

VERVE HLP HYD OIL

DESCRIPTION

Verve HLP oils are premium hydraulic oils having high FZG rating. This oil meets DIN 51524 Part 2 Denison HF-O US Steel 127, Cincinnati Machines P-69 and P-70 and also IS: 10522-1983 (Reaffirmed 2004) and IS: 11656-1986 specifications. Verve HLP oils are recommended for high performance electro-hydraulic or numerically controlled systems. These oils are extensively used as screw compressor oils also.

APPLICATION

These oils provide good film strength, anti-wear properties to minimize wear in pumps, rings, valves, pistons. These oils have high viscosity index to restrict any viscosity change under continuous operating conditions and resistance to foaming to ensure efficient functioning. VERVE HLP oils are recommended for use in hydraulic systems, compressors, pumps, circulation oiling systems, enclosed gearboxes etc.

KEY PROPERTIES:-

SPECIFICATION	32	46	68
VI Min	100	98	95
Flash Point COC, *C Min	200	204	210
Kin Viscosity cSt at 40*C	30-35	41-51	60-75
