Custom-Cut Sauna Form: Ensuring a Perfect Fit for Your Wellness Space

Creating a custom-cut sauna offers a personalized wellness experience tailored to unique spaces and preferences. Please fill out this form completely to ensure accuracy and a smooth quoting process.

The Pre-Cut Sauna Package includes pre-cut wall and ceiling boards, pre-built benches, bench supports, a door and frame, moulding (cut on-site), moisture barrier material, a heater with stones, interior lighting, and an accessory kit for a complete installation.

Quotes include standard lumber selections—Hemfir, Rustic Red, Prime Cedar, and Thermally Modified Hemlock. Additional features can be selected for quoting below. Each specification is essential for designing and pricing your custom sauna to meet both aesthetic and functional needs.

CUSTOM CONTACT INFORMATION

This section identifies the purchaser, and the sauna must be shipped directly to the customer. Harvia’s shipping team ensures delivery in peak condition. Once delivered, the sauna becomes the customer’s responsibility, including any damage if relocated.

Name: _____ Phone: _____ Email: _____

Address: _____ City: _____ State: _____ Zip: _____

Is A Lift Gate Needed: Yes No

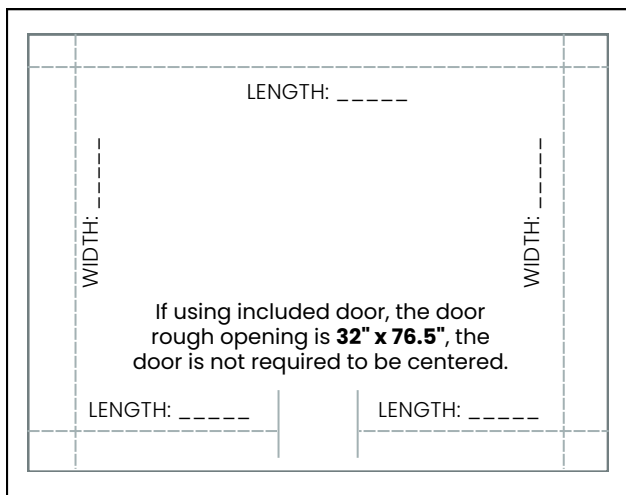

**A lift gate is needed if the delivery location does not have a shipping dock or forklift.*

MEASUREMENT GUIDELINES FOR CUSTOM-CUT SAUNAS

- Take final measurements stud-to-stud for wood frames and nail-to-nail for metal frames.
- The dealer/seller is responsible for ensuring exact dimensions.
- All measurements and information provided must reflect post-framing dimensions.

CUSTOM SAUNA LAYOUT & MEASUREMENT INSTRUCTIONS

Please use the template below (or submit your own) to indicate the dimensions of the unit. Place an **H** to indicate the desired location for the sauna heater. Sketch and place a **B** to indicate the desired bench location/layout. Indicate door location on the front wall by providing the distance from the corners.

Ceiling Height: _____

Wall Board Direction: Horizontal Vertical
8ft. Max

Ceiling Joist Direction: Horizontal Vertical
