

CREED FINANCE WHITEPAPER v1.5

8th December 2021

WHAT IS CREED?

CREED is a dynamic crypto plan aiming to accomplish a steady passive income for its supporters. The ecosystem aims to increase the exposure of tron network and eventually add support on tron price in the long run.

HOW IT WORKS

CREED is the only contract working manually in the tron chain. Our main goal is to build and maintain a stable system that will benefit our supporters. By using price stabilization and manual contracting we will be able to avoid any issues that may occur on price.

CREED PRICE

As Creed develops, the price of purchasing CREED will increase. This will enable us to research different projects and also provide further opportunities for investment. We at Creed promise that there will be no loss to profits as a result of the price increases, price adjustments will only benefit our supporters.

CREED ENERGY PROGRAM

The program is planned to launch in April or sooner depending on the conditions.

The program will provide tron energy to users to lower their expenses on transactions at tron network. Rental from the program will provide benefits to all ecosystems of CREED and keep supporting all the projects built.

The funds for the program will be generated from the ecosystem and private investors. Private investors will be given a special and long term deal with a minimum risk of their holdings. There will be a fixed payment and a bonus depending on the rented amount for private investors. 6-12% APY will be provided on the Tron amount regardless of the price actions. The concept is designed to provide a reasonable investment plan which will enable USD income largely more than the banking interest. Details will be shared to investors privately.

CREED STAKING PLAN

Staking will be only available on Beast safes on given APY or at Bololex.com. The team has rights to add or remove staking options on platforms with a prior announcement. All staked amounts will also be calculated in circulating supply.

CREED FARMS

Creed farms are designed to benefit users and speed up the process of decentralisation of the Assets of the ecosystem. High APY will be provided to make early adopters receive more rights on the project. Details on the farm will be shared on official channels to follow.

CREED PROFIT AND PRICE INCREASE PLAN

New CREED sales by the team and regular buys by the people will be distributed as below:

10% will be used to increase the CREED price on just swap.

15% will be added to CFB Beast Pool.

15% will be added to Team funds.

10% will be used to increase just swap liquidity.

50% will be added to CREED funds to be used on trading and BEAST ENERGY PROGRAM for the purpose of generating wealth for the CREED ECOSYSTEM.

On exchange sales the total of all sales will be distributed as planned.

On Just Swap when a new purchase occurs the team will initiate a counter sale to distribute it as planned leaving 10% to increase the CREED price. Example: 1000 CREED sold on just swap the team can only initiate 900 CREED counter sale leaving 10% as price increase.

CREED SWAP AND EXCHANGE PRINCIPLES

This principle was published and is valid from 26th JAN 2021, and was amended on the 28th FEB 2021, 23rd APR 2021, 18th August 2021 and 8th December 2021.

CREED FINANCE holds no promise of price guarantee for transactions done through SWAPS or EXCHANGES as the transactions that take place are natural trades. CREED only provides

liquidity to JUST SWAP and promises the official accounts not participating in any large price changes except the planned buybacks. The rest is the given value by the traders. CREED TEAM holds no promises on CREED tokens bought through SWAPS or ANY EXCHANGE. CREED holders may like to participate in the Staking, Referral program or buy CFB.

CREED smart contract address for JUST SWAP: TM2fhs1CFiS696VW13s3oBuDdPazCEGcfJ

The team promises to sell CREED only at current price or higher at exchanges. Any amount sold by the team will be distributed just as stated.

TM2fhs1CFiS696VW13s3oBuDdPazCEGcfJ

971,000,000 burned to reduce the supply leaving 29,000,000 million in circulation.

10,000,000.0000 CREED is divided into Owner address :
TEA4X68SNttYYhiSxv4UzU6WA4qvXGptCQ CEO address :
TWMuii42cLcuq2W2FB0A1EZyYjQ3acnUYq

100,000 CREED will be distributed on events and advertising. Salaries may not exceed 3,000 CREED a month for the CREED FINANCE TEAM. OWNER AND CEO: 500 CREED ADMIN:
300 CREED COMMUNITY REPRESENTATIVE: 100 CREED.

WHAT IS A COMMUNITY REPRESENTATIVE?

A community Representative is a random investor that applies for the position and must meet certain criteria. The strongest applicants will be chosen by the TEAM. These candidates will then be voted for in the telegram group by the investors and followers. The winner of which will become the community representative.

The community representative will hold a chair in the team and has voting rights on future projects and plans. The aim of the community representative is to show transparency in all aspects of our business plans and to build a stronger trust amongst our investors.
