

# Highwood's Art Squared Summer Newsletter

## 3-D PRINTING

We started off the camp week getting acquainted with all the 3-D printing technology, before students were challenged to design their own name tags and print objects of all shapes and sizes! Today we explored rotating objects and degree and have started thinking about our final projects. In fact, some plan to 3D print props for their movie projects!

- Sam

## DIGITAL MUSIC

In Digital Music, we've been teaching the campers how to use music software and create songs that build and get MORE exciting as they go on! Soon we're going to learn about special effects, and what they mean for music as opposed to other art forms - like plays and movies.

## THEATREFIT

TheaterFIT is a class where you kid can expel energy and have fun through games! We start every class out with a stretch, and the campers are getting more flexible already. We have played Poison Dart Frog, Sharks and Minions, Telephone, Stuck in the Mud, captains coming, and Ghost in the Grave Yard.
