

**Together we can be the resource for a greener,
sustainable and more vibrant Windsor-Essex!**

On behalf of the YQGgreen Networking Group,
The City of Windsor and our Community Partners
Welcome to the inaugural YQGgreen Expo.

~ Elizabeth Elias-Hernandez,
Founder of YQGgreen

The Windsor Port Authority is proud to be among the ports participating in the Green Marine environmental certification program that now has 50+ ports. This inclusive and comprehensive maritime initiative applies to both shipboard and shoreside operations.

Since 2001 the **Waste Reduction Week in Canada** campaign has engaged Canadians to better understand the issues of waste and the opportunities they have to accelerate our transition to a circular economy. Starting with a focus on recycling education and collection events, it has now expanded into a month-long celebration. Waste Reduction Week looks at the waste reduction component of a circular economy.

Waste Reduction Week

Help us celebrate National Waste Reduction Week by reducing your waste footprint! Every little action adds up, so start changing your 'disposable' habits one at a time. You can make a difference!

October 16th-22nd, 2023

| Monday Circular Economy | Tuesday Textiles | Wednesday E-Waste | Thursday Plastics | Friday Food Waste | Saturday Sharing Economy | Sunday Swap & Repair |
|---|--|--|---|---|---|---|
|  <p>October 16th The circular economy aims to redefine products and services to design waste out. Learn more at: www.wrwcandada.com</p> |  <p>October 17th Did you know the average person throws away 37 kilograms of textiles each year, and 95% of those clothes could be reused or recycled?</p> |  <p>October 18th In Canada, the amount of e-waste generated per person has increased from 8.3 kg in 2000 to 25.3 kg in 2020 - it's one of the fastest growing waste streams in the world.</p> |  <p>October 19th 40% of all plastic produced is packaging, used once and thrown away.</p> |  <p>October 20th It is estimated that individuals and households in Canada waste more than \$10 billion worth of food annually.</p> |  <p>October 21st Sharing resources reduces the importance of owning items and promotes public access instead.</p> |  <p>October 22nd Repairing damaged resources keeps them out of the landfill and reduces demand for new goods.</p> |

Greater Southwestern Group

Thank you for Attending the 1st Annual YQGgreen EXPO

We've been doing our part for almost 70 Years!

Since 1954 we have used self-unloading ships to transport millions of tons of aggregate materials from quarries across the Great Lakes to our docks here in Southwestern Ontario. On average, each shipload will take 500 trucks off our roads getting these essential natural resources, used by the construction industry, to the marketplace. We are proud to support the most fuel-efficient, lowest emissions and lowest cost way to move bulk materials when compared to either truck or rail by the metric tonnes moved. Thanks for sailing with us.
