

What Has Happened to America?

At the root of the problem, spiritual people know that it is not politics as usual.

It is not the free exchange of ideas as to how our country should be run. It is not the give and take as we seek both truth and justice. It is not what we experienced in the 60 through the 90's

Something very wrong is happening in all aspects of society. Prosecutors and judges have moved far afield from where they used to be. It is no longer making any sense to the natural mind what is happening in our country. Common sense is no longer prevailing.

I recognize that the natural man has no understanding of the spiritual things. I also know that he is incapable of understanding spiritual things. It is not that he wants to understand and is unable to; rather to him it is foolishness in every way.

Spiritual things are oil and water to the natural man. To understand that there is something or someone more powerful than ourselves is contrary to their thinking.

That has always been the case but something different is happening today.

I do not know any other thing to call it than it is evil. It is not rational, it is evil. It is the opposite of what is good.

There can be no other way to explain it.

Our prestigious colleges today are putting forth not just nonsense to the rational mind, they are putting forth evil.

The more the believer speaks his heart in a matter, the more foolish it sounds to these folks.

So what is the responsibility of the church?

Well for sure it is time we get out of the stands and out on to the playing field. Once there however, we must remember that our weapons of warfare are not carnal. That is, they are not what you would think are.

I think that debating has become futile. There are some that could care less what we think. They are not interested in our ideas. They are not interested in the free flow of thought. They have no stomach for our input

It is going to take a concerted effort to pull down these strongholds. It is going to take a real casting down imaginations through prayer and supplication. We need as a people to make our requests known to our Heavenly Father asking for His intervention.

Everything that exalts itself against what He says needs to be destroyed and brought down.

It is time that we have the scales removed from our eyes in the same manner in which the servant to Elisha had. The servant awoke, went outside and saw an army surrounding the city with horses and chariots and became very afraid.

What did Elisha say? Do not fear, for those who are with us are more than those who are with them: Then he said "Lord open the eyes of my servant that he may see, and when the Lord opened his eyes behold "the mountain was full of horses and chariots of fire all around them."

So it is with us beloved. The angels around about us are far greater than those who seem to be so full of evil. Their mouths will be stopped as we pray as Elisha did. He called for those folks to be stricken with blindness.

We need to remember the end of this matter. The king of Israel asked Elisha if he should kill these folks and the prophet replied – no, you shall not kill them. Rather feed and water them that they may go to their master.

Well we know who the puppet master behind this evil is. He and his demons as “God of this age” are in the process of filling up their cup of wrath. Let them get their fill, but pray that their kingdom will dissipate.

Gird up your loins beloved, bend your knee to our king and speak your mind. Our prayers are our power and His will will be done.
