

## Remote Concreter

Northern Remote Concrete is seeking Remote Concreters to join our team for crucial construction projects in remote areas of the Northern Territory. As a Remote Concreter, you will be responsible for executing concrete finishing tasks and ensuring the quality and safety of essential infrastructure in remote environments.

### Duties:

- Form and finish concrete surfaces from supply of batch plant, construct headwalls and wingwalls in culvert construction, set accurate levels and heights.
- Engage in civil works to redirect waterways and ensure optimal infrastructure integrity.
- Operate heavy machinery, such as excavators, water trucks, tippers, and rollers, to assist with construction and material movement.
- Construction of formwork support using hand tools and power tools.
- Perform basic mechanical tasks to service generators and grease machines.
- Maintain clean and organised work sites and handle materials safely.

### Working Conditions:

- Outdoor work in remote Northern Territory environments with diverse weather conditions.
- Shift work including late nights, early mornings, and weekends.
- Adherence to a dry camp policy, with no alcohol or illegal substances permitted in remote campsites.

### About You:

- Ability to work away for extended periods in remote locations.
- Experience in remote concrete work (essential).
- Experience in the civil construction industry (desirable).
- Mechanical experience (desirable).
- NT resident

### Qualifications:

Mandatory: NT Driver's License (Open), White Card, First Aid

Desirable: Traffic Management Cert, MR Licence, Plant tickets, Cert III in Civil Construction or Carpentry

Join our team at Northern Remote Concrete and contribute to the successful completion of essential infrastructure projects in remote areas of the Northern Territory.
