

BRAND ART DECK

# BRAND ART

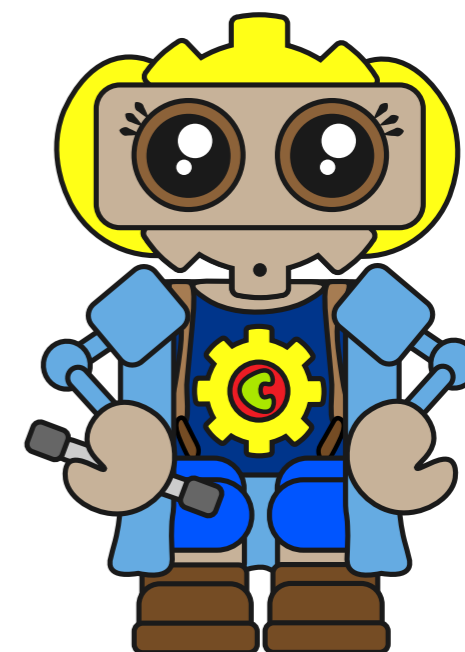

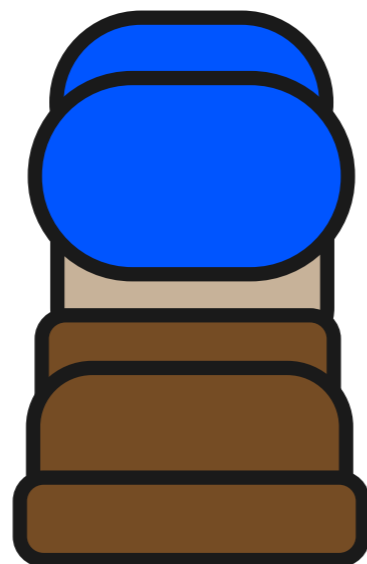

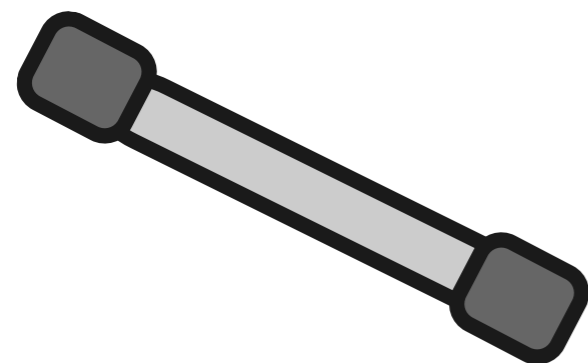

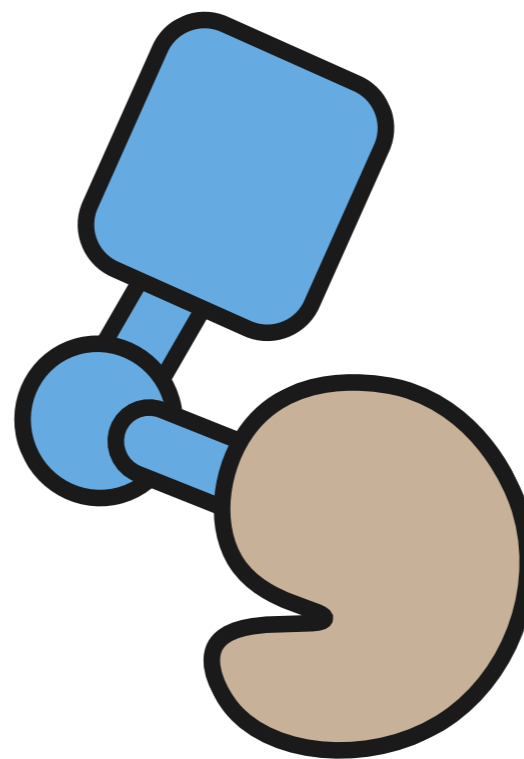

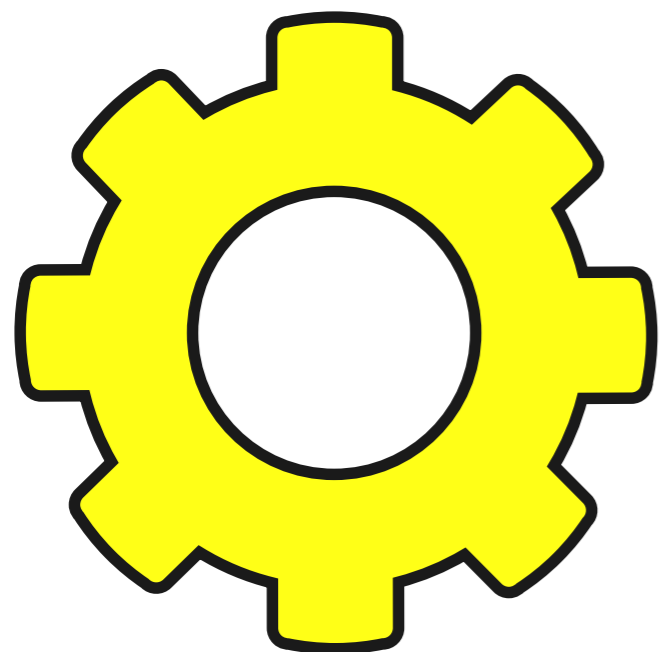

"Fun, bright and colourful artwork that makes a 'Coggee' transform into virtually any 'boddee'..."

From aeroplanes to tractors, gorillas to daleks, heroes to villains, frogs to formula 1 drivers, fortnite to hogwarts... the list is endless.

Coggees attract attention as they mirror their doppelgänger. Coggees are appealing and fulfil a distinct licensing brief for creative art. A multitude of categories can be incorporated, including; posters, mugs, badges, stationery, bedding, books, toys and games, etc... again the list is endless and we've included some examples in the following slides to illustrate why Coggees make an ideal licensing IP partner. See how many you recognise?

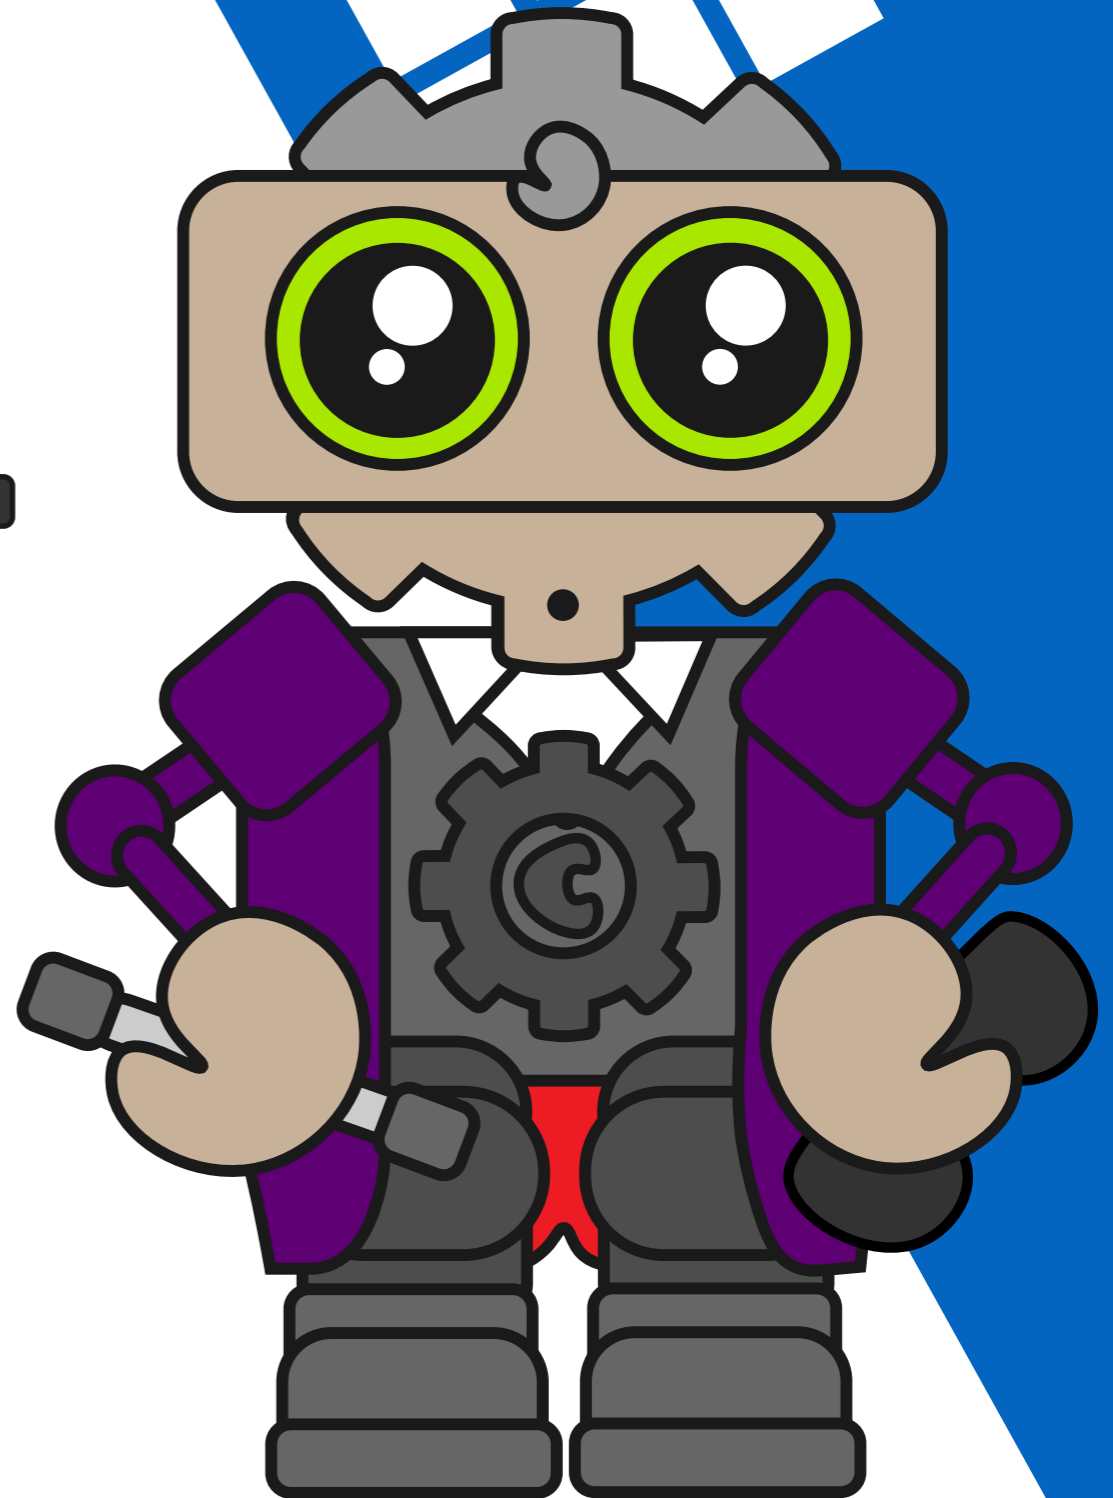

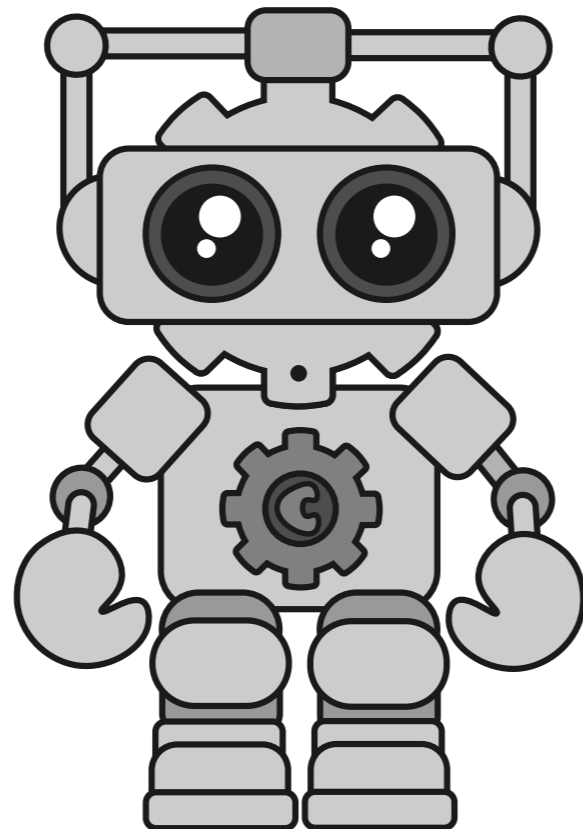

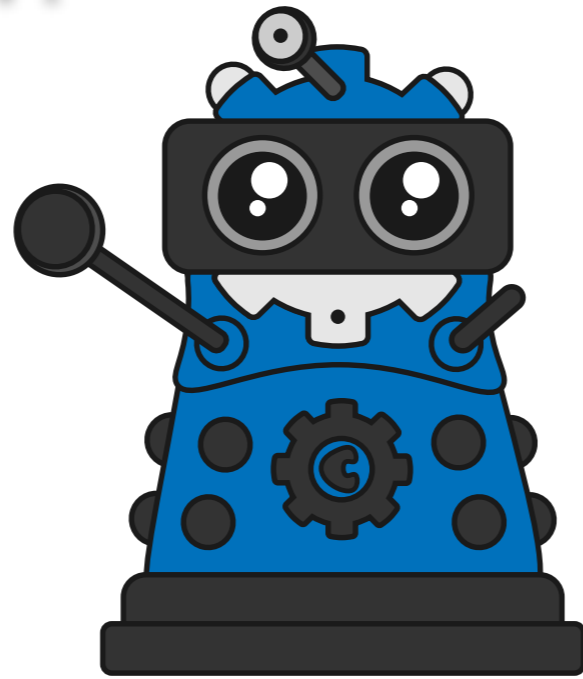

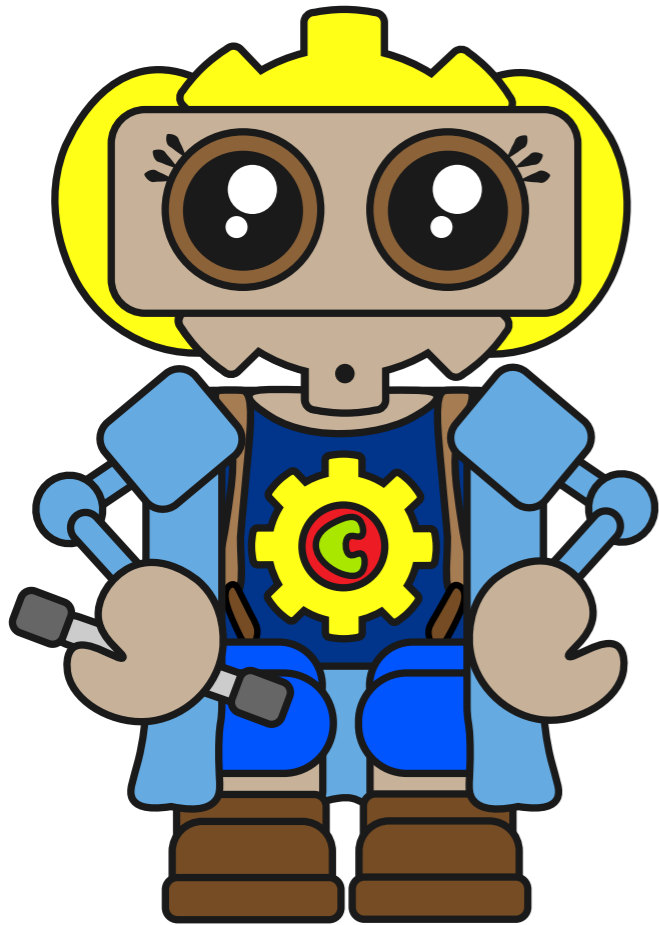

"What makes a boddee become a coggee?"

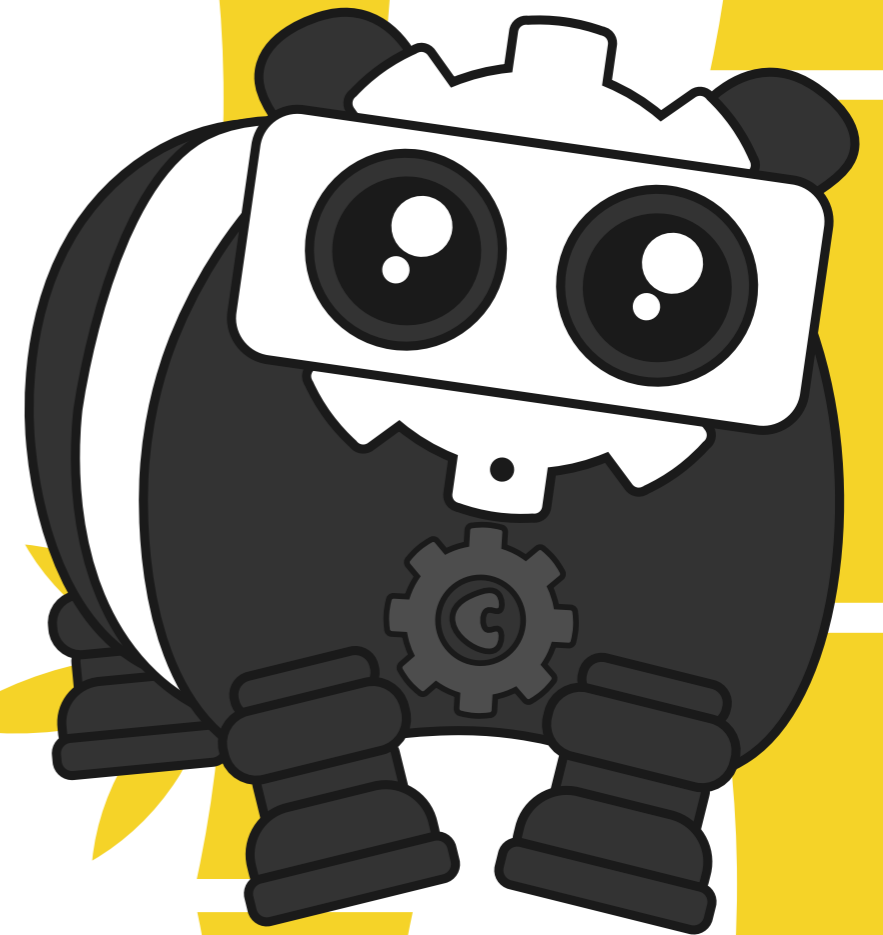

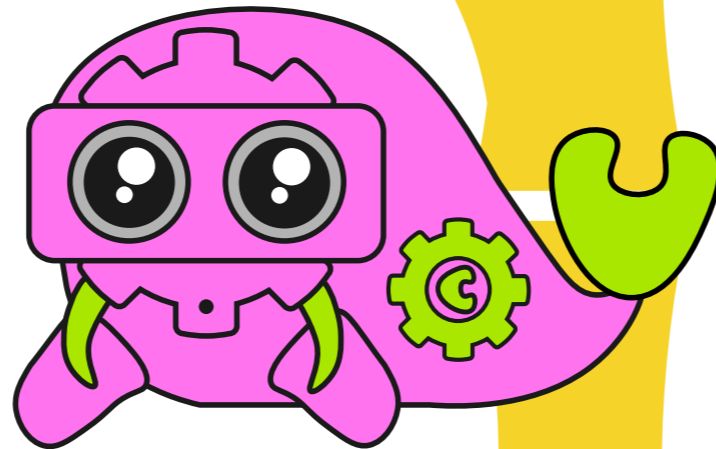

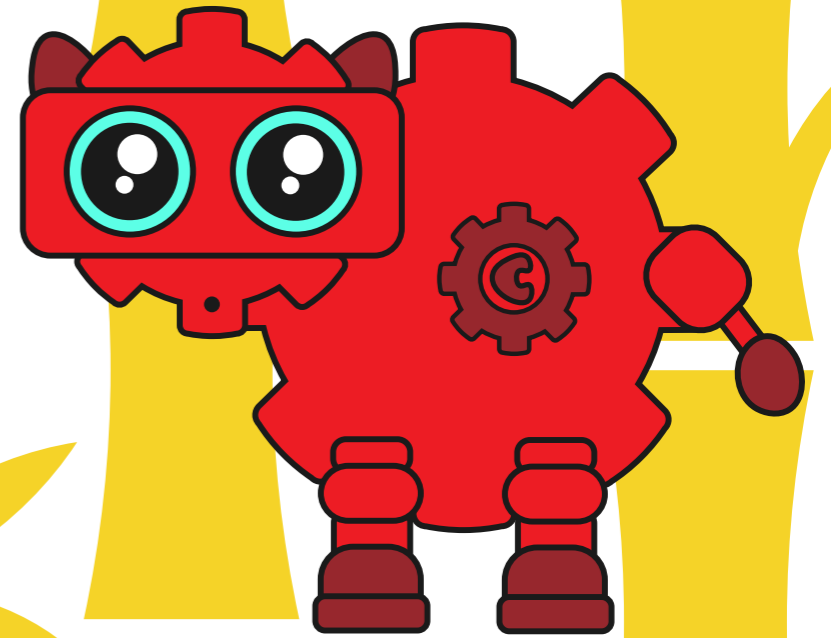

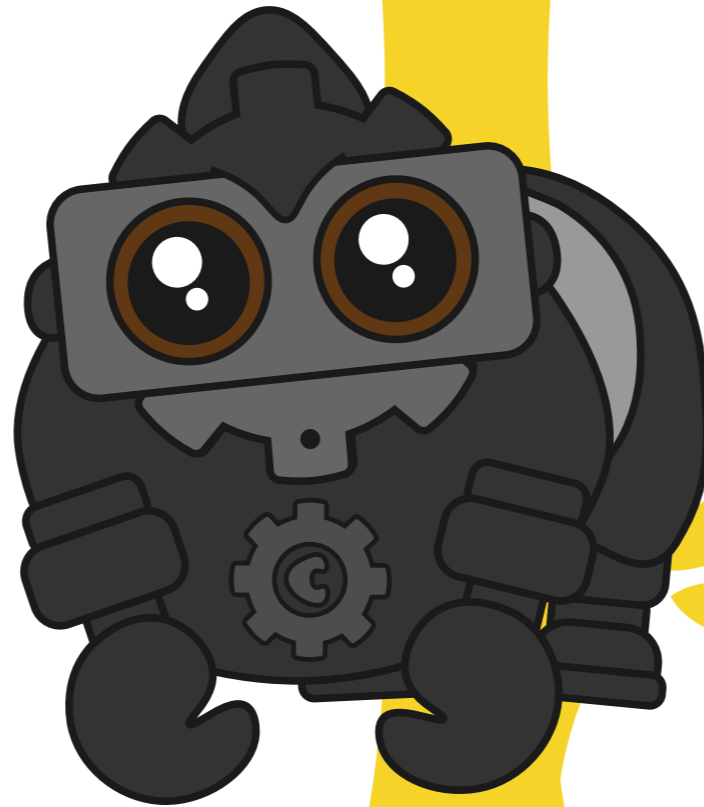

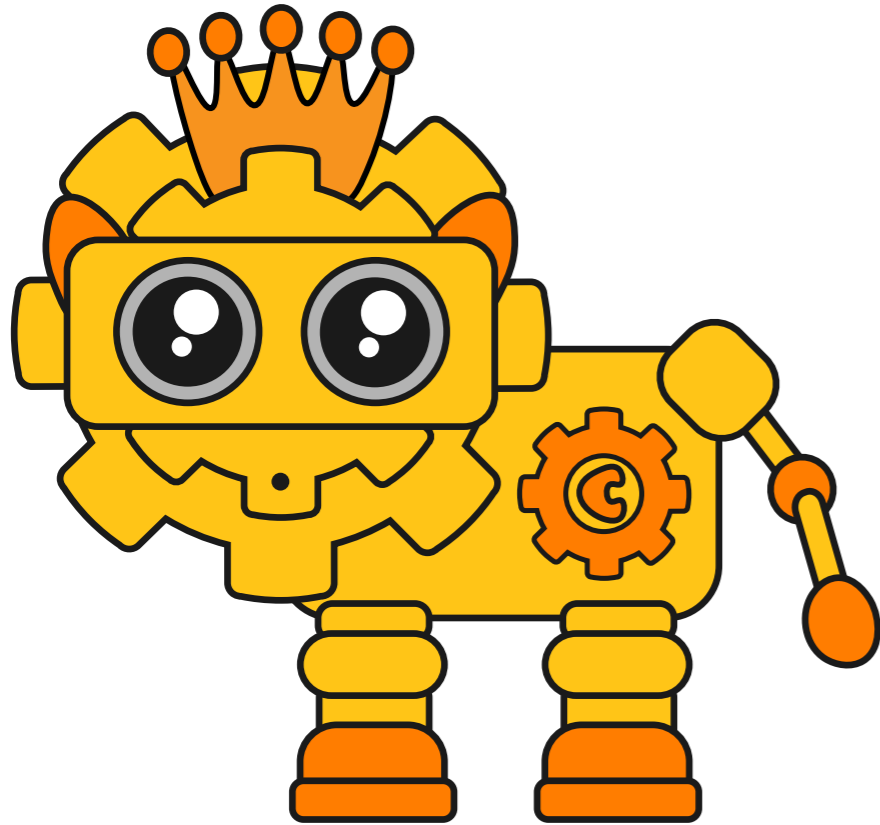

"It starts with a cog and lots of imagination!"

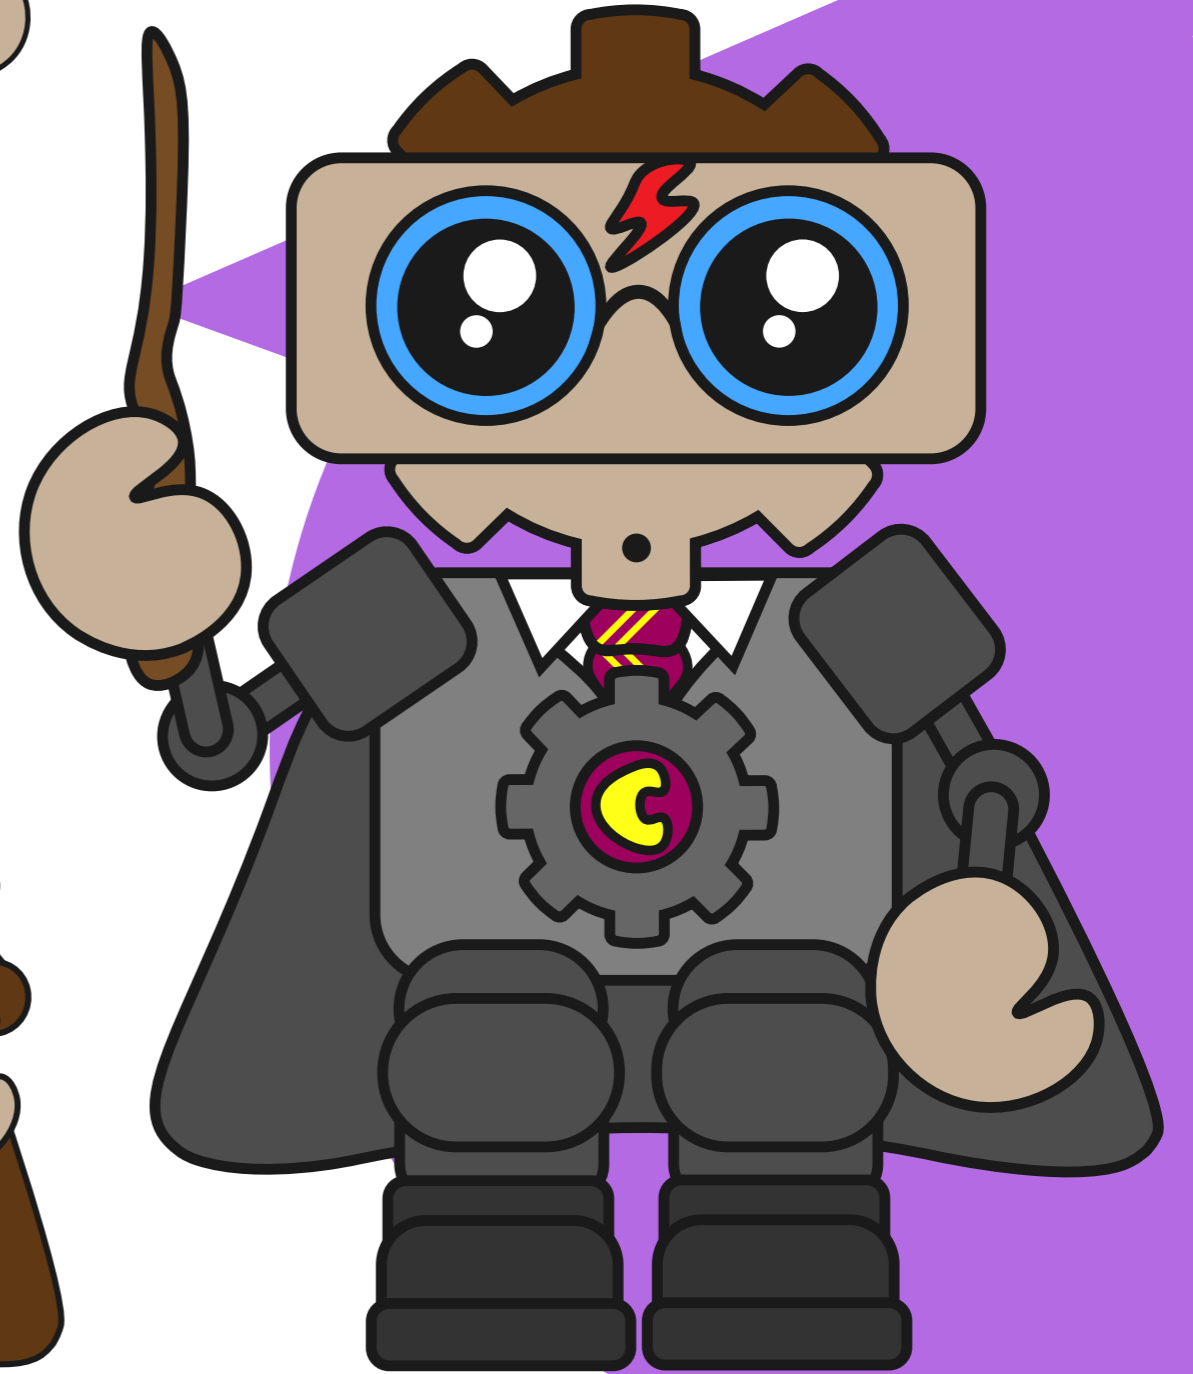

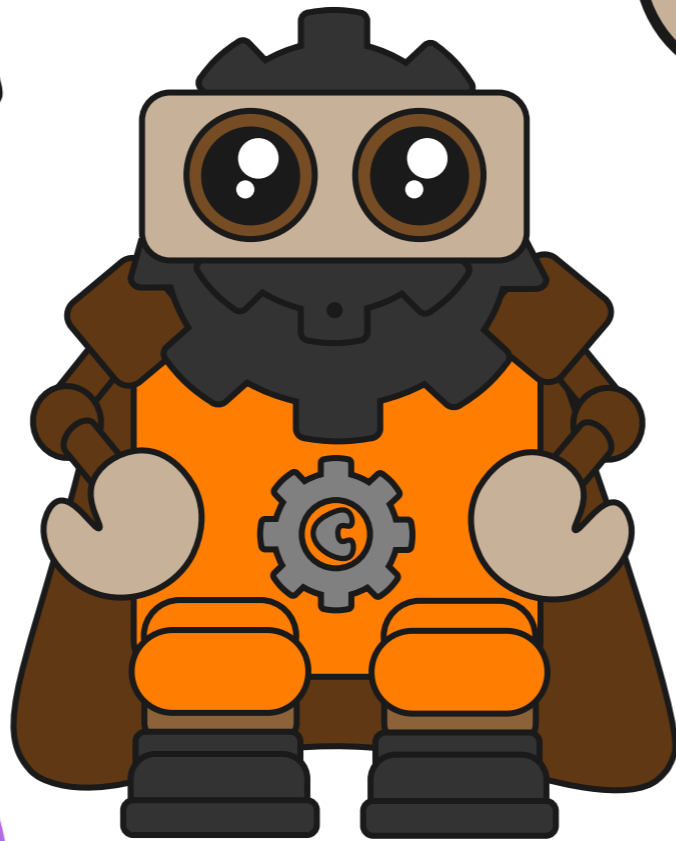

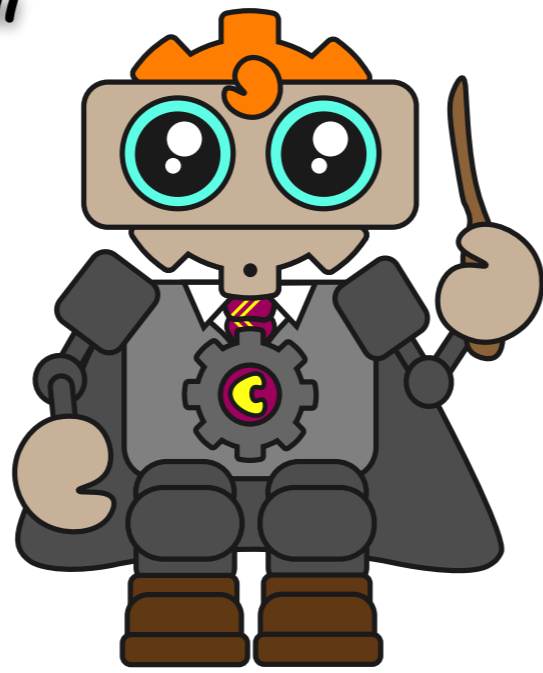

"Who's the Doctor!"

"Animal Magic!"

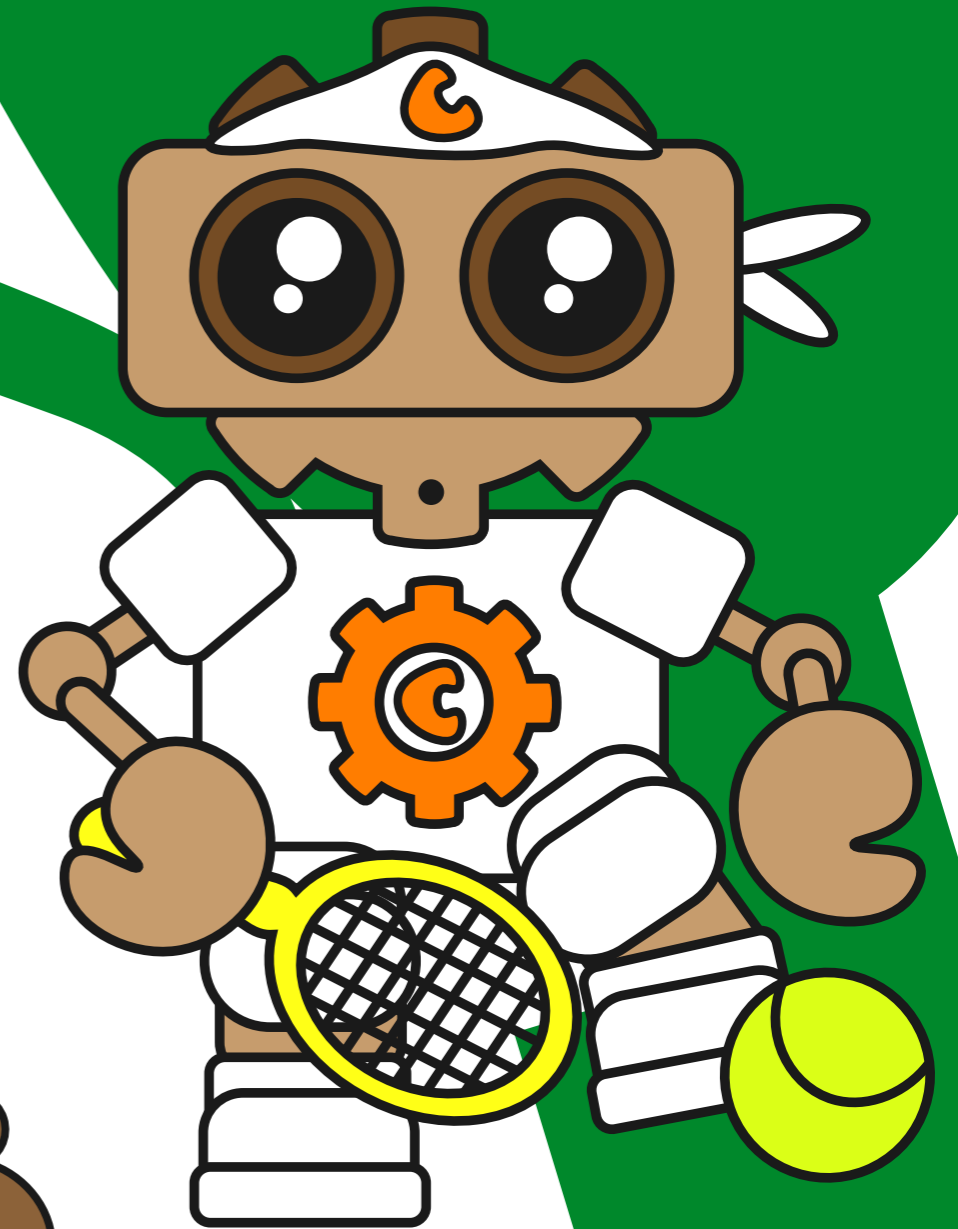

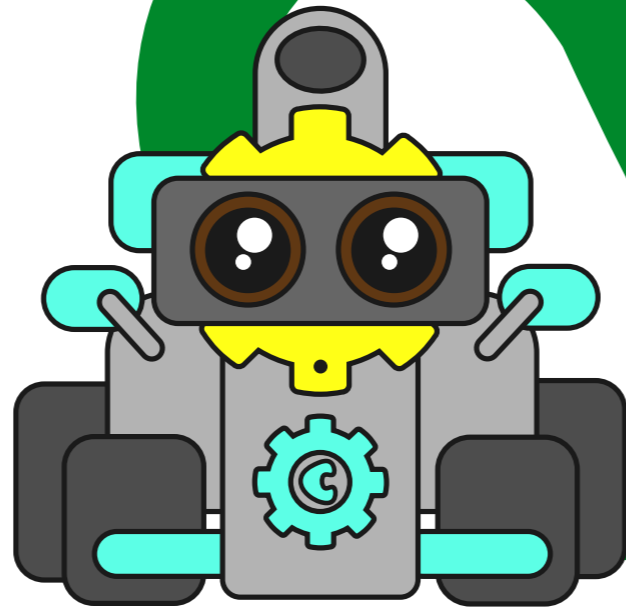

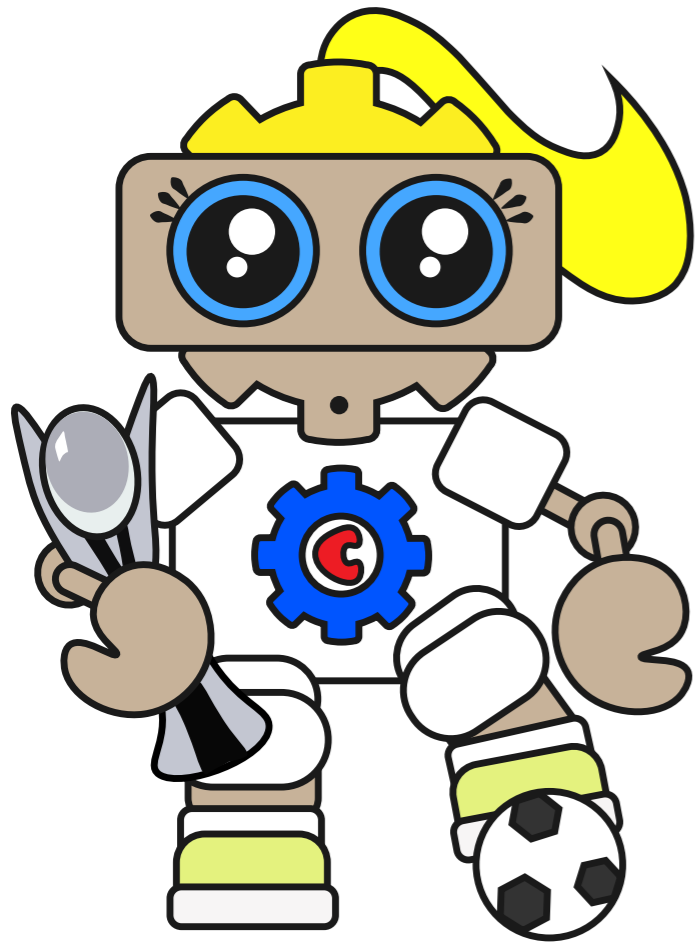

"Crafty Cogwarts!"

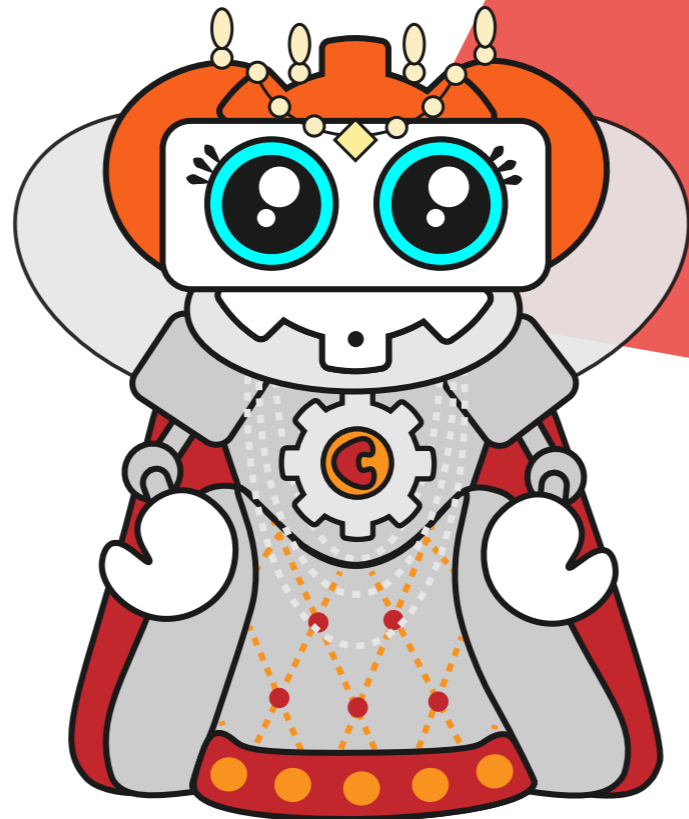

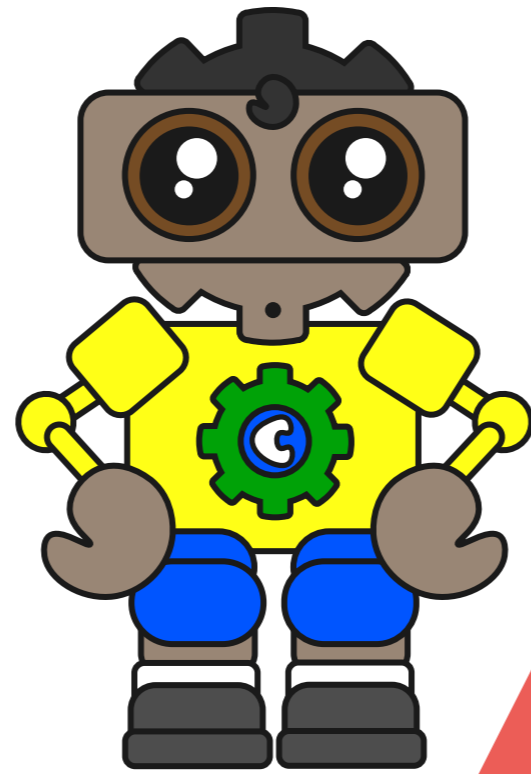

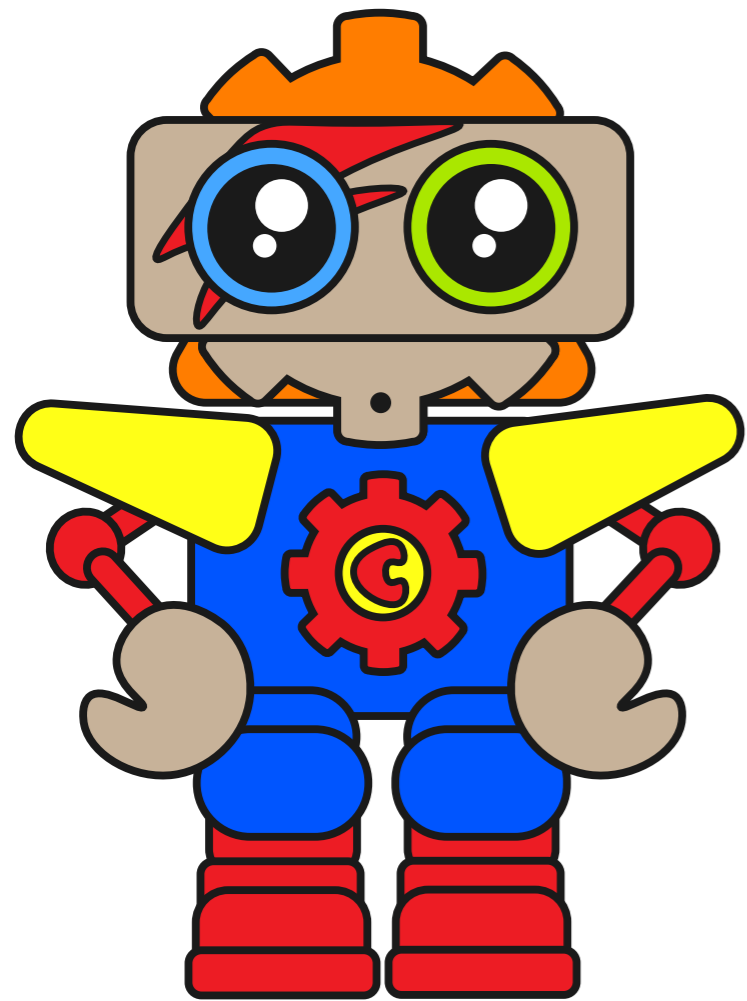

# "Sporting Icons!"

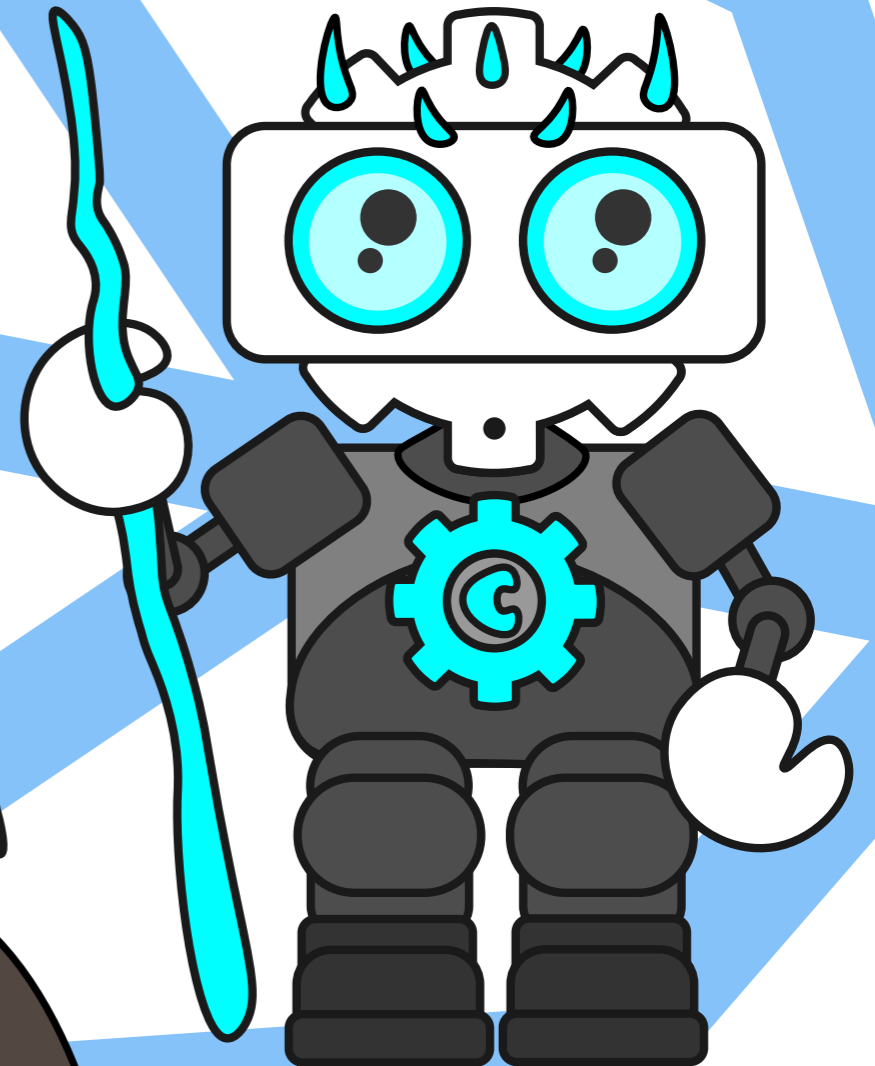

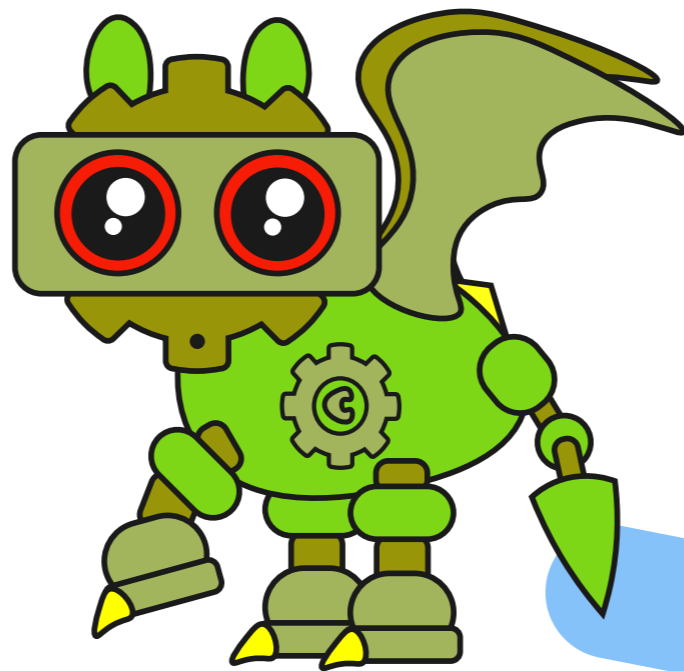

"Legends in time!"

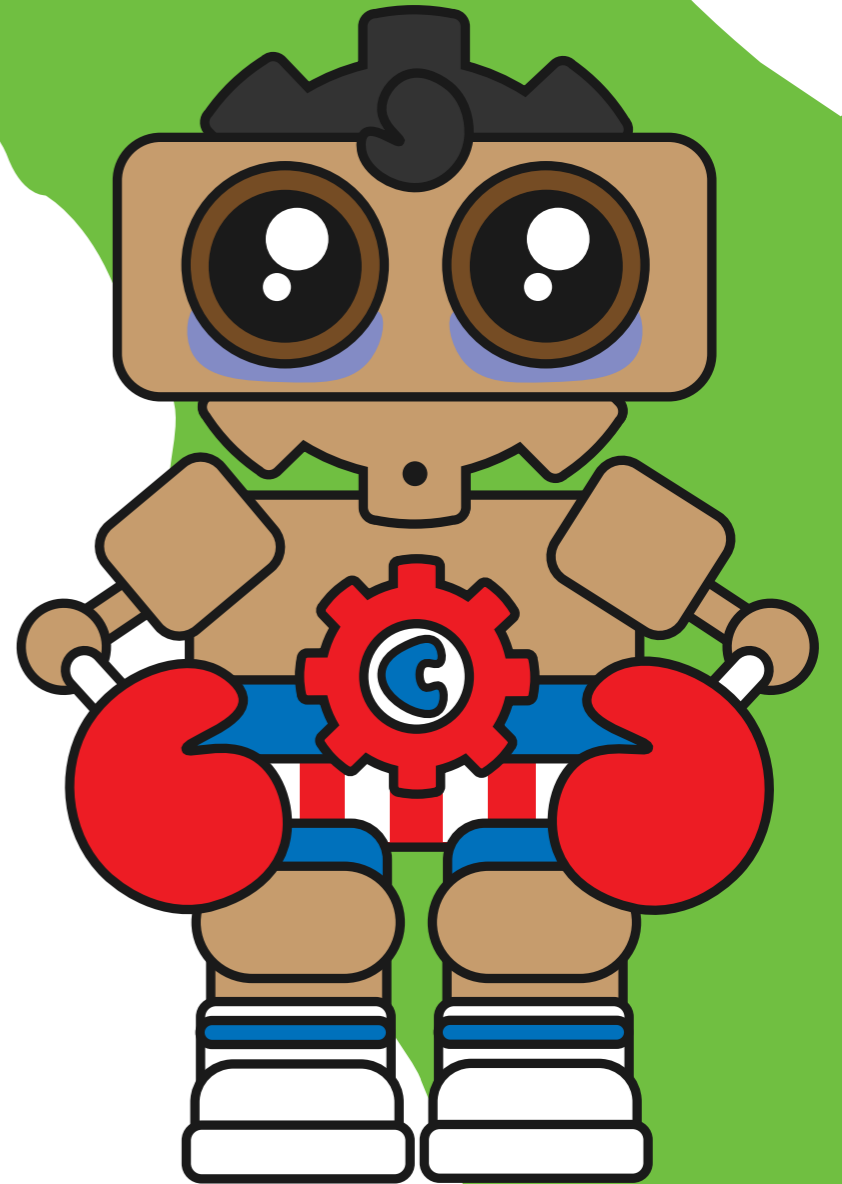

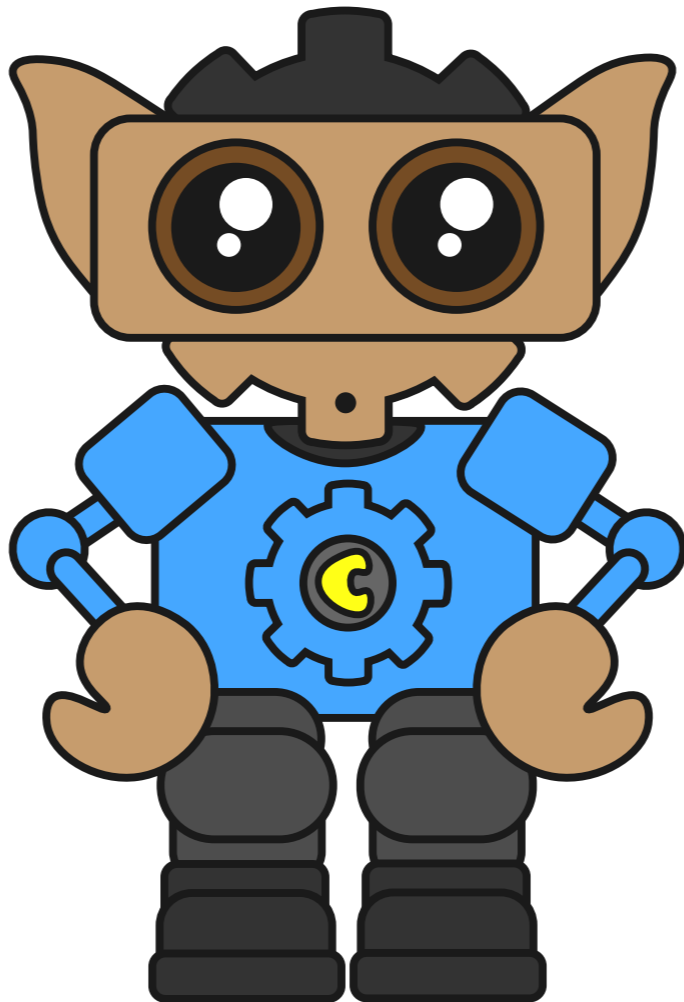

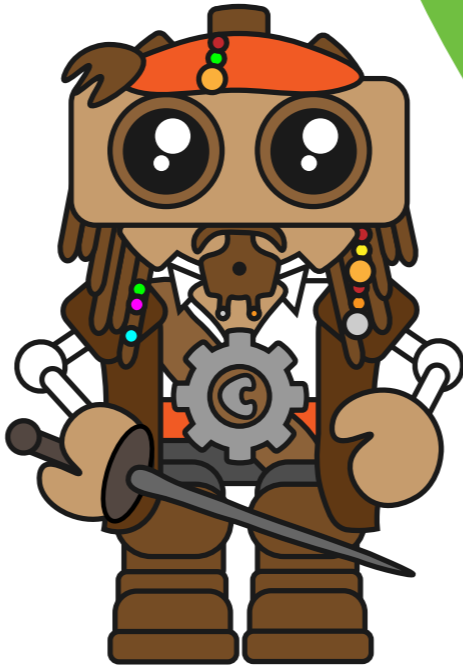

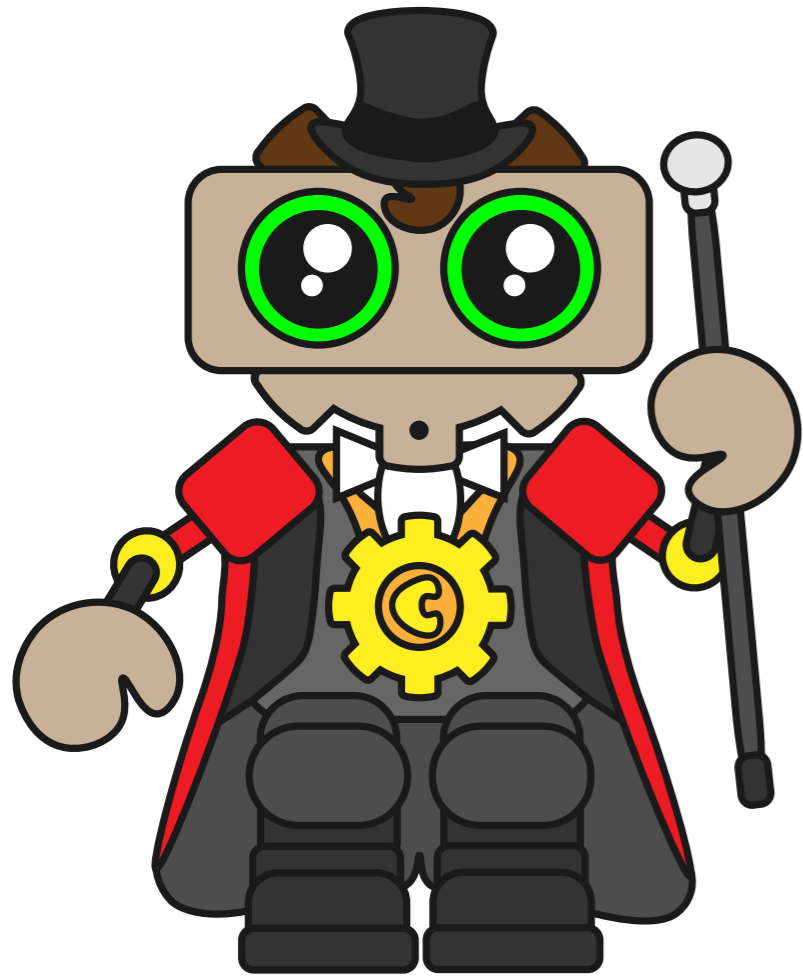

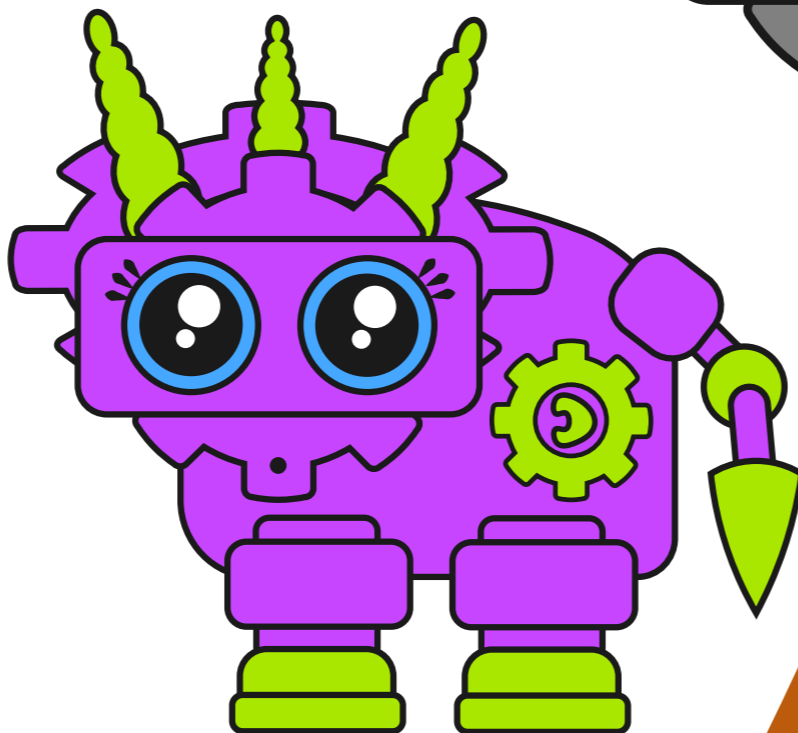

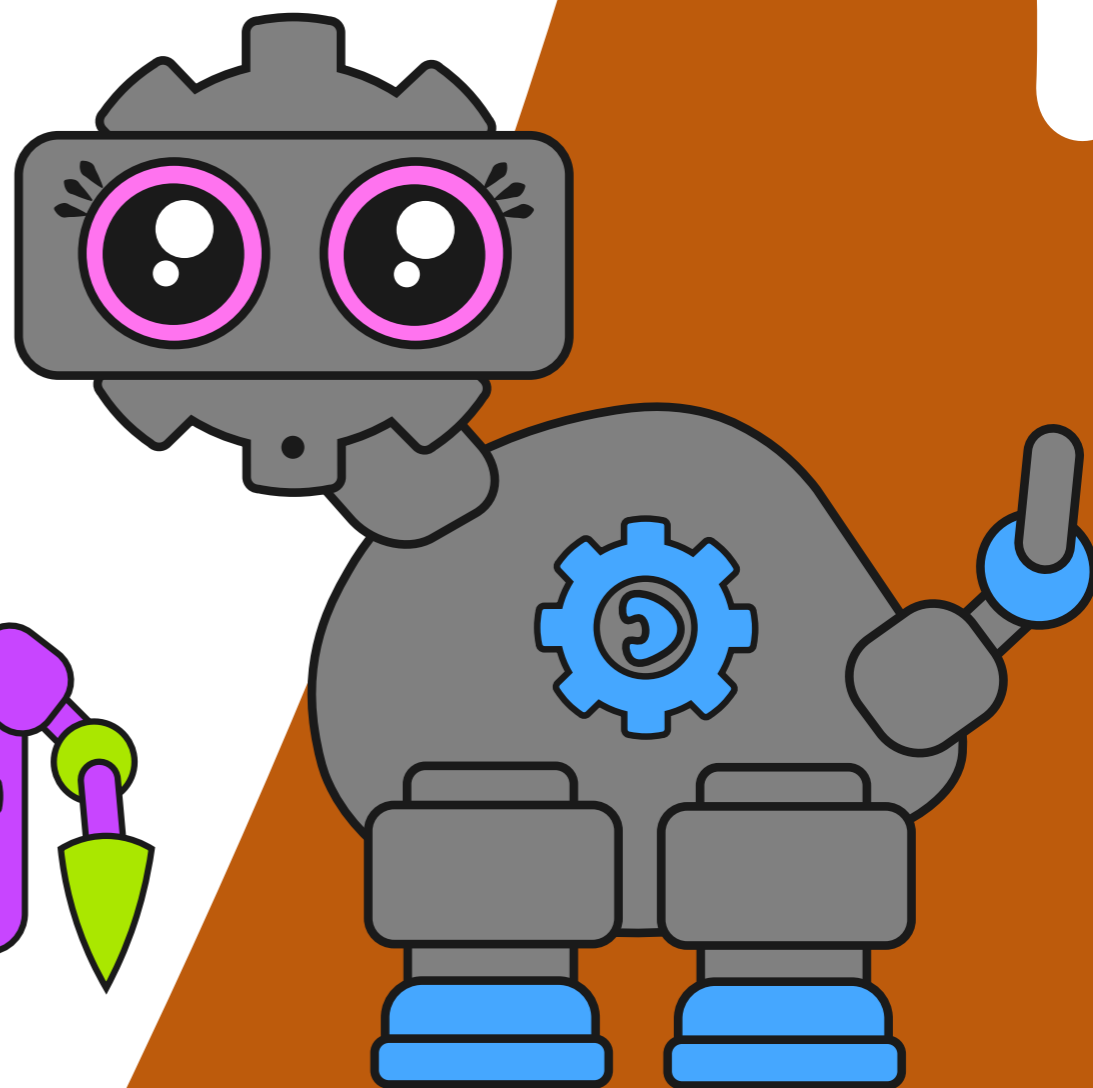

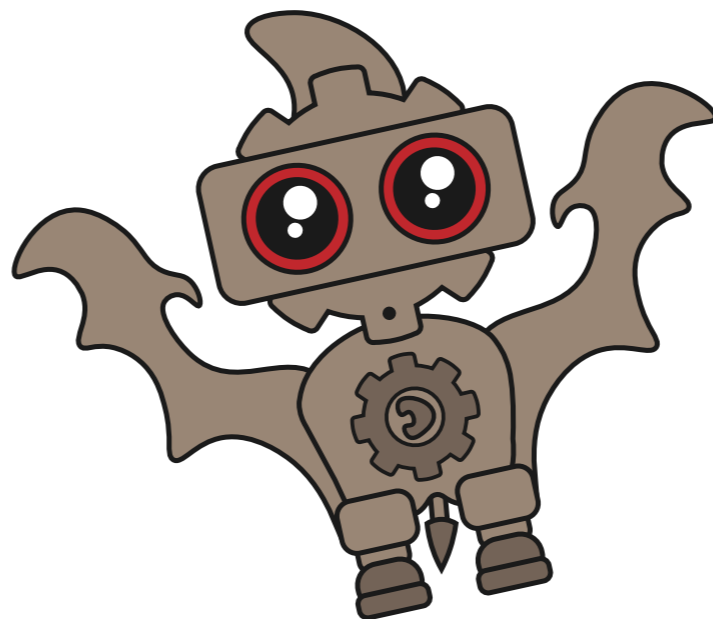

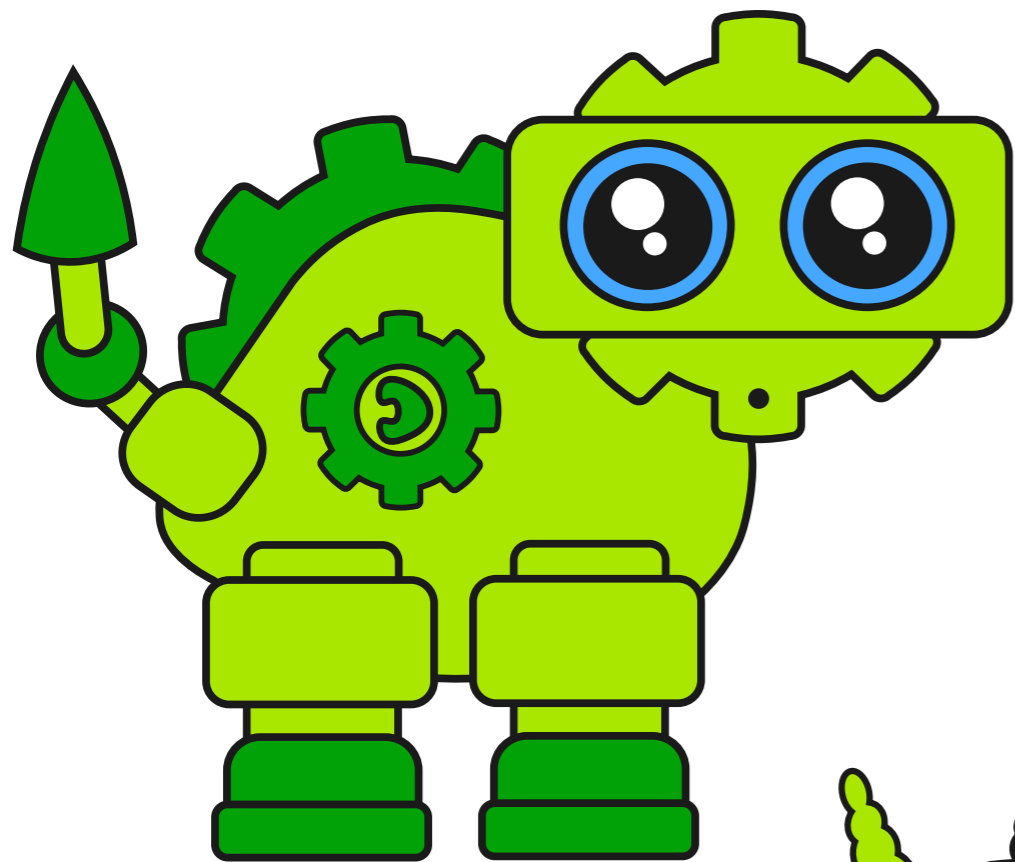

"Fire and Ice!"

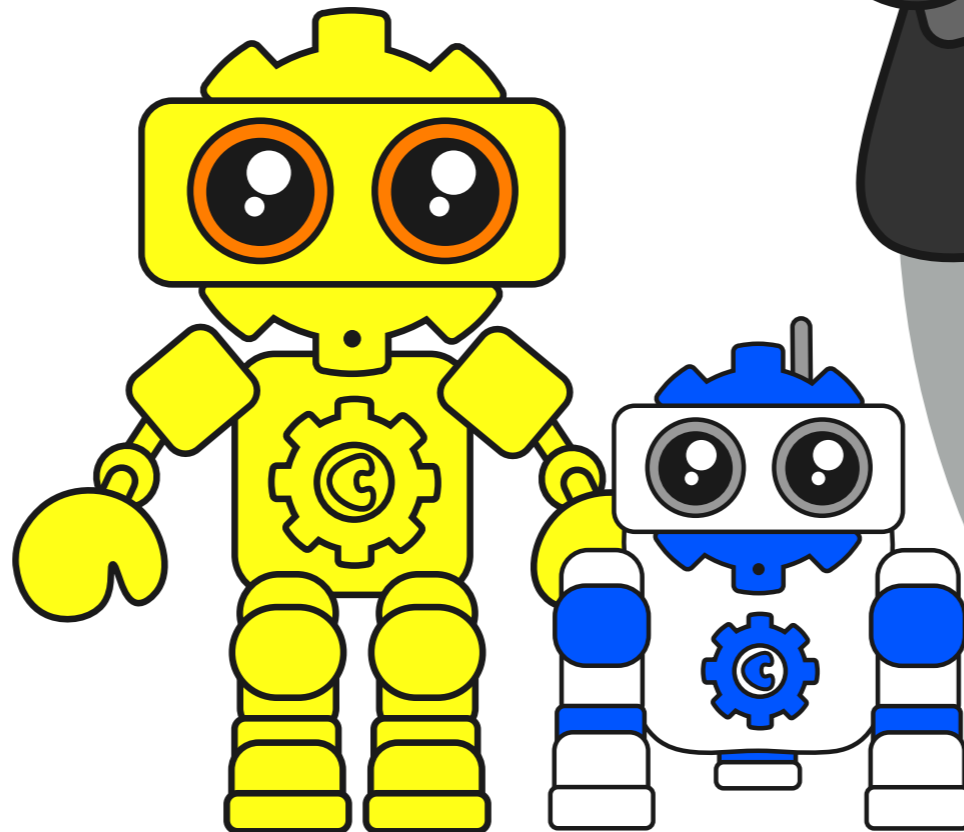

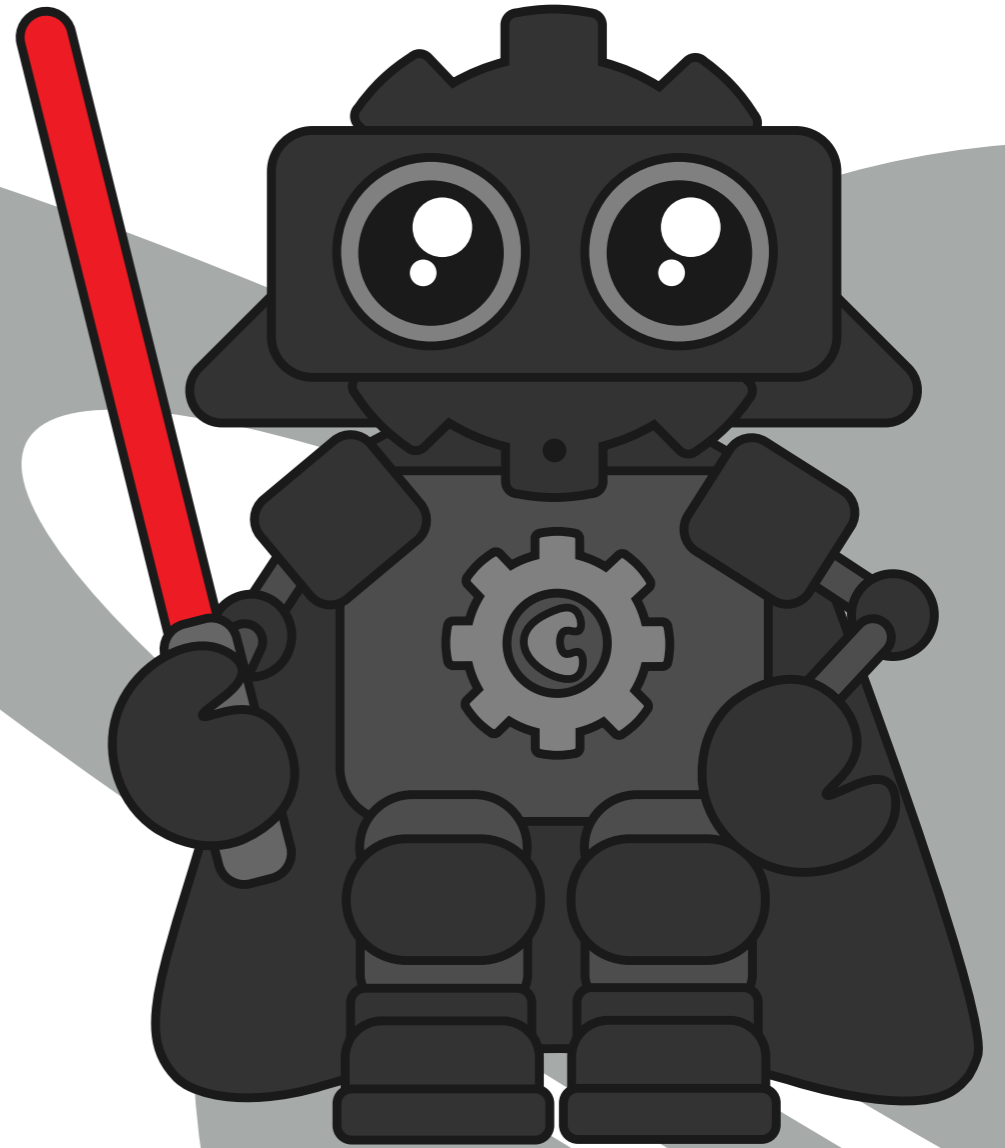

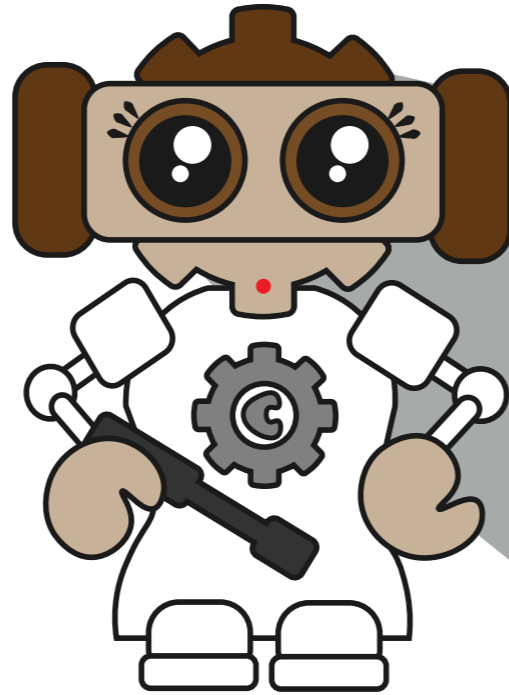

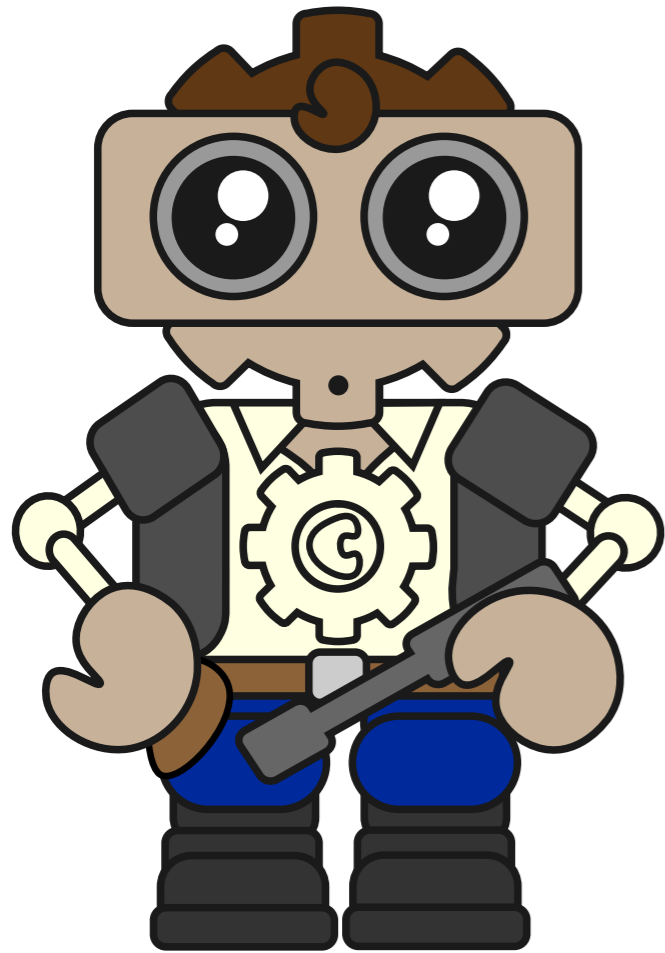

"Cinematic Icons!"

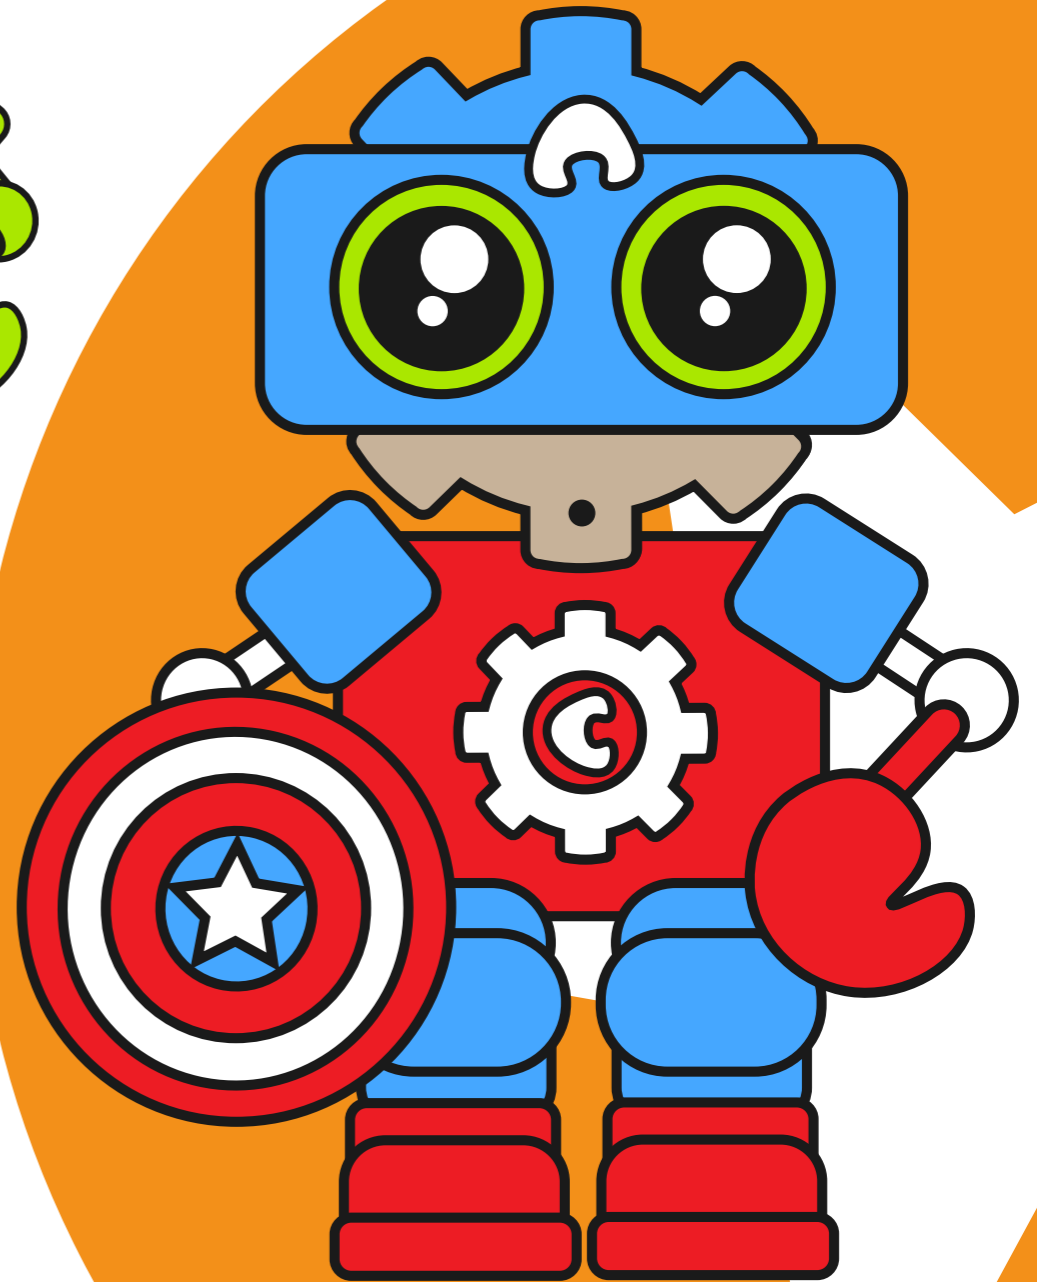

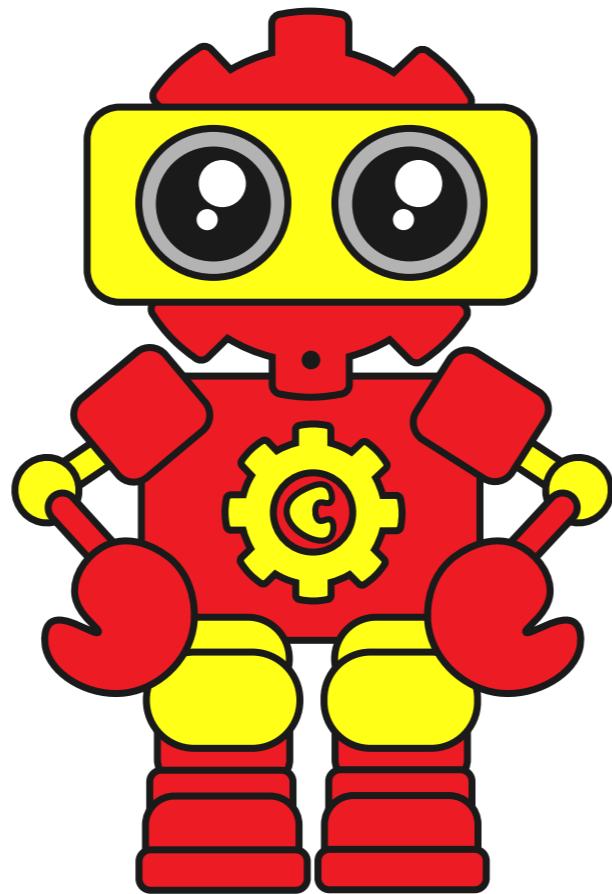

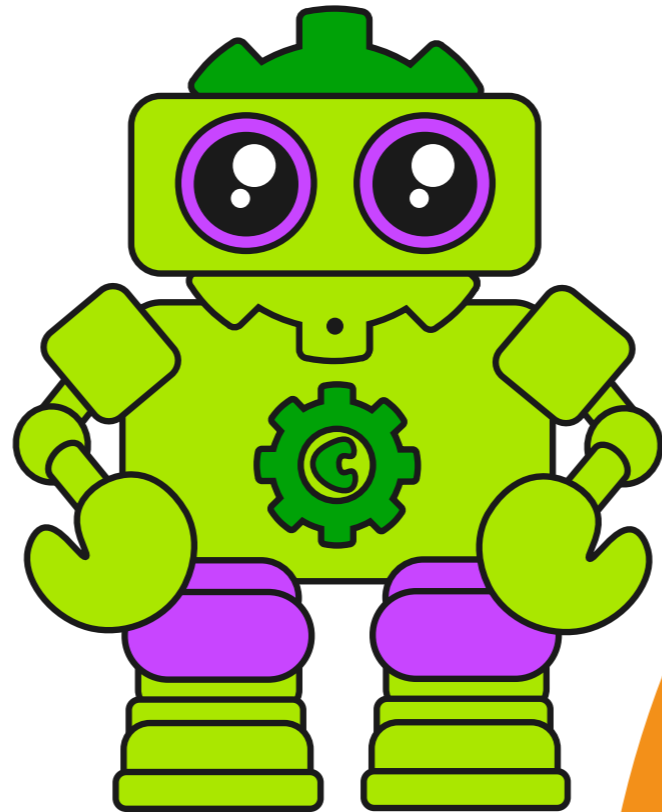

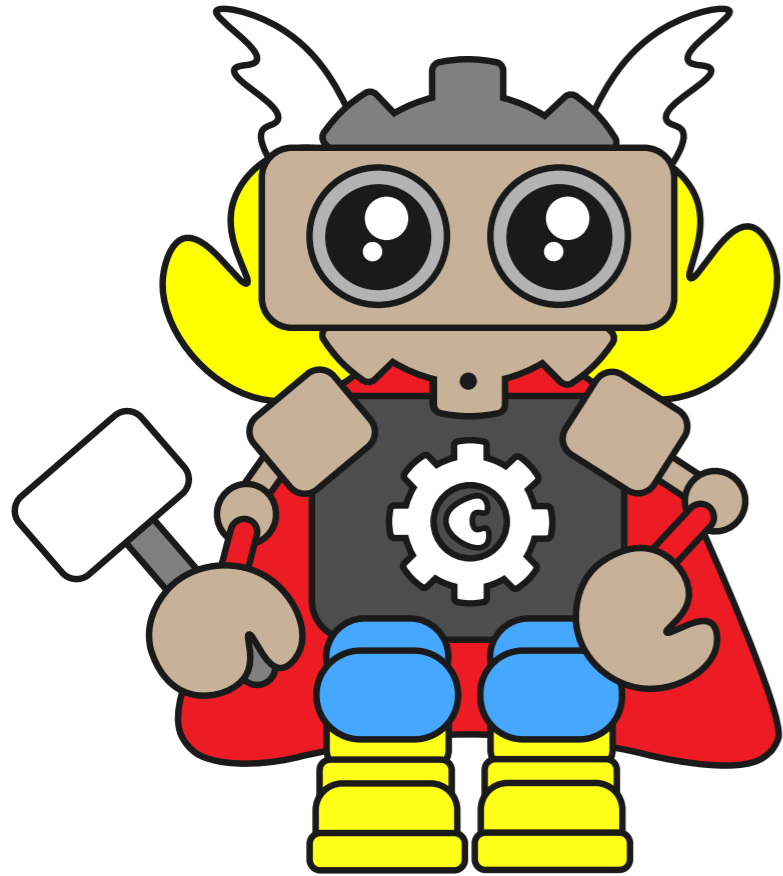

"Dinosaurs!"

"May the fourth be with you!"

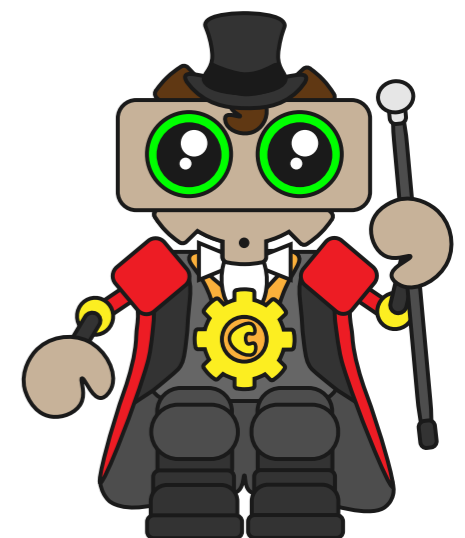

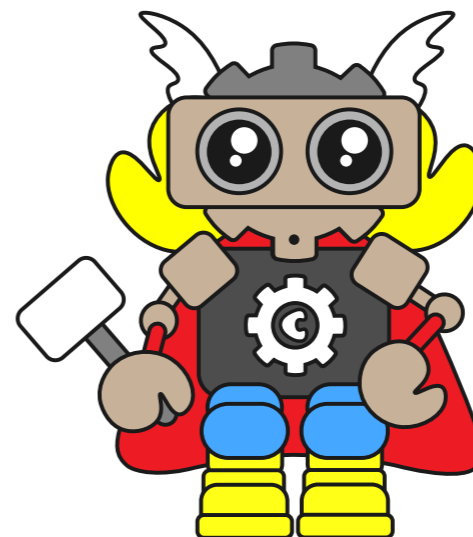

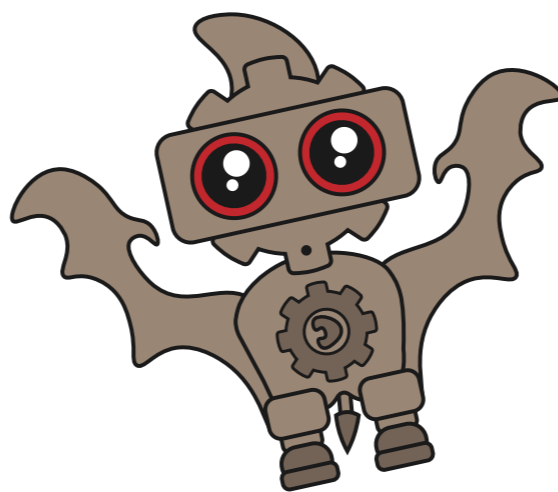

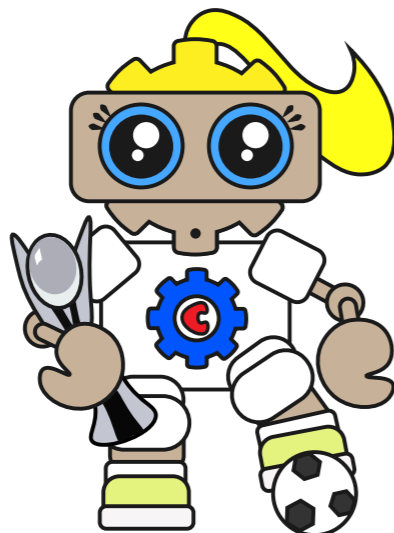

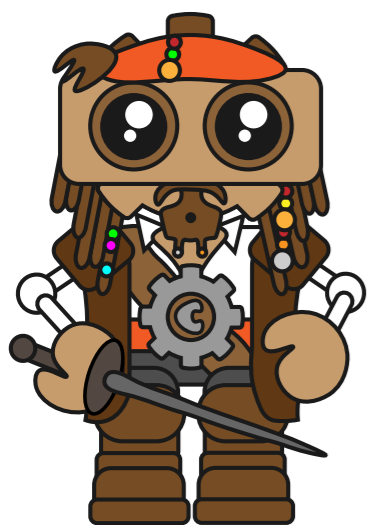

"Comic Heroes!"

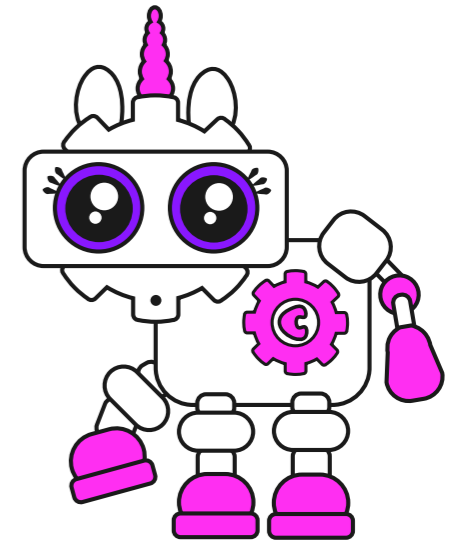

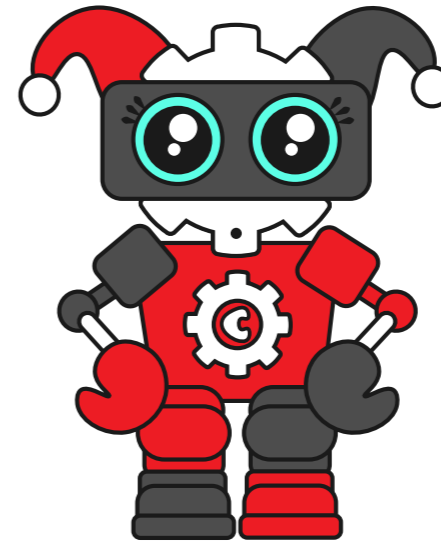

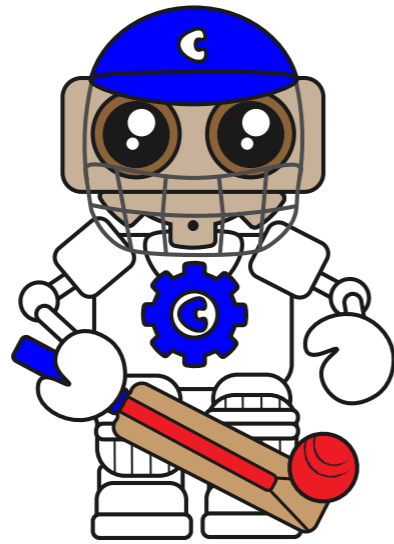

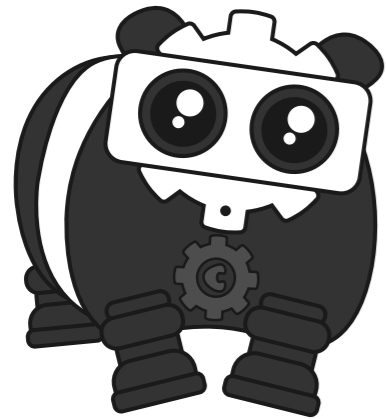

# More in Boddees!

We hope you have enjoyed looking at a small fraction of the designs we've created and illustrated. The possibilities of creating doppelgängers using the trademarked components that make up Coggees are endless.

Remember, where there's a boddee... there's always a coggee!
