## ABOUT US

ReMilNet has spent more than fifteen years working with organizations to identify and implement smarter ways of operating to lower costs and improve organizational effectiveness.

With ReMilNet as your partner, streamlining business processes, reducing waste, and managing technology allow you to improve productivity and accomplish mission and business objectives.

With hundreds of projects completed since 2003, we have helped our customers identify cost savings, reduce risk, and improve operations.

ReMilNet has supported agencies across the globe both as a prime and subcontractor.

## OUR EXPERTISE

With an increasing pressure to control spending while simultaneously improving services and innovating to keep pace with rapidly evolving technology and regulations, our solutions enable customers to improve productivity, reduce risk, add value, identify cost savings, and increase efficiencies.

ReMilNet's areas of expertise include:

- ◆ Acquisition Management
- ◆ C5ISR
- ◆ Cybersecurity
- ◆ Program Management

From enterprise-wide deployments to specific functional support, our value-add business model provides the expertise and solutions required so our customers can focus on what they do best. Our established methodologies application of best practices support multiple levels of an organization.

Let ReMilNet and our expert staff help you define, develop, and implement a tailored solution to meet your most pressing business challenge today.

## OUR QUALIFICATIONS

ReMilNet's employees exceed qualifications in their field. The majority of our staff have degrees and certifications, and have worked in their respective fields for more than a decade. These programmatic and technical proficiencies are applied to customer efforts day one.
