alignment with our QMS and continuous improvement ethos.

---

## Review

This policy will be reviewed annually, or as required, to ensure it remains current, relevant, and effective.
