

The background is a watercolor-style wash of colors. It features large, overlapping circular and irregular shapes in shades of blue, teal, and green, set against a light beige or cream-colored base. The edges of the washes are soft and feathered, creating a dreamy, artistic atmosphere.

# RIVAGE

BAL HARBOUR

A ONCE-IN-A-LIFETIME OCEANFRONT PARADISE

Perfectly poised on the most beautiful stretch of beach in the country, Rivage Bal Harbour rises from the lush tropical landscape, a beacon of modern living. This very limited collection of bespoke residences offers a luxurious life immersed in nature, mere steps from the ocean on the last beachfront property to be developed in Bal Harbour. These light-filled villas in the sky provide elevated services and amenities on par with the world's finest hotels. The result is a refined and considered approach to total well-being.

An aerial photograph of a coastal city at sunset. The foreground shows a residential area with many palm trees and houses. In the middle ground, there is a large body of water, possibly a bay or harbor, with several islands and a city skyline in the distance. The sky is filled with soft, golden light from the setting sun, with some clouds. The overall scene is peaceful and scenic.

PARADISE FOUND

Rivage Bal Harbour, the last new development on this pristine white sand beach, offers a rare and coveted opportunity. This is an unparalleled location, with unobstructed views of the Atlantic, the Intracoastal Waterway and beyond.

It's paradise on earth.

The background features a watercolor illustration of leaves and branches. The leaves are rendered in various shades of blue and teal, with some areas showing a darker, more saturated blue. The branches are depicted with thin, brownish-gold lines, some of which are slightly thicker and more prominent. The overall style is soft and artistic, with a focus on natural elements. The text 'Architecture & Design' is centered over the white background, which is partially framed by the watercolor elements.

Architecture & Design

SOM

Skidmore, Owings & Merrill (SOM) is a leading architecture, engineering, and planning practice responsible for some of the world's most technically and environmentally advanced buildings and public spaces — from Burj Khalifa in Dubai and One World Trade Center in New York City to Millennium Park in Chicago.

ARRIVAL FROM COLLINS AVENUE

#### TROPICAL MODERNISM

With its signature clean modernism as a point of departure, SOM let the site — with its unique access to the most exclusive beach — influence the evolution. The pure geometry of straight lines yielded to the organic contours of the landscape. The resulting tropical modernism incorporates rounded forms that echo the natural surroundings and maximize views of the Atlantic Ocean and Biscayne Bay.

WHERE SAND MEETS SKY

This luminous glass façade of this 275-foot tower reflects the dazzling beauty of the natural surroundings. Inside, every exquisite element is designed with impeccable attention to detail. The grand scale of these beachfront family villas—with their generous balconies, large windows and private elevators—creates the impression of entirely separate single-family homes floating in the clouds. It's the essence of refined living: open, airy and expansive. For those who are modern by nature, this is the life.

The conceal/reveal technique is omnipresent, with water elements, stone walls and prolific plantings carving out intimate spaces and creating thresholds to outdoor rooms, encouraging exploration and surprise. Diaphanous architectural screens in lobbies and lounges, along with changes in elevation, also help build an alternating cadence of intimacy and openness, inviting residents to adventure through the property.

The dimensions stated for this floor plan are approximate because there are various recognized methods for calculating the square footage of a unit. The square footage stated here is calculated from the exterior boundaries of the exterior walls to the centerline of interior demising walls without deductions for cutouts, curves, or architectural features. This method typically results in quoted dimensions greater than the dimensions that would be determined by using other accepted methods. The definition of "Unit" and the calculation method to be relied upon is set forth by the Developer in Developer's prospectus which method may result in a square footage calculation less than the result of the calculation method used here. The background is an abstract watercolor composition. It features a variety of colors including shades of teal, light blue, dark blue, purple, and brown. The colors are layered and blended, with some areas appearing as if they are torn pieces of paper pasted onto a white surface. The overall effect is organic and artistic.

Neighborhood

WELCOME TO THE AMERICAN RIVIERA

Since its inception in 1929, Bal Harbour has been an elite enclave on the tiny tip of this barrier island. It is unquestionably the most sophisticated and culturally rich version of South Florida's glamorous lifestyle.

This unparalleled location offers both a sense of privacy and convenient access to entertainment, dining, shopping, transportation and recreation.

A favorite of snowbirds from the beginning, the town welcomed the now-legendary Bal Harbour Shops in 1965 with a caliber of stores unrivaled by Manhattan's Madison and Fifth Avenues and the Champs-Élysées in Paris.

The village is also home to Unscripted Bal Harbour, a renowned public art program, and to its Art Access program that provides complimentary admission for residents and their guests to some of the area's finest museums.

The background is a watercolor-style illustration. It features a central, faint outline of a globe or a similar spherical shape. The colors are primarily shades of blue, green, and yellow, with some darker blue and brownish tones. The watercolor effect is soft and blended, with some areas appearing more saturated than others. The overall composition is abstract and artistic.
