

# Exam Review Testimonials

*"I am not a person who "tests" well. My apprentice sponsor was helpful but made it clear that I would have to study to prepare myself for the state exam. Taking the Apprentice Seminar gave me the right information and confidence I needed to pass the exam the first time."*

- Jim Ferrell, BC-HIS  
Auditory Services  
Erie, PA

*"The Apprentice Seminar was extremely valuable to me prior to taking the PA State Fitters Exam. The course is extremely well organized and prepared me for the exam both from a test taking perspective and an educational perspective. All of my employees have also taken this course and feel the same way. The Apprentice Seminar is worth every penny, and I highly recommend it to all Apprentices prior to taking the State Exam!"*

- Julia Beall-McKelvey BC-HIS, ACA  
C.E.O.  
Hearing Instruments, Inc.  
Miracle-Ear  
Camp Hill, PA

*"Without a doubt, as Sponsors of future Dispensers, we should be taking advantage of the Apprentice Seminar offered by PHHA, taught by Patrick Kochanowski and David Kaufmann. As a Pennsylvania Dealer/Dispenser of 22 years, I personally can attest to the value of the review offered in this seminar.*

*Yes, you must study and have the hands-on experience required, but I personally benefited from this seminar and passed my state exam the first time around. As a sponsor, I have sent my Apprentices to this seminar. It weeds out those who really don't have the commitment to this profession, and it helps those who do, review & refresh, in assurance of what they have learned along the way!! We have the best program offered, why would we not take advantage of it?"*

- Debra Swift-Darling  
Swift Audiology and Hearing Aid Service  
4 locations, 22 years in practice  
Pittsburgh, Pa.

*"Excellent Workshop! I would encourage all participants in taking Fitters Exam including Audiologists to take this review course. Thank you for your time and efforts."*

- Janet Westlund, Audiologist  
Bethlehem, PA
