

VERVE Neat Cutting Oil

DESCRIPTION

Verve Neat cutting oil is a chlorine and heavy-metal free neat cutting oil.

BENEFITS

- Advanced additive technology gives high extreme pressure (EP) lubricity properties and helps to lower production costs through extended tool life.
- Improved surface finish and increased cutting speeds may lead to improvement of process efficiency.
- Our chlorine and heavy-metal free formulation improves the environmental profile and can reduce disposal costs.
- Multi-metal compatibility provides opportunity for product consolidation

Applications

- Verve Neat Cutting oil is designed for general machining of ferrous and non ferrous alloys.

KEY PROPERTIES:-

Properties	
Grade	Neat Cutting oil
Density @ 15.6 C, kg/l, ASTM D4052	0.864
Flash Point	150
Additives	Sulphurized Fat
Kinematic Viscosity @ 40 C, mm ² /s, ASTM D445	37
Appearance	Water White
