

STONEWOOD  
ELEMENTS

*Built for you.*™

Stonewood vanities are  
*Built for you.™*

Whether you're looking for a timeless classic or a statement piece, we promise to deliver quality products that are designed with you in mind and provide outstanding customer support every step of the way.

# *Make a statement* with the Stonewood Elements series.

## WHERE STRIKING, MODERN DESIGN MEETS SUPERIOR FUNCTIONALITY.

The Elements series features personalized premium, bathroom consoles made with solid wood, steel cabinetry and natural stone sinks. These made-to-order consoles come in multiple sizes and premium material combinations, including one-of-a-kind vessel sinks. Ready to make an impact in any space.

### KEY FEATURES

- Handcrafted solid wood and steel construction
- Natural & engineered stone tops
- Multiple size & finish options

# PREMIUM MATERIALS

## Natural Stone

Our natural stone sinks are carved from solid blocks of stone selected for their beauty, durability, and individuality. Each piece is shaped by skilled craftsmen, ensuring every sink brings a distinctive natural character to your bathroom.

### LIMESTONE

Elegant and naturally warm, limestone offers a soft, refined appearance that complements both classic and contemporary spaces. Durable and easy to maintain, its subtle texture and neutral tones create a calm, sophisticated look.

### MARBLE

Marble is celebrated for its luxurious appearance and distinctive natural veining. Formed over millions of years, this elegant stone adds timeless beauty and elevates the overall design experience with its natural character and visual impact.

### RIVER STONE (GRANITE)

Formed by nature and shaped by water, river stone sinks bring organic texture and natural richness to the bathroom. Made from durable granite, each piece features a one-of-a-kind shape and pattern. Naturally resistant to scratches and stains.

## Composite

Precision-engineered in Europe from natural dolomite stone and reinforced resin, Endurall represents the very best of modern composite craftsmanship. Flawlessly smooth and impervious to impact, scratches, and stains, with inherent antibacterial properties. The refined aesthetic of stone, without compromise or complexity.

## Petrified Wood

Among the rarest offerings in our collection, petrified wood sinks are a true marvel. Ancient timber transformed over millions of years into solid stone, preserving every grain and contour in breathtaking mineral richness. Neither wood nor stone, something altogether more remarkable than either.

# Distinctive Character

## Wood

Wood brings natural warmth, texture, and character to the bathroom. Our vanities feature beautifully finished solid Walnut and White Oak drawer fronts paired with carefully selected wood materials throughout the construction, creating a refined balance of durability, stability, and natural beauty.

### WHITE OAK

White Oak is celebrated for its fine, even grain and airy light tones - a natural elegance that brings calmness to any space. Exceptionally strong and dimensionally stable, it adapts seamlessly to any design vision.

### WALNUT

Rich, warm, and boldly distinguished. Walnut's deep, chocolate tones and sweeping natural grain carry a sophistication that few materials can rival. Exceptionally strong and naturally stable, it grows only more beautiful with time. For those drawn to the warmer, more dramatic end of the design spectrum.

WHITE OAK

WALNUT

### SUPERIOR DURABILITY

Engineered for lasting performance, our stone sinks resist scratches, heat, and UV exposure while maintaining their beauty over time.

### EASY MAINTENANCE

Designed for everyday living, our materials and finishes are simple to clean and maintain, helping your bathroom look beautiful with minimal effort.

### NATURAL MATERIALS

Crafted from authentic materials including natural stone and solid wood, bringing organic beauty and timeless character to your space.

# REGAL

## CLASSIC CONSOLES

## Understated *Elegance*

Clean architectural lines compliment the timeless allure of stone. The Regal Collection pairs sculpted stone sinks with a refined steel console, creating a sophisticated piece that balances durability with understated elegance - perfect for bathrooms that value both modern design and natural materials.
