

SFU Surrey's Largest Tech-Based Career Fair

SystemsFair is the Engineering Career Fair at Simon Fraser University (SFU)'s Surrey Campus. Created in 2014, SystemsFair provides a venue for engineering students to meet with employers in the industry one-on-one, and get a feel for the tech community and the opportunities available to them, and for employers to scout student talent and gain exposure for their organizations. This year, SystemsFair is teaming up with the Western Engineering Competition, bringing in another 250+ engineering students to enjoy SystemsFair and Compete in WEC.

	Table Booths	Lunches Provided	Social Media Promotion	SFU Design Team Meet & Greet	Spotlight Session
