

Electrical Supervisor Job Description

About the position...

The Electrical Supervisor is a critical leadership role with a significant impact on the success of a project, ensuring that we maintain a high level of quality, safety and customer satisfaction. While working on the jobsite, the Supervisor will guide the team of Electricians and helpers to plan, layout and complete installation of all wiring and equipment as designed for the job. While guiding the team, the Supervisor will work alongside team members to ensure compliance with drawings, specifications, NEC and local code requirements, and training and safety requirements. The Supervisor will work with the owner, General Contractor and other trades to complete work on time and on schedule.

Position details/responsibilities...

Working closely with project superintendent and other trades, oversee the assigned scope, including the management of material and manpower.

Accountable for enforcing and promoting compliance, high quality and safety standards. Utilize technology such as smartphone to ensure the job gets done on time and exceeds customer expectations.

Supervise, mentor and motivate employees working on designated scope.

Here's what we're looking for...

Progressive electrical leaders who love using technology and want a career path
Skilled field supervisor with at least five (5) years of experience managing a scope and running multimillion dollar projects for an electrical contractor.

Proficient knowledge of the National Electrical Code (NEC), local codes and construction safety requirements.

Must have at least basic computer and writing skills.

Demonstrate and uphold all of the company's core values, which include integrity, accountability, teamwork, innovation and growth.
