

Kréte

**CONCRETE, REIMAGINED.
DESIGNED
FOR DISTINCTION.**

BARCLAY

**A NEW
EXPRESSION
OF MATERIAL
BEAUTY**

Kréte

A close-up, low-angle shot of a concrete basin with vertical slats. The slats are made of a light-colored concrete and are set against a dark red background. The lighting creates strong shadows and highlights the texture of the concrete.

Kréte by **Barclay** represents a new chapter, a venture into the world of concrete.

Each Kréte basin introduces a sculptural presence and architectural clarity to the modern bathroom. Defined by confident forms and material precision, these pieces are not just functional, they're statements of intent.

With Kréte, we bring our deep understanding of durable materials into a new design language: one that values strength and purposeful simplicity. This is concrete, elevated; refined in form, honest in finish, and made to endure.

WHY KRÉTE?

STRENGTH WITH SUBSTANCE

↳ **Refined Materiality**

High-density concrete, chosen for strength, surface quality, and natural variation. Each basin is subtly unique in tone and texture.

↳ **Sealed for Modern Living**

Protected with a specialist sealant for water repellency, stain resistance, and easy care—built for beauty and durability.

↳ **Design Versatility**

From compact powder rooms to spacious ensembles, Kréte basins suit a wide range of interiors with their clean lines and confident presence.

↳ **Hand-Finished Elegance**

Every basin is polished and detailed by hand, ensuring a smooth satin finish that retains the raw tactility of concrete.

↳ **Sustainable Thinking**

Made with responsibly sourced materials, minimal production waste, and a long lifespan that reduces the need for replacement.

Color with Character

Available in a palette of signature colors, each finish is expressive yet understated, bringing a contemporary edge to the collection.

Thoughtful Service

Please read the following guidance to keep your Kréte basin in the best condition

- ↪ Wash the basin frequently. To clean the basin, we recommend using warm water with soap or a pH-neutral cleaner. A soft cloth can be used to dry the basin.
- ↪ Do not use wire brushes, detergents, abrasives, highly caustic cleaners or any products containing bleach or harsh chemicals to clean the basin - these could damage the surface of the basin.
- ↪ Do not use hard or sharp objects near the basin - these could scratch the surface of the basin.
