

# **CREED FINANCE WHITEPAPER** v1.4

18th August 2021

## **WHAT IS CREED?**

CREED is a dynamic crypto plan aiming to accomplish a steady passive income for its supporters.

## **HOW IT WORKS**

CREED is the only contract working manually in the tron chain. Our main goal is to build and maintain a stable system that will benefit our supporters. By using price stabilization and manual contracting we will be able to avoid any issues that may occur on price.

## **CREED PRICE**

As Creed develops, the price of purchasing CREED will increase. This will enable us to research different projects and also provide further opportunities for investment. We at Creed promise that there will be no loss to profits as a result of the price increases, price adjustments will only benefit our supporters.

## **CREED TOKEN BURN**

As CREED develops, We will carry out various token burns to reduce the circulating supply, further strengthening the price of CREED. 100,000,000 CREED is planned to be burned. Further details of token burns will be announced separately in our telegram channel.

## **CREED DYNAMIC REWARDS SYSTEM**

Starting on 1st September with a new dynamic rewards system we are planning to increase interest in the CREED project. The monthly rewards distributed on the 5th of each month will be cancelled and replaced with a value increasing method. It works with the same principle as 5% monthly rewards. But with a few changes on the plan. Instead of distributing 5% new CREED, we will be adding 5% value on

CREED price on justswap. Old version was once a month event and was open to abusing. New rewards plan is set to keep increasing the value of CREED on justswap by daily purchases by the team determined on the circulating amount of CREED.

**EXAMPLE:**

100,000 CREED in real circulation is promised to deliver 5,000 CREED. So the team will buy  $5,000/30=166$  CREED daily from justswap.io

With CREED DYNAMIC REWARDS SYSTEM we are offering a completely new value increase method and a fair chance for everyone. The real circulating supply will be controlled and real supporters will be rewarded. Simply holding your CREED will be rewarding.

### **CREED STAKING PLAN**

Staking will be only available on Beast safes on given APY or at Bololex.com. The team has rights to add or remove staking options on platforms with a prior announcement. All staked amounts will also be calculated in circulating supply.

### **CREED PROFIT AND PRICE INCREASE PLAN**

New CREED sales by the team and regular buys by the people will be distributed as below:

10% will be used to increase the CREED price on justswap.

15% will be added to CFB Beast Pool.

15% will be added to Team funds.

10% will be used to increase justswap liquidity.

50% will be added to CREED funds to be used on trading and BEAST ENERGY PROGRAM for the purpose of generating wealth for the CREED ECOSYSTEM.

On exchange sales the total of all sales will be distributed as planned.

On Justswap when a new purchase occurs the team will initiate a counter sale to distribute it as planned leaving 10% to increase the CREED price. Example:

1000 CREED sold on justswap the team can only initiate 900 CREED counter sale leaving 10% as price increase.

## **CREED JUSTSWAP AND EXCHANGE PRINCIPLES**

This principle was published and is valid from 26th JAN 2021, and was amended on the 28th FEB 2021, 23rd APR 2021 and 18th AUG 2021.

CREED FINANCE holds no promise of price guarantee for transactions done through JUSTSWAP or EXCHANGES as the transactions that take place are natural trades. CREED only provides liquidity to JUSTSWAP and promises the official accounts not participating in any large price changes except the planned buybacks. The rest is the given value by the traders. CREED TEAM holds no promises on CREED tokens bought through JUSTSWAP or ANY EXCHANGE. CREED holders may like to participate in the Staking, Referral program or buy CFB.
