The Meadows of Northern Arizona Inc. – Certified Nursing Assistant services range
from social-recreational activities and personalized rehabilitative adult care programs.

Revised: 12 /08/2024

We provide family support, and education meetings, and we are an active partner with community organizations serving the county's elderly.

Our main goal is to produce from our course, Certified Nursing Assistants for long term care skilled nursing facilities that are able to give quality care to individuals with disabilities, such as the elderly or mentally disabled in our community. We are confident that The Meadows of Northern Arizona Inc. has become a premium training resource for the area of central and northern Arizona. The Meadows of Northern Arizona Inc. serves all of Northern Arizona including rural Yavapai County, between Flagstaff and Phoenix, with a population of 242,253 living in small and un-incorporated towns stretching over 8,125 square miles. According to the U.S. Department of Labor, The median annual wage for nursing assistants was \$43,000 in DEC 2023.

Yavapai and other central and northern AZ counties lack a trained work force to serve the needs of this growing elderly population. Long term care facilities need specialized training to help those resident/clients with tasks of daily living. Without this specialized training, the elderly are at risk and would receive far less than quality, individualized, caring assistance. The county's community of trained Certified Nursing Assistants has recognized this need and supports The Meadows of Northern Arizona Inc.'s training classes. These classes are held monthly. With the growing aging population in Arizona, Certified Nursing Assistants is also growing in demand.

Fingerprint Clearance – We will assist you in completing your fingerprint application. The cost for this will be entirely up to you and will not be included in the course cost. Generally, it costs **\$5** (cash only) for your fingerprinting at the Yavapai County Sheriff Office, and to submit the application there is a current charge of **\$67** that needs to be in the form of a money order, made out to THE ARIZONA DEPARTMENT OF PUBLIC SAFETY. **You must pass a background check and receive a Level One Fingerprint Clearance Card in order to receive your certification.** (A Level One Fingerprint Clearance Card is required at all places of employment to work as a Certified Nursing Assistant in the state of Arizona). If a student has a current Level One Fingerprint card the fee will be waived. Additional fingerprinting will be done for students that want to apply for L.N.A status upon passing state testing.

Since 1995, the number of applicant's applying for licensure and certification, who have a prior criminal felony conviction, has increased by 1400%. Senate Bill 1096 and its amendments ("the Bill") is intended to respond to this dramatic increase in individuals with criminal histories who are electing to enter the nursing profession. The Bill bars an applicant who has been convicted of a felony, from obtaining a nursing license or nursing assistant certificate, for five years following the completion of a sentence. The legislation also provides that the Board will initiate disciplinary proceedings for revocation against applicants for renewal, reactivation, or recertification of their licenses/certificates who have failed to previously disclose a felony conviction to the Board or who have been convicted of a felony since the date of their last application, renewal, reactivation or recertification. This legislation does not apply to nurses or certified nursing assistants who disclosed a felony conviction and who were granted licensure/ certification or allowed to renew, reactivate or recertify. The Bill will also require that all nurse and nursing assistant applicants be fingerprinted to permit the Department of Public Safety to obtain state and federal criminal history information. The rationale for the five year bar is to permit individuals to complete their sentences and other obligations associated with a conviction such as restitution to the victim. The five year bar also provides sufficient time for individuals to demonstrate rehabilitation and safety to practice. Senate Bill 1096 was signed by Governor Hull and will become effective on August 21, 1998.

T.B. Test – on the first week of any course, we will be conducting tuberculosis testing. The TB test is administered by a qualified outside source. (A current [within the past 6 months] negative T.B. test is required by any employer hiring a Certified Nursing Assistant to work.) If a student has a current negative T.B. test, the fee will be waived.
