Electronic Lock Access

As we have previously advised you, we are installing electronic lock access to the church building. On **June 13th** the electronic lock will be installed on the door entering Duff Hall (nearest to the kitchen) from the parking lot. The locks on all other doors will be changed and no keys will be issued for any of those doors. For all those who currently have keys to the building, please notify the Church Office or me if you want/need an electronic key to replace the key you now have. In order to make this transition as smooth as possible, I will be at the church on June 13 and 14 to exchange the manual keys for the electronic key. If you cannot come on one of these days, please contact me to make arrangements to get your new key.

Thank you.
