# QUARE SHOWER BASES VS TILES SHOWERS

	QUARE SHOWER BASES	TILE FLOOR SHOWERS
<b>Specific characteristics</b>		
Presence of grouts	Low	High
Anti-slip properties of the material (Safety)	Yes	No
Waterproofing durability	High	Average (because of the many grouts)
Customized showers	High	Very high
<b>Resistance</b>		
Resistance over time	High	Average (greater wear due to numerous grouts)
Scratch resistance	High	High
UV resistance	High	High
Resistance to hydrolysis	High	Average (because of the many grouts)
Crack Risk	Low	Average
<b>Usage</b>		
Repairable (without breakage)	Yes	No (the tile must be substituted. Difficult to find the same tile)
Hygiene	High	Average (Risk of mould and bacteria in the grouts)
<b>Aesthetics</b>		
Custom color / design	Yes	Yes
Texture customization	Yes	Yes
<b>Maintenance / Cleaning</b>		
Easy maintenance / cleaning	Yes	No (because of the many grouts)
Quick maintenance/cleaning	Fast	Long (because of the many grouts)
Maintenance/cleaning costs	Low	High
<b>Installation</b>		
Costs	Medium	High
Time	Fast	Long
Complexity	Easy	Laborious (because of the many grouts)

QUARE

**QUAREX**,

HALLMARK &

QUALITY STAMP,

PROOF OF OUR

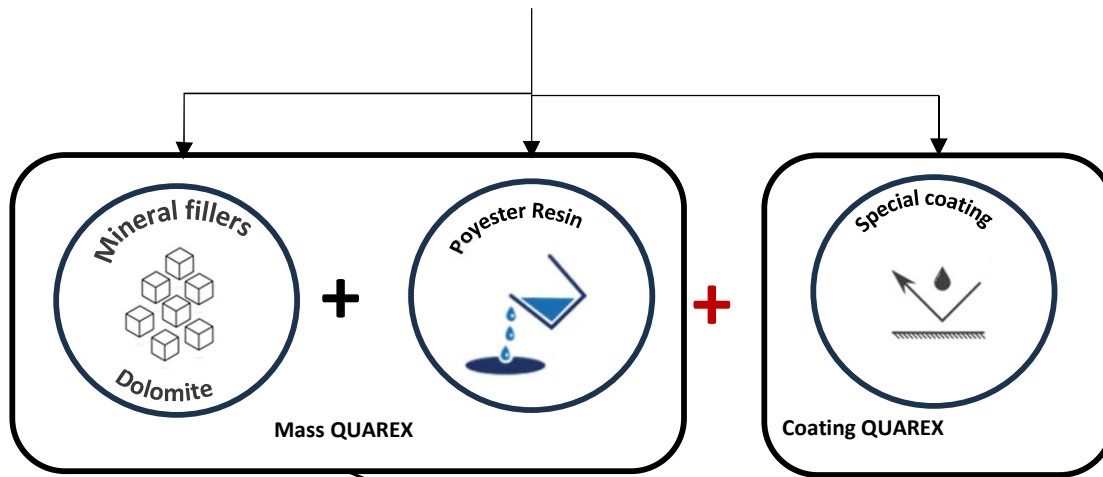

KNOW-HOW

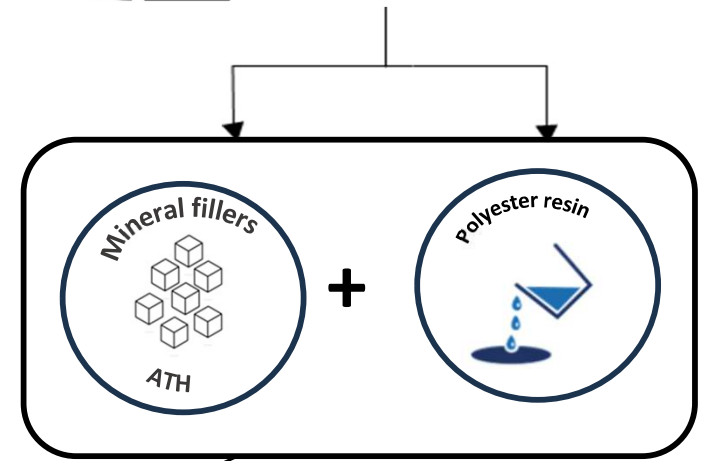

Quarex & Q-Tek, 2 exclusive formulas contributing to the well-being in the bathroom

# QUAREX

# Q-TEK

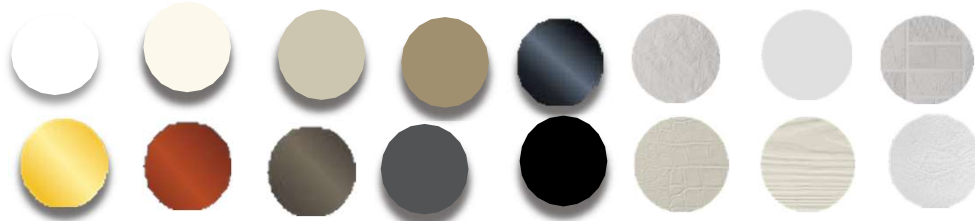

SOLID SURFACE

## QUAREX

- **Exclusive formula** composed of resin and mineral fillers (Solid Surface), all coated with a fine Quare- specific coating.
- Specifically developed to offer high-quality, durable and aesthetic shower bases, wall panels, vanity tops and basins -.
- Endless **color customization**
- **Design aesthetics** thanks to numerous texture possibilities.

## Q-TEK

- **Solid Surface**
- Ideal composition for bathtubs and Totem washbasins
- **Lighter** than cast mineral and thermoformable, it is particularly **well suited to heavy products such as bathtubs.**

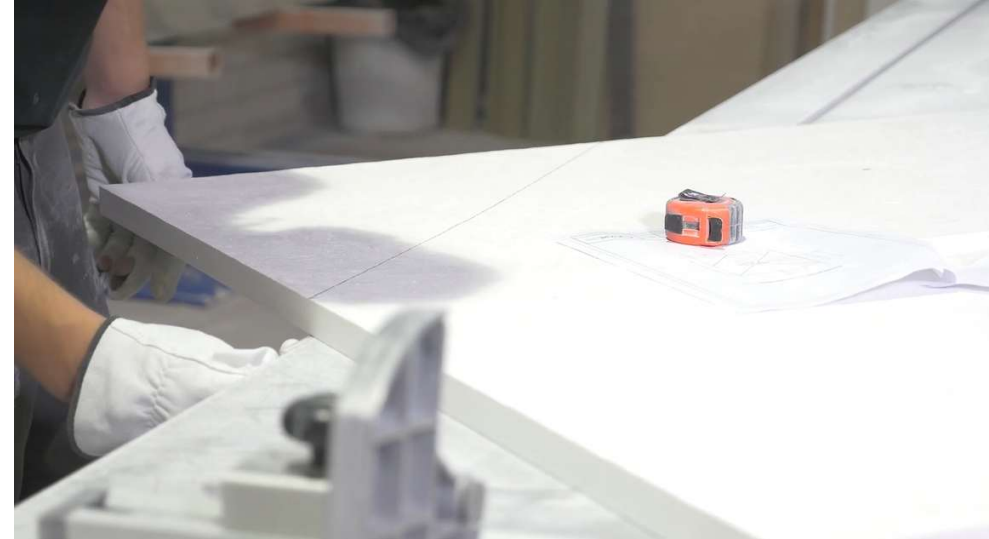

# THE QUAREX FORMULA, A UNIQUE & EXPERT COMPOSITION

- **Exclusive formula** composed of a **unique mass of resin and mineral fillers** associated with a **specific coating** that enhances aesthetics.

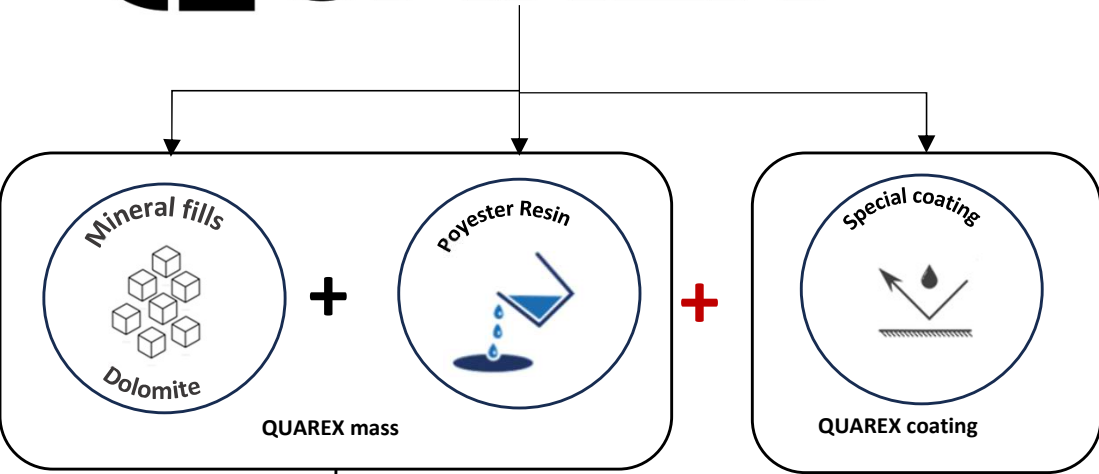

- **Expert composition** combined with a **cutting-edge manufacturing process** guaranteeing an optimum result, stable, compact and resistant over the years.
- **Demanding selection** of the raw materials providing to our products a strong **quality in the inside as much as in the outside**, added to a **natural and authentic touch**.
- **Superior Quality** guaranteed in every product thanks to a **rigorous quality control** done at every stage of the manufacturing process.

**An expert and thorough  
process**

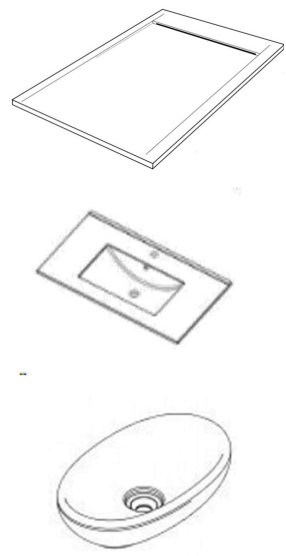

# QUAREX

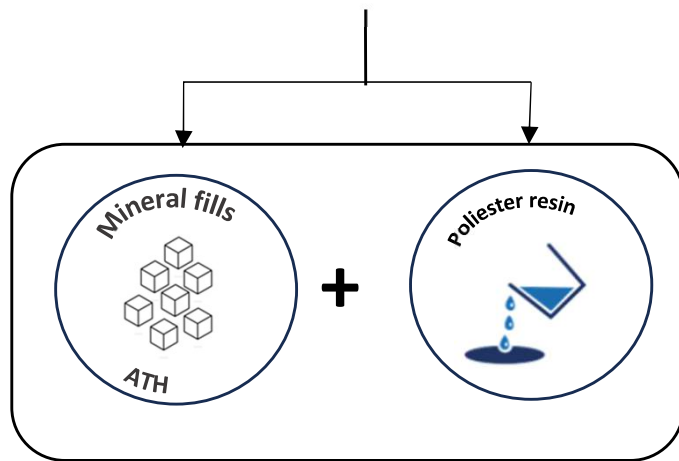

= SOLID SURFACE

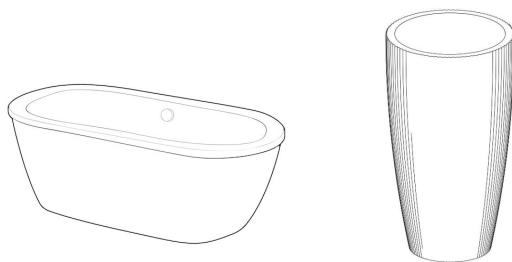

## ADVANTAGES

- **Resistant:**
  - Coating highly resistant to scratches, hydrolysis and UV-rays.
  - Surface 4 times harder than Gel coat thanks to cutting-edge manufacturing process that get a cross-linked and hard molecular structure that bonds firmly with the mass
- **Aesthetics:** Fine coating that respects textures without attenuating them
- **Non-porous material:** Prevents filtration problems over time
- **Safer Spaces:** Anti-bacterial R<2 ISO 22196 - JIS Z 2801
- Can be **customized in dimensions, colors, textures** and much more.
- **Easy to maintain**
- **Repairable**

# Q-TEK

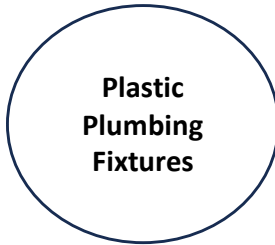

**= SOLID SURFACE**

## AVANTAGES

- **Aesthetics:**
  - Solid Surface enhance a **natural & unique aesthetic**, resistant to the passing of time
- **Lightness:**
  - One of the **lightest Solid Surface material of the market**, especially suited for heavy products like bathtubs
  - **Visual lightness:** bathtubs offering one of the thinnest edges of the market
- **Durability:** Solid & easy to repair
- Can be coated in one color or two colors with standard, special, RAL or NCS colors to get a unique product finish

Compliant with standard  
CSA B45.5-17/Z124/2017

Compliant with section 8.6 of ASTM F462 – 79  
(R2007) – Slip Resistant

Superior HARDNESS coating

Coating with excellent resistance  
to hydrolysis

High coating resistance

Anti-bacterial  
treatment
