Over the next few weeks, we are going to be looking into life cycles, this will include frogs, butterflies, chickens, and Humans. In addition to this we have created a vegetable plot for the children to be able to be hands on with the cycle of growing plants and vegetables. This theme is a perfect way to help the children understand the world around them and to connect them with nature. If you have any ideas or activities, you would like us to incorporate into our planning please speak to a member of staff.

This next half term is a short one as we are closed on Monday 5th May for Bank Holiday. We are then closed for half term, week commencing the 26th May.

Twycross Zoo Trip

Just a reminder our trip to Twycross zoo is on Friday 20th June.

There will be no normal session that day as all staff will be attending the trip.

Sept 2025

If your child is starting school in September, please can you let us know what school they will be going to as this will enable us to support them with this transition.

Or

If your child is staying with us in September, please let us know what days you require if you haven't already.

30 Hour Funding

The 30-hour funding opens to all working parents from September (subject to eligibility)

If you will be applying for the 30-hour funding, please can this be done before we break up for the Summer.

Existing 30-hour children don't forget you may need to re-confirm your hours ready for September.

Labels

Please can you label your child's coat, bag, lunch bag and drinks bottles. We can have up to 28 children in a session so it can be very confusing to keep up with whose items belong to who.

Thank you.

Sunny Weather

As we go into the summer term, we will hopefully get some nice weather so please remember to put sun cream on your child and send some in their bags to re-apply if they attend all day.

Likewise, please send them with a named sun hat/cap.

Dress for mess

Please can we remind you that the children will get messy at Sallywags. We ask that they wear old clothes if possible as a lot of our activities are sensory based on playing in sand, water, gloop, jelly or foam etc.
