And on you go with it. There are 65 total inventions listed by the Jews in this article and I have mentioned only a few.

This is mostly in the medical field and computer field, but the fields go on and on.

The nation of Israel is first on the scene of tragedy the world over. Their cadaver dogs are first to the scene of trouble to find those still alive.

As the scripture says in Genesis “Abraham, I (God) will make you a blessing to all the nations of the earth. I will make you exceedingly fruitful, and through you all the nations of the earth will be blessed.”

God also said to Abraham, I will bless those who bless you – and the church of Jesus Christ is first in line with their blessings to the Nation of Israel.

What a wonderful God we serve. www.TomMorrisonGodcast.com
