

# Free Project Health Check

Your project is underway, and although you're hoping, you're not that sure that it will deliver as planned. Or perhaps you know it's falling short and you're wondering what can be done.

Or maybe you need an independent view, to give confidence that things are indeed going well, perhaps to give your stakeholders that extra reassurance.

There's good news – a free project review is available, giving you a realistic, independent view of your project's health.

Performed against recognised professional standards, and producing clear, actionable reports, PPPM reviews are designed to give you the information you need to keep your projects on track.

## What you get:

- **Comprehensive review of the 10 key project health indicators**
- **Internationally recognised standard approach**
- **Clear, actionable report showing areas of good practice and of concern**
- **Achievable recommendations for improvement and problem solving**
- **Decades of experience in running and auditing projects at your service**
- **Performed by Chartered Project Professionals and certified auditors**
- **Up to 3 days of our time, dedicated to you**
- **Follow up support and advice**

**All completely free, so no cost to you!**
