## 3-D PRINTING

We started off the camp week getting acquainted with all the 3-D printing technology, before students were challenged to design their own name tags and print objects of all shapes and sizes! Today we explored rotating objects and degree and have started thinking about our final projects. In fact, some plan to 3D print props for their movie projects!

## DIGITAL MUSIC

Students have been exploring different beats, styles, and sounds that can be used to create music, before building their own song creations. Before long we'll be able to share our finished songs with one another!

- Sam

## THEATREFIT

TheatreFIT is a class where our campers can expel their creative energy through fun physical improv & movement games! We start every class out with a stretch, and the campers are getting more flexible already. So far we have played Poison Dart Frog, Sharks and Minnows, Telephone, Stuck in the Mud, Captain's coming, and Ghost in the Grave Yard.
