The Great Eastern Parks Route presentation: Wed 7 July 6-8pm

The Great Eastern Parks Route proposes a green, tree-rich link that connects various parks and gardens across East London. The route begins in Shoreditch, at the Bishopsgate Goodsyrd with a forest garden, and uses the disused railway viaduct to connect Tower Hamlets to Newham, where The River Lea meets The River Thames. The Great Eastern Parks Route - one of six new green routes promoted by the Ramblers, CPRE London and others - will provide a nature adventure through East London, parks rich with trees, tree-lined streets, creating safe routes for walking and cycling, promoting clean air and biophillic connection.

Closing Event: Fri 9 July 6-8pm Open event, no booking required.

The Gallery will be open for visitors during the week and on Saturday. All visitors are required to make a booking at least 24 hours in advance, subject to availability. Please enquire to info@gabrielfinearts.com
