

JoganHealth[™]
Solutions

COVID-19 Mobile Vaccination Services

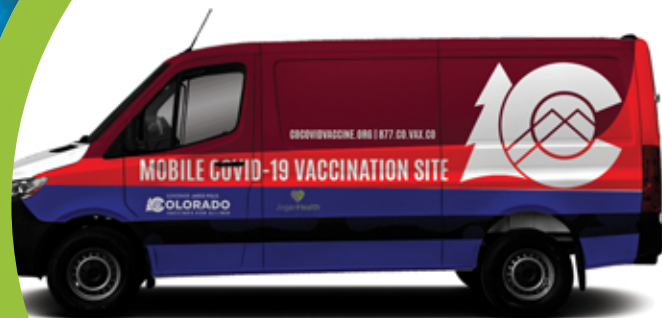

Jogan Health is assisting health agencies in multiple states with their mobile vaccination and community-based vaccination program needs.

WHAT WE DO

Jogan Health gives health agencies an “Easy Button” by providing clinical and non-clinical teams to facilitate all your vaccination service needs. These efforts can be strategically focused on your underserved population, rural areas or even large-scale mass vaccination sites. From vaccine storage and management to getting shots in arms, Jogan Health provides public health agencies an “Easy Button” with our completely turnkey solutions.
