EFFECTIVE NOVEMBER 2026

KITCHEN

INSPIRED BY PURPOSE. CRAFTED TO ENDURE.

Out on the open water, every detail matters. Form follows function. Materials are chosen with intention. And performance is never compromised.

The Gantry Collection is inspired by this same philosophy: precision-engineered and thoughtfully designed to elevate the kitchen experience.

THE KURANS

FROM OUR FAMILY
TO YOURS

Waterstone Faucets was founded in 1999 by Chris Kuran. At its inception, the company primarily provided top-quality parts and finished components to large manufacturers that made and sold drinking water filtration systems.

As the news of Waterstone's quality parts and timely deliveries spread throughout the industry, customers began requesting that Waterstone provide small institutional drinking water faucets in custom finishes.

Recognizing these requests as a niche opportunity, Waterstone decided to change course and begin the production of high-quality Water Filtration Faucets in numerous finishes to match the higher-end kitchen faucets that were being sold for designer kitchens.

Waterstone then designed and developed its own line of decorative Water Filtration Faucets using only the best materials and finishes available. Utilizing the experience of selling certified products to the Water Quality system manufacturers, Waterstone had already created a highly efficient manufacturing system that could make anything it could design while maintaining the highest certifiable quality.

In 2002 Waterstone launched its first line of decorative Filtration Faucets and chose to market and sell these products through trained and qualified Kitchen and Bath showrooms throughout North America. Waterstone successfully changed direction from a manufacturer of water-quality components to a niche faucet company.

The program was a huge success, and the dealers began requesting other niche products. By this time, Waterstone Faucets was selling its filtration faucet program in all 50 states and Canada. By designing, engineering, manufacturing, finishing, assembling, testing, and packaging all products at our manufacturing facility in California, Waterstone has grown in size and added production capacity in preparation for its next big change. That change happened in 2005, again with the continued encouragement of its customers.

Waterstone made the decision to add Kitchen Faucets and related items to its product offerings. In typical fashion, Waterstone started from the ground up and designed, developed, and engineered a full line of Kitchen Faucet products to match its Water Filtration Faucets. The guiding focus and desire was to manufacture products that would match the uniqueness of the original groundbreaking Filtration Faucet designs.

INNOVATION

EFFERVESCENCE FILTRATION SYSTEM

Introducing a refreshing new way to experience water at home. Waterstone's Effervescence sparkling water filtration option brings crisp, effervescent water directly to your kitchen, pairing everyday convenience with elevated design. Enjoy beautifully filtered chilled, hot, or sparkling water on demand, without sacrificing valuable countertop space or the refined aesthetic of your kitchen.

Designed to integrate seamlessly with Waterstone Filtration Faucets, the system transforms a simple glass of water into something more considered. Whether enjoyed on its own, served with a meal, or used to elevate your favorite beverages, sparkling water is always within reach. Paired with Waterstone's signature craftsmanship, distinctive designs, and extensive selection of finishes, Effervescence is a sophisticated new way to make filtered water an integral part of the kitchen experience.

EFFERVESCENCE

As a mechanically controlled sparkling water system, Effervescence puts the experience back in your hands—no screens, no digital controls, just intuitive operation and beautifully engineered performance. Available across our existing filtration faucet suites, with all 33 finishes and split-finish combinations, it brings sparkling water to the kitchen without compromising the design that makes it yours.

Still Waterstone. Now with a little sparkle.

**see page 84 for all Effervescence systems*

KITCHEN

SPLIT FINISHES

HOW TO DESIGNATE A SPLIT FINISH FAUCET WHEN ORDERING

Take the model number and add both finishes to the suffix, starting with the PRIMARY finish, followed by the ACCENT finish. For Matte Black (MB) and Classic Bronze (CLZ), it would be 9810-MB-CLZ. If you wanted Classic Bronze (CLZ) and Polished Nickel (PN), it would be 9850-CLZ-PN. For all split finish designs, click "Split Finishes" in the top menu of our home page at www.waterstoneco.com

The faucet can be split using any combination of the standard finishes. For pricing, add 10% to the higher list price of the two finishes.

For a custom split finish, add 40% to Group 3 pricing.

KITCHEN

PREP FAUCETS

Designed to complement your primary kitchen faucet, Waterstone Prep Faucets bring the same exceptional craftsmanship and refined styling to secondary workstations.

With a shorter spout reach, they are perfectly proportioned for kitchen islands and prep sinks, providing added convenience for rinsing, washing, and food preparation while maintaining a cohesive design throughout the kitchen.

KITCHEN

BAR FAUCETS

Designed for entertaining, Waterstone Bar Faucets bring luxury and functionality to wet bars, beverage stations, and secondary serving areas. With a compact footprint and shorter spout reach, they are ideally suited for preparing cocktails, filling glasses, and everyday beverage service. Available in the same extensive collection of styles and finishes, each faucet creates a seamless extension of your home's design.

- Matches all Waterstone Industrial Faucets and hardware.
- Made from solid brass.
- Includes mounting hardware with break to length screws.
- Fits doors from 1/4" to 2-3/4" thick.

POLICIES

UNILATERAL MINIMUM RETAIL PRICE (UMRP)

This policy became effective on January 1st 2017, all distributors and dealers doing business with WATERSTONE on and after that date are bound to the terms and conditions of this policy.

Waterstone Faucets is dedicated to providing our distributors and dealers with the highest quality, most innovative products sold through superior sales and marketing support. With this company objective in mind, Waterstone Faucets is introducing its Unilateral Minimum Retail Price (UMRP) Policy in order to maintain proper positioning of our products in the marketplace, to define guidelines for the use of Waterstone patented, trademarked and copyrighted product and materials, and to solidify and preserve a consistent value for our distributors and dealers.

UNILATERAL POLICY GUIDELINES -

Each distributor and dealer remains free to determine for itself the resale prices at which it will sell and promote its products and each distributor or dealer is free to independently decide whether or not to follow the WATERSTONE UMRP policy. WATERSTONE does not ask for, nor will it accept, any assurance of compliance or agreement from a distributor or dealer regarding the UMRP policy. WATERSTONE is unilaterally implementing the Policy. WATERSTONE will determine whether or not distributors and dealers are in violation of the UMRP policy and will enforce the policy as it is warranted. All Decisions by WATERSTONE to take action for a violation of the UMRP Policy are final. There will be no negotiations.

The UMRP policy applies to discounted products, clearance items and closeouts; no more than 25% off list price. Products may be sent to us for repair to return them to their original saleable condition, therefore, the need for clearances and closeouts is unwarranted.

UMRP POLICY TERMS AND CONDITIONS -

WATERSTONE has established a Minimum Advertised Price (MAP) for all products. The Waterstone MAP is calculated at .75 times (25%) off current Waterstone Retail List Price in effect. This means that the advertised "Net Price" to the end user (The Waterstone Retail list price less all discounts, coupons, allowances, and free goods or services offered with Waterstone Products) must not be below the current WATERSTONE MAP. WATERSTONE may engage in monitoring of advertised prices of Product sales in all channels, whether directly or via the use of third parties. Third parties retained by WATERSTONE may engage in monitoring of Product sales by distributors and dealers to verify that the terms of this Policy are being upheld. WATERSTONE reserves the right to change the MAP on 30 days written notice.

The UMRP policy applies to any and all advertisements, quotes, bids, estimates and invoices in all media including, but not limited to, inserts, newspapers, magazines, catalogs, public signage, billboards, and any other print media, television, radio, email, internet websites or other commerce, flyers, posters, coupons, brochures, and use of hypertext transfer protocol or internal links to a web based shopping cart and any other electronic media.

At no time may a distributor or dealer make any statements or other indication on any advertisements that a price below WATERSTONE'S MAP can be obtained by contacting the distributor or dealer, visiting the distributor or dealer showroom, clicking through to another price on a website, or any other means. A distributor or dealer may not use any WATERSTONE name(s), trademark(s), logo(s), patent(s) or products names(s), in a way that is not in accordance with this Policy or violates WATERSTONE'S MAP. This includes all product images, brand logos and any and all copyrighted materials.

VIOLATIONS -

In the event that a distributor or dealer violates this policy:

FIRST VIOLATION – WATERSTONE will notify the offending distributor or dealer in writing of the violation. The distributor or dealer will have ten (10) calendar days to correct the violation of the UMRP Policy and comply with WATERSTONE MAP.

If the distributor or dealer fails to correct the violation within the provided time, WATERSTONE will decrease the discounted price at which the distributor or dealer purchases WATERSTONE products by 10 percent for a period of ninety (90) calendar days. Additionally, WATERSTONE will remove the distributor or dealer from all links and listing on WATERSTONE'S website, and the distributor or dealer will be suspended from all sales programs offered to the distributor or dealer including but not limited to rebates, early pay incentives, freight programs, and sales incentives. If at the end of the 90 day suspension period the distributor or dealer has complied with the policy and not otherwise violated the MAP, then the distributor or dealer will be reinstated to full status, and the suspended distributor or dealer programs will be re-started.

However, if the distributor or dealer continues to be in violation of the UMRP policy at the end of the ninety (90) day suspension period, it will be considered a second violation.

SECOND VIOLATION – At this time all pending orders will be immediately cancelled, and WATERSTONE will not accept any new orders. WATERSTONE will notify the distributor or dealer in writing and at its own discretion and without liability under any existing contracts or agreements, initiate the process to terminate the distributor or dealer authorization to sell WATERSTONE products.

TERMS AND CONDITIONS

PAYMENT TERMS:

Regular payment terms are Net 30 days, DOI with credit approval. Waterstone also accepts payments made by VISA, MASTERCARD, AMERICAN EXPRESS and DISCOVER credit cards. Starting October 1, 2022 – If you choose to pay your invoice(s) with a credit card, you'll be charged a 3% surcharge. We do not accept debit card payments.

Waterstone shall have the option to charge 1½% interest on all past due accounts monthly. In the event of legal action to collect any past due amounts, the buyer shall be responsible for all attorney collection fees, court costs or other fees reasonable and proper for such collection(s).

FREIGHT:

All orders are F.O.B. Murrieta, CA. In general, all goods are shipped UPS ground unless otherwise specified by the customer's Purchase Order. Shipments that can be consolidated to a pallet size may be shipped via common carrier. Customer preferred shippers or method of shipment will be accommodated providing such preference is listed on the customer's Purchase Order.

PRICING:

All prices and terms are subject to change without notice.

CLAIMS:

All claims for shortages or damages must be made within ten (10) days from receipt of merchandise. Claims for merchandise delivered damaged must be filed with the delivery carrier within 7 days. Request an immediate inspection by the carrier.

RETURNS:

All returns are subject to the terms and conditions of the Waterstone warranty. A RETURNED GOODS AUTHORIZATION number (RGA #) must be obtained by the customer from the Waterstone Customer Care Department prior to any merchandise return. The RGA # must appear on the return packing slip/document and a copy of the approved pending RGA form must be in the box with the returned unit. Upon inspection, Waterstone, at its option will either repair or replace the item if the defect falls under the guidelines of the warranty. New, unused and sealed merchandise in its original packaging of current design purchased within the last 12 months that is accepted by the Company for return is subject to a 35% restocking charge. If the product returned is damaged by the recipient or damaged in transit for return, Waterstone has the right to rescind the restock fee and charge up to the full purchase price of the unit. All credits provided for returned product or otherwise are only valid for 90 days from date of approval and issue by Waterstone. If unused by the recipient after 90 days the credit is null and void, and the RGA product will not be returned. Credits can only be used for Waterstone merchandise.

DEFAULT:

If a customer is in default under any order or contract with Waterstone, or if Waterstone at any time shall not be satisfied with its customer's financial condition or responsibility, Waterstone shall have the right, without prejudice, to legal remedy including suspending deliveries until such default or condition is remedied.

TITLE:

All merchandise is sold subject to these conditions and shall remain the property of Waterstone until paid for in full, with the provision that all risk of loss or damage to merchandise is assumed by the customer.

ORDER FULFILLMENT POLICY

1. The customer's order will be entered into the order fulfillment system on the day the order is received, providing the order is received by 2pm Pacific Standard Time.
2. An order confirmation will be faxed or emailed to the customer within one working day of the entry of the order into the order fulfillment system. The order confirmation will contain anticipated ship date information and a listing of all items and the customer's cost pricing of these items.
3. The factory will endeavor to ship all orders received as quickly and completely as possible in a single shipment.
4. The factory will ship a customer's order complete whenever the customer places such a request in the body of their purchase order. Without this specific written request, Waterstone will ship partial shipments as they become available.

DROP SHIP POLICY

WATERSTONE DROP SHIPMENT OUT OF REPRESENTATIVES REGION POLICY

1. Waterstone is committed to keeping our direct customers "selling field" as level and even as possible. Our customers invest in product displays, inventory, training of their sales staff, etc. Therefore, we wish to assist our customer's efforts to obtain excellent margins when selling our products.
2. Waterstone will accept all orders from our direct purchase customers in qualified credit status and ship those orders to the customer's immediate local trading area. Any customer may certainly re-ship our product(s) after they receive them at their location of business.
3. We will drop ship our product(s) for our direct purchase customer(s) within the geographic boundaries of their assigned Representatives Selling Region. We will not drop ship outside of these areas.

LIMITED LIFETIME FUNCTIONAL WARRANTY

Since 1999, Waterstone has manufactured the highest quality kitchen faucets. We support our workmanship with a Limited Lifetime Functional Warranty. All Waterstone products manufactured by Waterstone carry a Limited Lifetime Guarantee against functional defects in material or workmanship in a residential application. Waterstone products will be free from defects in material and manufacturing workmanship, however, any damage due to improper installation, product abuse, product misuse, improper maintenance, alterations or accidents by a contractor, service company, or homeowner, are excluded from this warranty. Proof of purchase, from the original consumer, must accompany all warranty claims.

In the event of a problem with the product, Waterstone has the option to repair or replace the defective part/product, at our discretion, and may require the product be returned for inspection. If the product should develop any leaks or functionality issues, Waterstone will provide the necessary parts, at no cost, in order to return the faucet to fully functional condition.

Waterstone is not responsible for any labor charges incurred by the purchaser to repair, replace, install or remove the product(s). Waterstone is not responsible for any indirect, incidental or consequential damages, losses, injury or costs, of any nature, relating to the product, except as provided by law. This warranty is in lieu of and excludes all other warranties, conditions and guarantees, whether expressed or implied, statutory or otherwise, including, without restriction, those of merchantability or of fitness for use.

This warranty is valid only when products are purchased through an Authorized Waterstone Dealer/Distributor. Waterstone will not honor this warranty if the products are purchased from any unauthorized dealer, third-party vendor or online seller. The warranty applies to Waterstone faucets installed in the United States of America, Canada and Mexico only.

Products not manufactured by Waterstone, but distributed by Waterstone will carry only the original manufacturer's warranty.

WARNING - Since 2005, Waterstone has continued to advise all of our customers against the installation of any brand of in-line water chiller unit with our faucets. Compressor style chiller units have been proven to arbitrarily exceed the standard household in-line pressure ratings, causing the faucet inlet connection line to burst and create the potential for water damage claims in the field.

INSTALLATION OR USE OF AN IN-LINE WATER CHILLER THAT IS NOT WATERSTONE BRANDED WITH A WATERSTONE FAUCET, OF ANY KIND, WILL VOID THE WARRANTY. Waterstone will only recommend the installation of a water chiller in the vented side (in place of a hot tank) with one of our Hot Only or Hot and Cold Filtration Faucet models.

This warranty gives you specific legal rights, and you may also have other rights which vary from state/province to state/province. The above limitations or exclusions may not apply to you.

For warranty claims or replacement parts, contact Waterstone customer service:

CARE AND CLEANING

ATTENTION: Waterstone offers many finishes for its products. Every finish is unique and requires different techniques for care and cleaning. Find your product's finish in the sections below, and carefully read and follow directions for that finish.

CLEAR PROTECTIVE COATED FINISHES

ABOUT YOUR FINISH:

These finishes have a clear protective coating on them. Even though they have a protective coating, they are only considered semi-durable. If the outside clear coating is scratched or damaged in any way, the base metal finishes exposed will oxidize. Always wipe your fixture down with a clean soft cloth and keep it clean and dry after use.

CLEANING CAUTION:

Never use cleaners with bleach, abrasives, vinegar or acidic organic cleansers. Never use any type of abrasive pad, cloth or sponge. This can remove or dull the protective coating and damage the finish.

IMPORTANT NOTICE:

It is the responsibility of the customer to check for any material finish defects **BEFORE** installation.

SUGGESTED FINISH MAINTENANCE PROCEDURE:

1. Do not allow water spots to dry on the fixture. Keep the surface clean and dry after use.
2. Periodic cleaning can be done by using a mild diluted glass cleaner (we recommend Windex). Apply the mild cleaner to a soft clean cloth, and periodically wipe your fixture down to remove water spots and surface debris.

POWDER COATED FINISHES

ABOUT YOUR FINISH:

These finishes are powder coated color finishes. They have **NO ADDITIONAL PROTECTIVE COATING**. These finishes are not considered durable finishes and can be scratched, chipped or scuffed. If the exterior color coating is damaged, the exposed metal base will oxidize. Always wipe your fixture down with a clean soft cloth and keep it clean and dry after use.

CLEANING CAUTION:

Never use cleaners with bleach, abrasives, vinegar or acidic organic cleansers. Never use any type of abrasive pad, cloth or sponge. This can remove, dull or damage the finish.

IMPORTANT NOTICE:

It is the responsibility of the customer to check for any material finish defects **BEFORE** installation.

SUGGESTED FINISH MAINTENANCE PROCEDURE:

1. Do not allow water spots to dry on the fixture. Keep the surface clean and dry after use.
2. Periodic cleaning can be done by using a mild diluted glass cleaner (we recommend Windex). Apply the mild cleaner to a soft clean cloth, and periodically wipe your fixture down to remove water spots and surface debris.
3. Never use cleaners with bleach, abrasives, or vinegar. Never use any type of abrasive pad or sponge.

PLATED FINISHES: BLACK NICKEL / SATIN CHROME

ABOUT YOUR FINISH:

These finishes are the most durable finishes Waterstone offers. The best general maintenance is regular cleaning. Trapped moisture on the surface of your finish can lead to staining. Chrome plated finishes are very tarnish resistant. However, they are not indestructible and can scratch and mar.

CLEANING CAUTION:

Never use cleaners with bleach, abrasives, vinegar or acidic organic cleansers. Never use any type of abrasive pad, cloth or sponge. This can remove or dull the protective coating and damage the finish.

IMPORTANT NOTICE:

It is the responsibility of the customer to check for any material finish defects **BEFORE** installation.

SUGGESTED FINISH MAINTENANCE PROCEDURE:

1. Do not allow water spots to dry on the fixture. Keep the surface clean and dry after use.
2. Periodic cleaning can be done by using a mild diluted glass cleaner (we recommend Windex). Apply the mild cleaner to a soft clean cloth, and periodically wipe your fixture down to remove water spots and surface debris.

CARE AND CLEANING

LIVING FINISHES

ABOUT YOUR FINISH:

These finishes are considered Living Finishes and have **NO PROTECTIVE COATING** on them. Living finishes are finishes that have a very shallow patina on their surface. Essentially, the finish is what nature would do to the surface over a long period of time. The finishes are intended to change with time and generally darken slightly where they are not being touched, and highlight where the high use points are on the fixture. These finishes are not durable, and are easily scratched or scuffed. Waterstone initially applies a wax to the finish surface to help protect and prevent the finish from exposure to air and oxidizing prior to installation.

CLEANING CAUTION:

Never use cleaners with bleach, abrasives, vinegar or acidic organic cleansers. In addition, hand oils, soaps, and acidic fluids can damage the finish. Never use any type of abrasive pad, cloth or sponge. This can remove, dull or damage the finish.

IMPORTANT NOTICE:

It is the responsibility of the customer to check for any material finish defects **BEFORE** installation. Waterstone does not warranty these finishes **AFTER** the fixture has been installed.

SUGGESTED FINISH MAINTENANCE PROCEDURE FOR ANTIQUE BRONZE, CARIBBEAN BRONZE, TUSCAN BRONZE AND UNLACQUERED POLISHED BRASS:

1. Do not allow water spots to dry on the fixture. Keep the surface clean and dry after use.
2. Periodic cleaning can be done by using a micro-crystalline wax (we recommend Renaissance Wax). Apply the wax with a soft non-abrasive tissue paper, and gently buff the wax with a soft clean cloth to help remove surface spots and add a protective coating to the finish.

SUGGESTED FINISH MAINTENANCE PROCEDURE FOR BLACK-OIL RUBBED BRONZE

1. Do not allow water spots to dry on the fixture. Keep the surface clean and dry after use.
2. Periodic cleaning can be done by applying mineral oil to a clean soft cloth and gently wiping down the finish surface to clean. Make sure not to rub too hard, in that you can remove too much of the surface patina with aggressive cleaning.
3. Once the mineral oil has been applied, with a clean soft dry cloth gently pat the finish surface to remove any excess oil on the fixture until the fixture no longer looks "wet".

PLATED FINISHES: CHROME / POLISHED NICKEL

ABOUT YOUR FINISH:

Polished Nickel is one of the most durable finishes Waterstone offers. The best general maintenance is regular cleaning. Always try and keep your finishes clean and dry. Trapped moisture on the surface of your finish can lead to staining. Nickel plated finishes are very tarnish resistant. However, they will tarnish over time from hand oils and exposure if not regularly cleaned and polished. They are not indestructible and can be scratched and marred.

CLEANING CAUTION:

Never use cleaners with bleach, abrasives, vinegar or acidic organic cleansers. Never use any type of abrasive pad, cloth or sponge. This can remove or dull the protective coating and damage the finish.

IMPORTANT NOTICE:

It is the responsibility of the customer to check for any material finish defects **BEFORE** installation.

SUGGESTED FINISH MAINTENANCE PROCEDURE:

Cleaning Supplies: isopropyl alcohol, Microfiber cloth.

- Do not allow water spots to dry on the fixture. Keep the surface clean and dry after use.
- Periodic cleaning can be done by applying isopropyl alcohol with a soft clean cloth to gently remove surface spots.

SUGGESTED PROCEDURE FOR CLOUDY, TARNISHED OR WATER SPOTTED FIXTURES:

Cleaning Supplies: Simichrome polish, Microfiber cloth (2), (Optional: Flitz Faucet Wax)

- Prepare the location by following the maintenance procedure listed above
- In a well ventilated area apply a small amount of polish to the trouble spot on the faucet.
- Using the microfiber cloth polish until cloth turns black or trouble spot is removed, take care to remove all excess polish.
- Buff Surface with clean microfiber cloth to a brilliant luster.
- (Optional) Using clean cloth apply Flitz faucet wax to all areas and let dry to a haze
- (Optional) Buff wax until haze is gone.

CARE AND CLEANING

316 MARINE GRADE STAINLESS STEEL

Stainless Steel - SS

ABOUT YOUR FINISH:

Waterstone's stainless steel fixtures are actually made of solid 316 stainless steel. This finish has **NO PROTECTIVE COATING** on it. Stainless steel is by its material nature very tarnish resistant, but by no means tarnish or stain proof. This finish will indeed oxidize naturally over time and react to its environment, and in a reaction to some chemical cleaners that have bleach in them rusting can be induced on the finish. Keep your stainless fixture wiped clean and dry, and use only a cleaner specifically made for stainless steel. Trapped moisture on the surface of your finish can lead to staining.

CLEANING CAUTION:

Never use cleaners with bleach, abrasives, vinegar or acidic organic cleansers. Never use any type of abrasive pad, cloth or sponge. This can remove, dull or damage the finish.

IMPORTANT NOTICE:

It is the responsibility of the customer to check for any material finish defects **BEFORE** installation.

SUGGESTED FINISH MAINTENANCE PROCEDURE:

1. Do not allow water spots to dry on the fixture. Keep the surface clean and dry after use.
2. Periodic cleaning can be done by applying a "stainless steel cleaner" with a soft clean cloth to gently remove surface spots and brighten the finish.

PRECIOUS METALS

Polished Gold - PG
Satin Gold - SG

ABOUT YOUR FINISH:

These finishes are made with real precious metal gold plating on top of the brass fixture surface. These finishes are considered Living Finishes, have **NO PROTECTIVE COATING** and are extremely soft. Some or all of the gold plating will be removed if any type of polish is used. Additionally, the finish will wear away with time. The gold plating is considered very delicate and can be easily scratched or scuffed.

CLEANING CAUTION:

Never use cleaners with bleach, abrasives, vinegar or acidic organic cleansers. Never use any type of abrasive pad, cloth or sponge. This can remove, dull or damage the finish.

IMPORTANT NOTICE:

It is the responsibility of the customer to check for any material finish defects **BEFORE** installation. Waterstone does not warranty these finishes **AFTER** the fixture has been installed.

SUGGESTED FINISH MAINTENANCE PROCEDURE:

1. Do not allow water spots to dry on the fixture. Keep the surface clean and dry after use.
2. Periodic cleaning can be done with mild liquid soap only. Wipe gently with a soft cloth to clean.

FINISH WARRANTIES

For a warranty claim for finish, a valid dated bill of sale or receipt from purchase must accompany any warranty request. This warranty is for normal wear and tear of finish surface, the warranty will be void for unintended use damage, lack of cleaning or improper cleaning and maintenance techniques directly resulting in a damaged finish.

LIFETIME WARRANTY

Waterstone carries a lifetime warranty on the following finishes:

Chrome - CH
Stainless Steel - SS

7 YEAR WARRANTY

Waterstone carries a 7 year warranty for the original purchaser from the date of sale. Warranty applies to normal wear for the following finishes:

Antique Brass - AB
Antique Copper - AC
