ART SQUARED

3-D PRINTING

We kicked off the week exploring the range of 3-D printing technology and its special features - including rotations, shapes and text - before students were challenged to design and print objects of all shapes and sizes! Work has begun on designs for their final prints, and we can't wait to see what our imaginative campers come up with!

- Sam

DIGITAL MUSIC

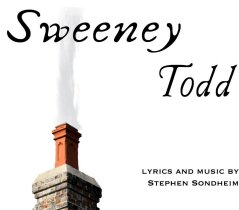

In Digital Music class, we've been teaching campers how to use music software and create songs that build and get MORE exciting! Soon we are going to experiment with different time signatures and add a variety of sound effects to our original songs - like compression and EQ. Stay tuned for their amazing final projects!!

- Sam

THEATREFIT

TheatreFIT is an original Highwood class blending theatre and fitness games for some high-energy fun! We start out every session with a warmup before jumping into a series of active games; highlights from this week include Down by the Banks, Winkam and Walk & Stop - challenging our quick-thinking skills - along with physical activities like Sharks & Minnows, Stuck in the Mud, and Name Rush.
