

# Helping women in active treatment for breast Cancer

## Blossoms for pink

Raising funds for Breast Cancer

*Making Mother Earth Green one blossom at a time.*

Individuals grow a variety of plants and each blossom is transplanted to a unique planter with easy to care instructions.

*Making Mother Earth Clean One Less Plastic Container At A Time*

Individuals transform lackluster plastic planters, that would otherwise be in a land fill, into beautiful pieces of art.

*Tiny Hands*

At the end of each session children take the blossoms they have planted and learn to care for them.

*Making Mother Earth Rich One Personal Journal At A Time*

Under privileged artisans use organic fibres to create a journal in which individuals pen their goals.
