WHY JOEL LOVES IT:

- HUGE tropical-looking blooms (8- 12 inches across)
- They are perennials, despite their tropical appearance (Zones 4-9)
- Blooms from mid-summer to early fall
- Attracts pollinators

PLANT CARE

- **Sun**: Full Sun (6+ hours daily)
- **Water:**Keep moist, especially during hot weather
- **Height:** 4-6 Ft.
- **Attracts:** Butterflies & Hummingbirds
- **Hardiness:** Zones 4-9

JOELS FUN FACT:

Each flower only lasts about one day, but the plant produces dozens of buds, so you'll have fresh blooms for weeks!
