**Patent #3007178**  
 for a combination  
 steam bath and  
 shower.

**Patent #3655135**  
 The first patent for  
 a steam head  
 outlet with  
 fragrance well for  
 aromatherapy.

**Patent #5616265**  
 for a steam  
 generating  
 apparatus and  
 method for  
 controlling steam  
 all-in-one.

**Patent #5805765**  
 for a wall-mounted  
 steam generating  
 apparatus and  
 steam head.

**Patent #6505781**  
 for a first ever  
 steam head that  
 opens and closes  
 automatically with  
 a built-in  
 thermostat.

**Industry First**  
 FastStart  
 Technology is  
 introduced  
 producing steam in  
 seconds, not  
 minutes.

**Industry First**  
 ThermaSol is the  
 first and only  
 company to this  
 day to use digital  
 technology in our  
 products.

**Patent #8019208**  
 SmartSteam, a  
 steam generating  
 apparatus with  
 water-cooled solid-  
 state switch.

# PRO SERIES

## PRO Series III Steam Generator

*ThermaSol's Top-Selling Steam Generator*

As one of the industry's most technologically advanced and robust steam generators today, the **PRO Series III** sets the benchmark for achieving modern wellness at home.

### Key Features of the PRO III:

- Lifetime Parts & Labor Warranty
- Patented Smart Steam Technology
- FastStart Technology
- PowerFlush Cleaning Technology
- Consistent Steam
- Digital CAN-Bus Digital Technology
- Split Tank Design
- Stainless Steel Drain Pan
- Installation up to 50ft from Shower Space

Compatible with these ThermaSol Products:

ThermaTouch2 SignaTouch MicroTouch

# PRO SERIES

## LIFETIME WARRANTY

*The Best Warranty In The Industry!*

Our lifetime warranty is included on all PRO Series Steam Generators and is broken down into two parts!

- **2-Year In-Home Warranty Parts & Labor**  
ThermaSol will cover all parts and labor should anything happen. Our Support Specialist team will coordinate the entire process directly with the customer!
- **Lifetime Parts & Labor Factory Warranty**  
After the 2-year period, the customer automatically transfers to the factory warranty.
- **Transferable:** Homeowner to Homeowner

**“Once a ThermaSol customer,  
ALWAYS a ThermaSol Customer!”**

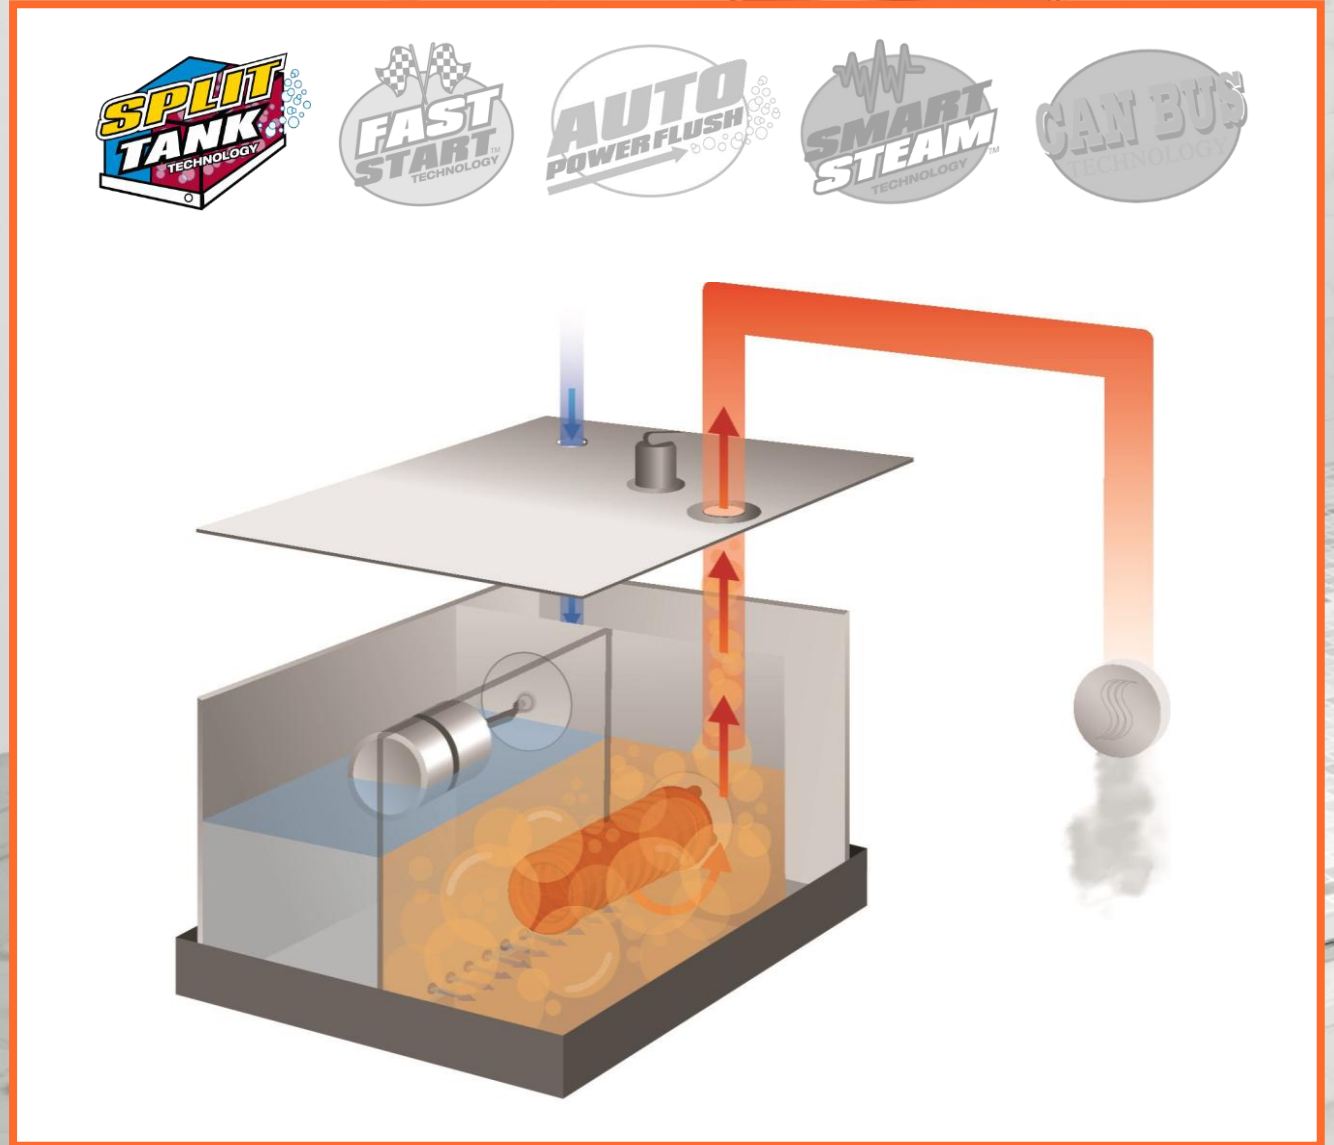

# PRO SERIES

## Split Tank Design

*Constant Steam at a Constant Rate*

With ThermaSol's exclusive Split Tank design, our steam generators are engineered with a **"Tear Drop Replacement System,"** meaning the water feeder drops in the exact amount of water being boiled (steamed) away for a consistent steam experience at a continuous rate!

# PRO SERIES

## Fast Start Technology

*Producing Steam Rapidly*

ThermaSol was the first to introduce the Fast Start feature. FastStart prompts the steam generator to start producing steam in just seconds. *Steam In Seconds, Not Minutes!*

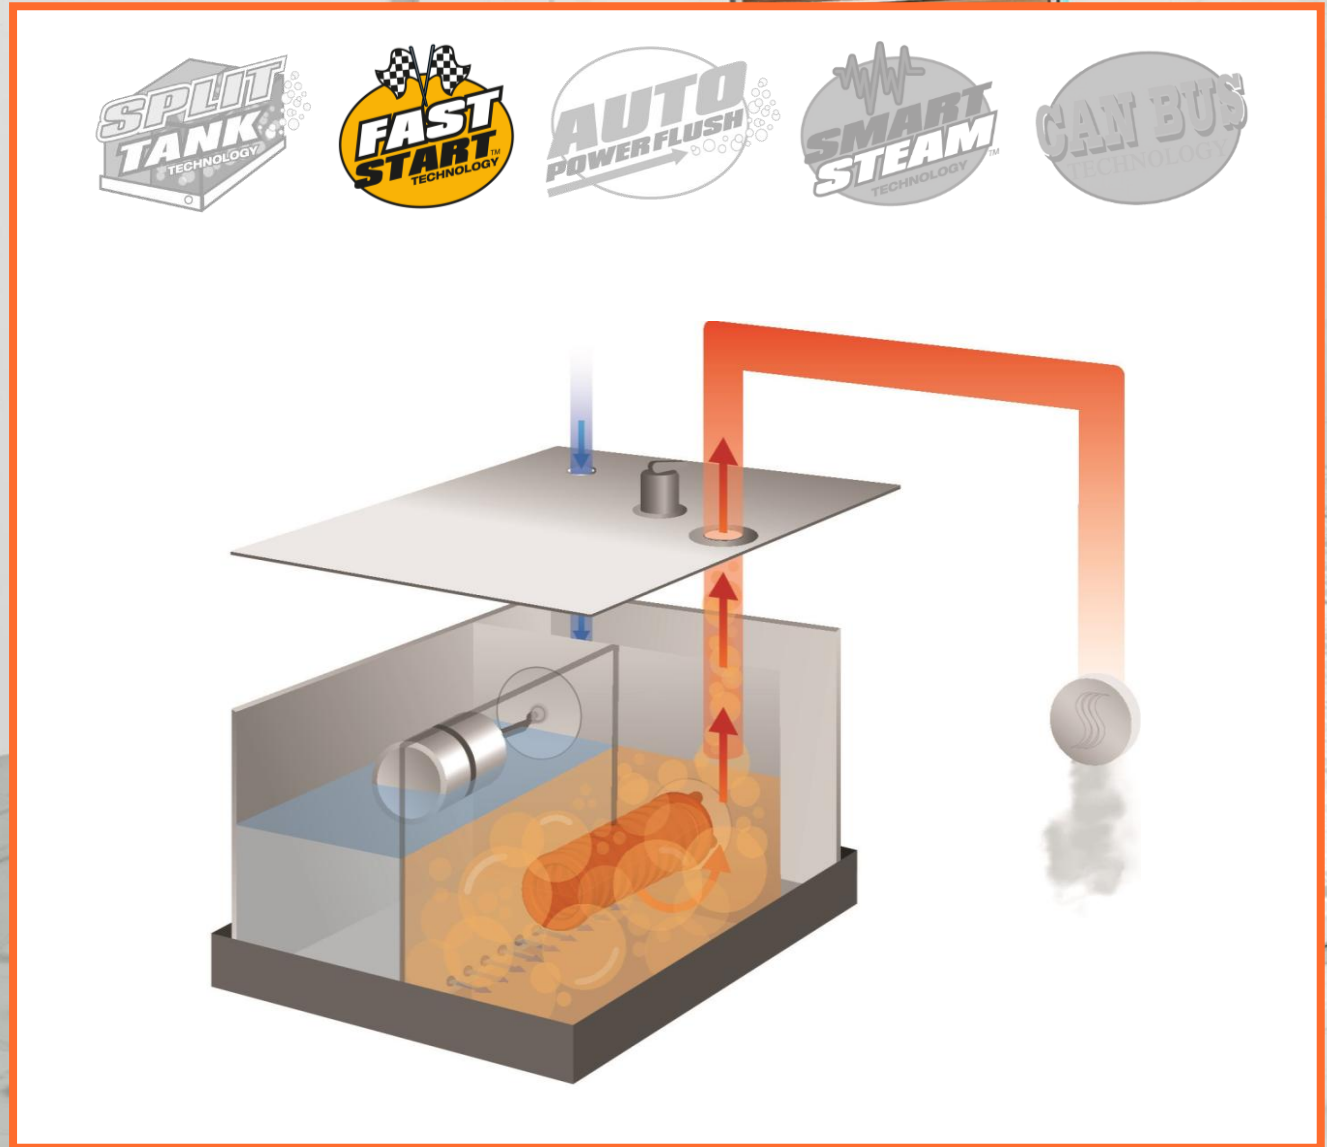

### HOW IT WORKS:

When the user starts the steam session, steam will flow to the room in a fraction of the time.

### NOTE:

FastStart can be adjusted to ON or Off, or "Green Mode," which disables FastStart after seven days of inactivity.

**FastStart is included on all PRO Series Steam Generators at no additional cost!**

# PRO SERIES

## PowerFlush Technology

Exclusive cleaning system for steam generator

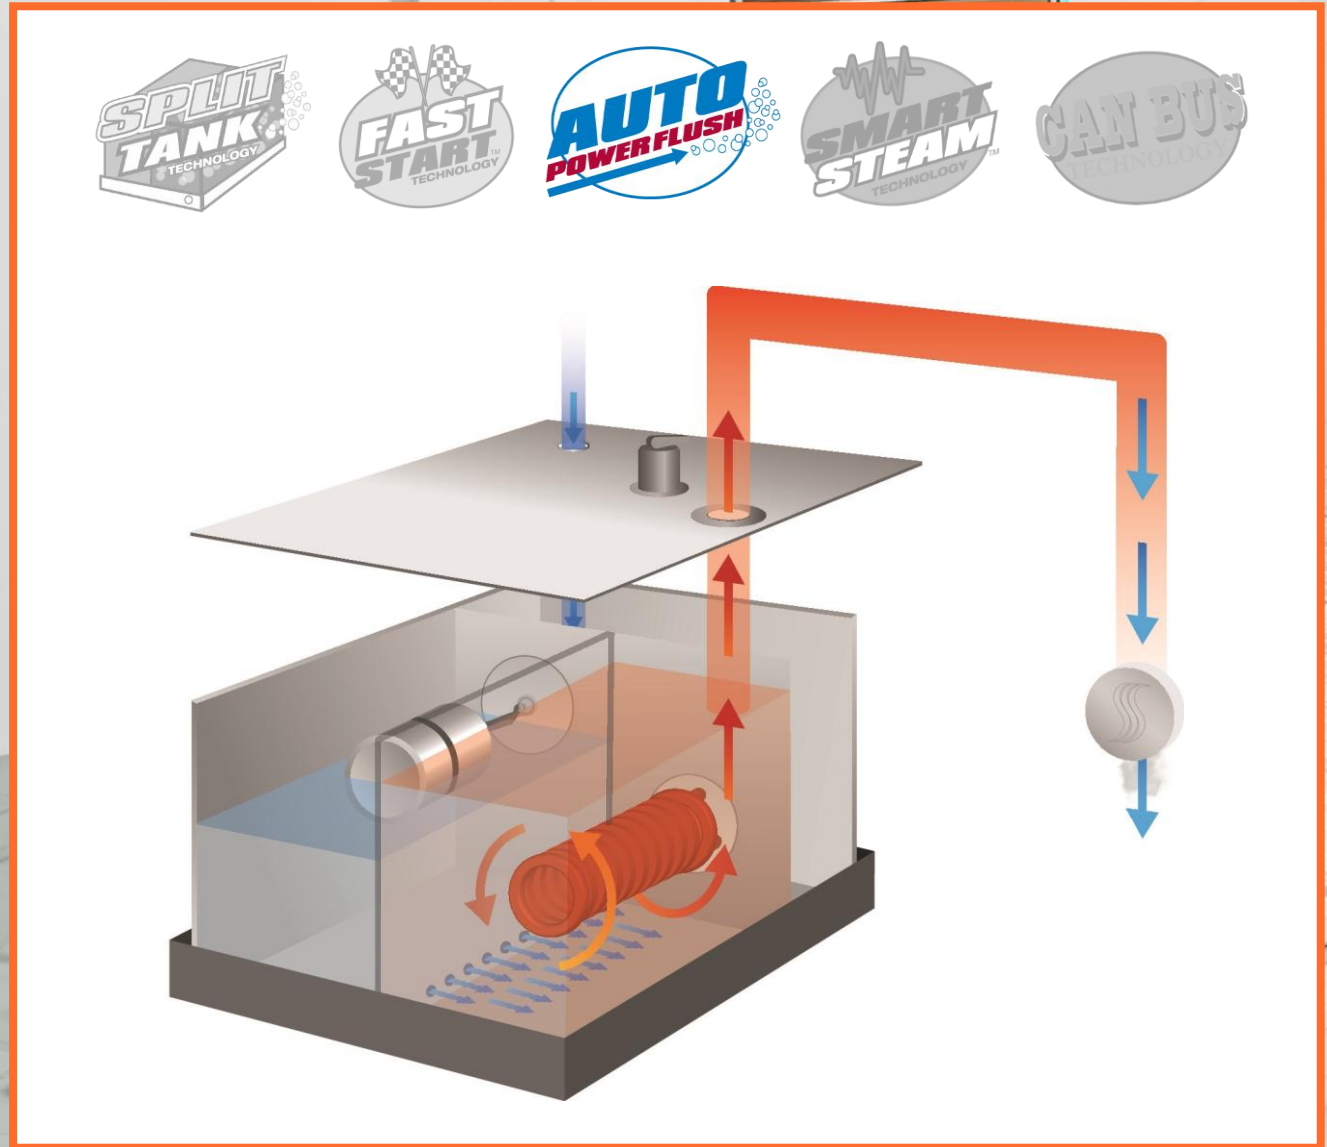

ThermaSol's digital CAN bus technology prompts the user's control every 1000 minutes of steam bathing to conduct a PowerFlush cleaning cycle.

### HOW IT WORKS:

PowerFlush was engineered to purge calcification from the steam generator tank through the steam line and into the shower drain. This exclusive feature uses a combination of household water-line pressure and specifically designed inner tank "speed slots" to increase the water velocity to remove sediment from the tank. The PowerFlush cycle effectively sweeps all sides of the inner tank and, more importantly, in and around the heating element, removing calcification build-up.

**With PowerFlush, you are not required to plumb a separate drain on ThermaSol Steam Generators.**

FastStart is a standard feature on Pro Series II and III Generator Models

# PRO SERIES

## SmartSteam Technology

Patented by ThermaSol

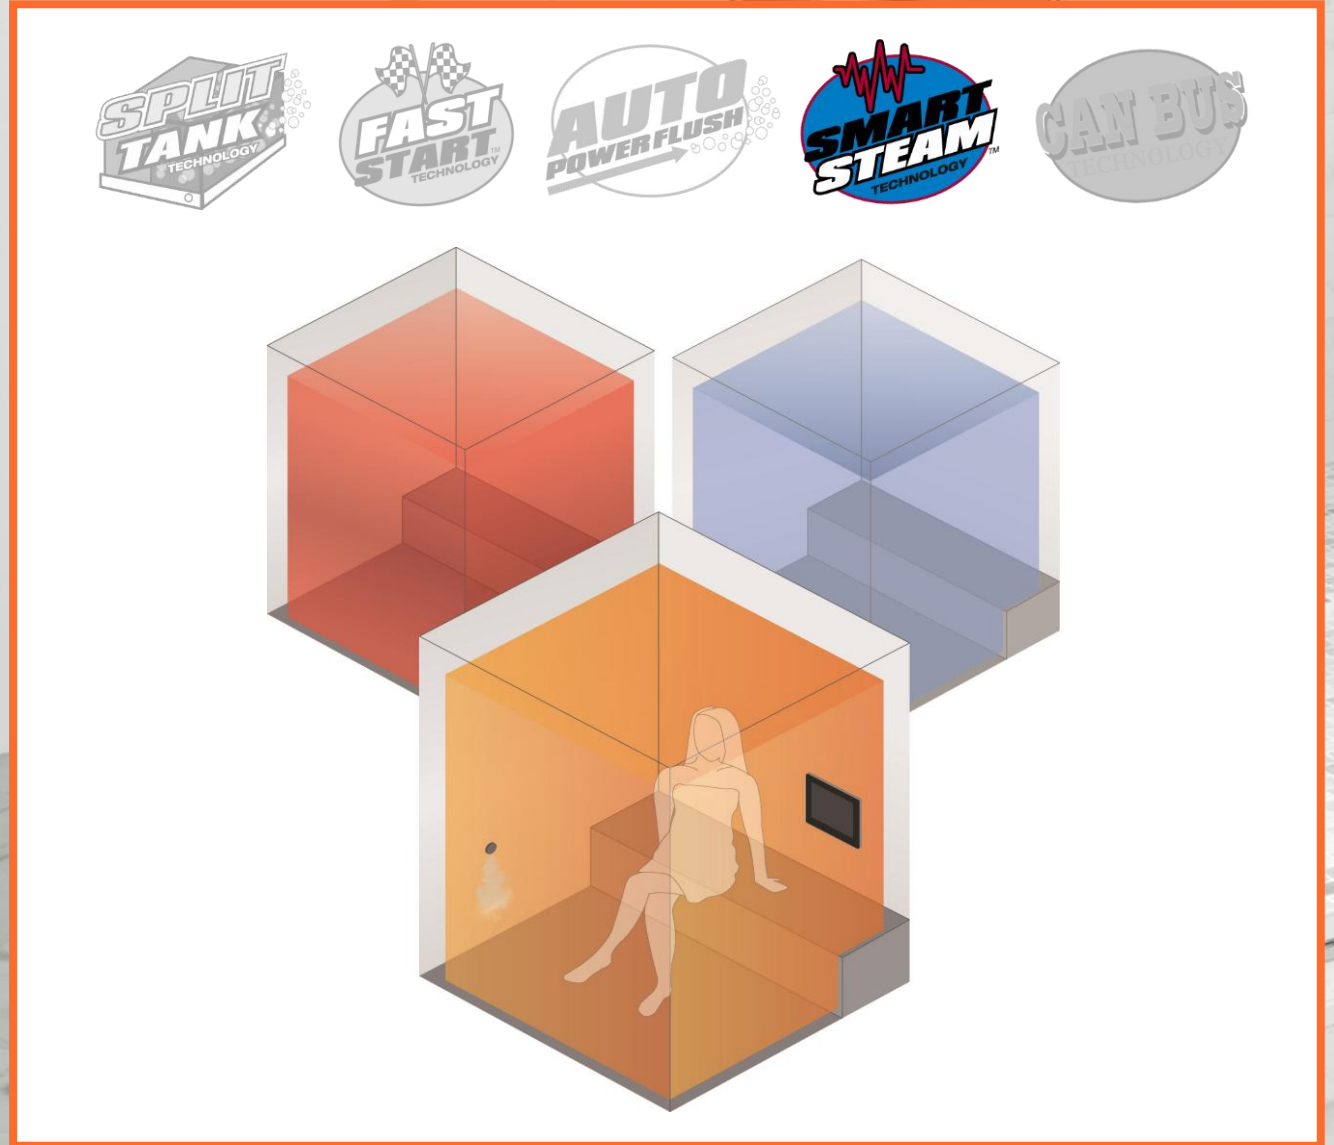

SmartSteam delivers ultimate temperature maintenance and relaxation – removing steam room temperature fluctuations!

### HOW IT WORKS:

SmartSteam produces the precise volume of steam required to maintain your desired room temperature while providing a quiet and relaxed experience. This is accomplished by metering the power and output of steam; the generator calculates and only uses enough power to support the temperature set by the user.

**ThermaSol is the only manufacturer in the industry that provides this technology!**

Featured Exclusively on ProSeries III  
Generator Models

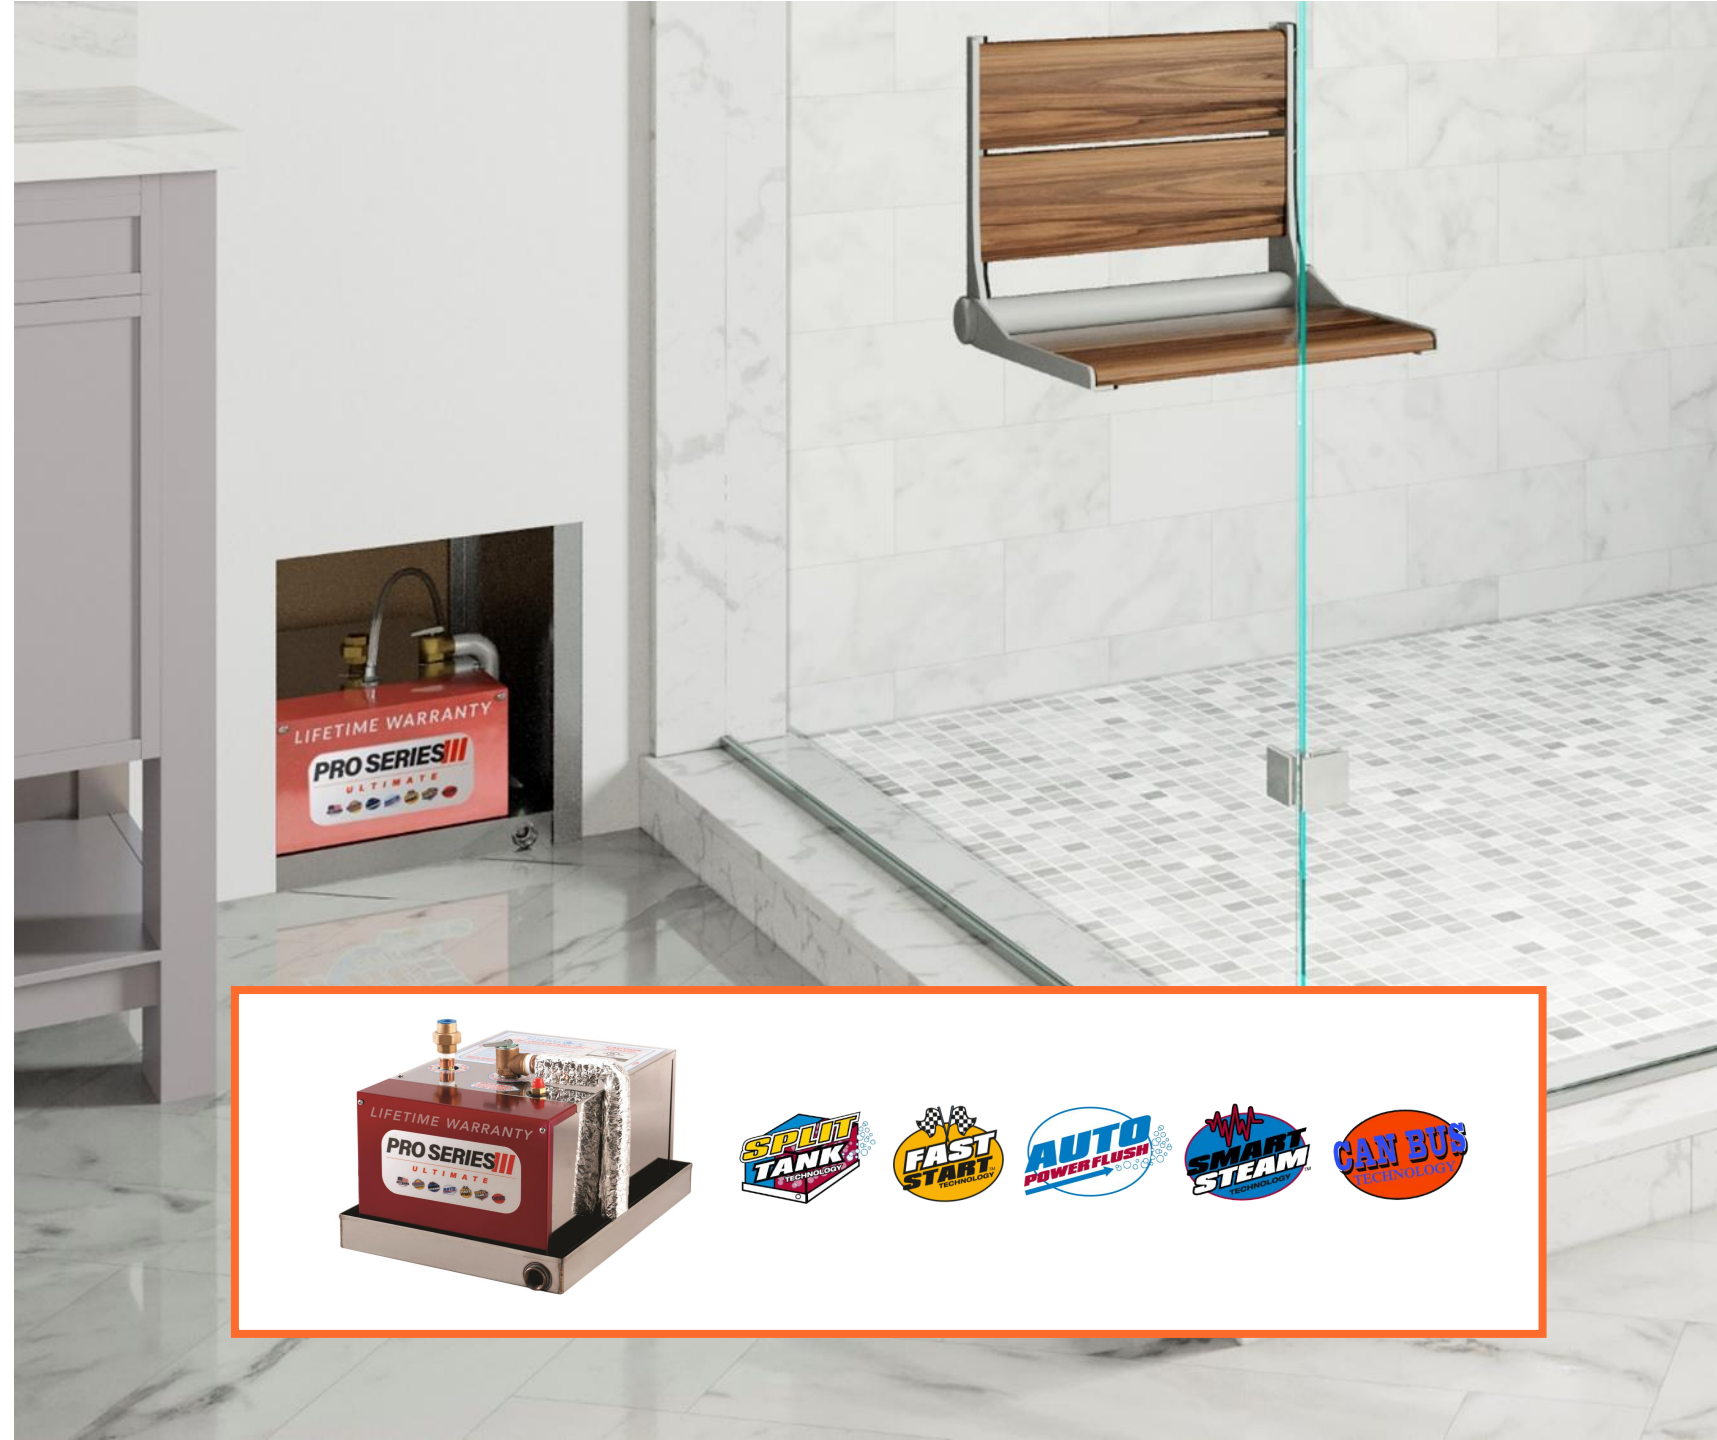

# PRO SERIES

## PRO Series Steam Generators

*An American Made Product  
Manufactured In The Heart of Texas!*

Offered in three distinct models at a competitive price, the PRO Series combines technology not found anywhere else with durability, performance, and efficiency to ensure the best steam shower experience every time!

Compatible with these ThermaSol Products:

ThermaTouch2 SignaTouch MicroTouch

# 100% Quality Control

*Each Steam Generator is tested thoroughly to ensure we deliver our promise of quality and customer satisfaction!*

# PRO SERIES

## How To Size a Steam Generator

ThermaSol's generators are built for the size of the space.

Calculating the right steam generator size is easy and straightforward with ThermaSol's "Simple Sizing."

### 1. Calculate the Cubic Feet of the Shower Space:

Measure the space's Length (L) x Width (W) x Height (H) and multiply the three measurements to determine its total volume in cubic feet.

### 2. Determining the Generator Size:

Each PRO Series generator model number indicates the maximum cubic feet it can accommodate.

Example: A PROIII-240 accommodates a 240 cubic foot shower space.

Choose a generator that matches your cubic feet calculation. If you fall between two generator sizes, always round up to the next size.

### Sizing Guidelines:

8-9 ft. ceiling heights: Increase the generator size by one

9-10 ft. ceiling heights: Increase the generator size by two.

ThermaSol's steam generators are built for the size of the shower space—no need to worry about wall material, external walls, etc. For peace of mind, use our shower configurator located on our website.

# SteamVection Steamhead

*Safety, Comfort & Relaxation*

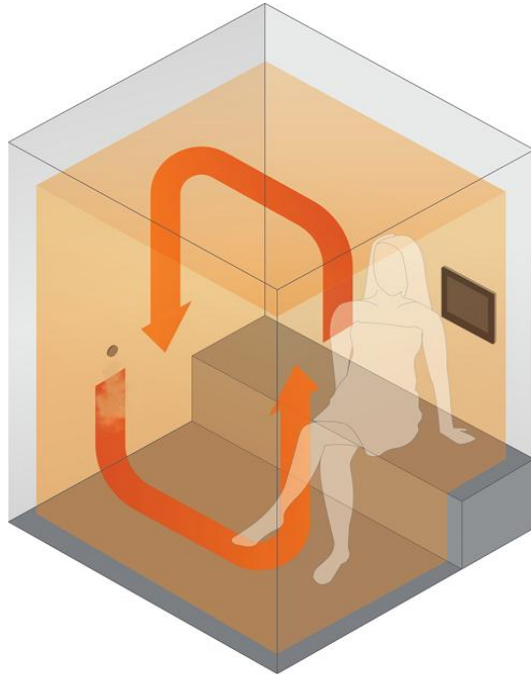

The SteamVection Steamhead is designed to replicate a convection-like effect to deliver consistent temperature levels throughout the entire shower.

## HOW IT WORKS:

The SteamVection Steamhead is designed to efficiently direct steam downward, ensuring uniform temperature distribution from floor to ceiling within the steam shower. This design eliminates any fluctuation in heat levels, delivering consistent warmth throughout the entire shower space.

Other steam showers have uneven temperature distribution

ThermaSol steam showers create floor-to-ceiling temperature uniformity

# SteamVection Steamhead

*Safety, Comfort & Relaxation*

- Available in a Round and Square Design
- Integrated Aromatherapy Oil Well
- 15 Designer Finishes + Custom

**ALL FINISH OPTIONS ARE THE SAME PRICE!**

# SignaTouch 5 Control

## Digital Shower + Steam Control

The SignaTouch provides complete control over your shower environment, combining four elements – water, steam, lighting, and music to give you a true multi-sensory showering experience. Every element of your shower environment is entirely customizable to your needs and is controlled by this intuitive touchscreen interface.

### FEATURES:

- Digital control with easy-to-read configurable touchscreen
- Can control shower outlets, steam, audio, chromatherapy, and lighting
- Two customizable user profiles
- Integrated Bluetooth technology to manage your mobile playlist when paired with the HydroVive or Serenity rain heads
- Can be installed vertically or horizontally

### Available in 2 styles:

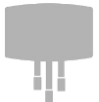

- Wall Mounted (15 Finishes + Custom)
- Recessed (Black or White Only)

Compatible with these ThermaSol Products:

ProSeries  
Generator

Digital Shower  
Valve

HydroVive

Serenity

# ThermaTouch2 Control

## Digital Shower + Steam Control

ThermaTouch2 gives you complete control over your home spa experience. When paired with our HydroVive rainhead, PRO Series Generator, and Digital Shower Valve, you can adjust your shower, steam, lights, and music to your expectations. ThermaTouch2 controls are equipped with popular apps, including YouTube TV, Netflix, Hulu, Paramount+, Apple Music, SiriusXM, HBO Max and more. With a focus on health and wellness, ThermaSol also included relaxation apps such as Calm and Chakra Meditation, as well as preset tranquility scenes. ThermaTouch2 controls are powered by Android technology, allowing internet access through Wi-Fi or an ethernet connection.

### Available in 3 Sizes:

ThermaTouch2 15 (15 Finishes + Custom)

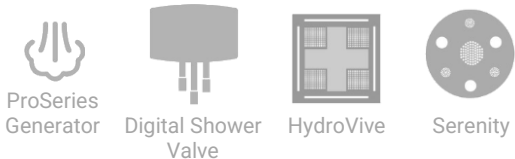

ThermaTouch2 10 (15 Finishes + Custom)

ThermaTouch2 7 (Black Trim Only)

### FEATURES:

- Integrated App Store featuring the most popular platforms: live TV, sports, news, music, health & wellness, streaming, and more!
- Integrated Bluetooth® Connectivity: Stream your preferred listening experience from a smart device inside the shower.
- Integrated connection to the Internet via Wi-Fi or Ethernet cable to stay up to date with newly released features.
- Customizable user profiles for full command over steam, shower, lighting, and listening experience.
- Smart Home Assistant Compatibility: allows users to control smart shower remotely. Compatible with Alexa.

Compatible with these ThermaSol Products:

# HYDROVIVE

RENEWAL THROUGH LIGHT, SOUND AND WATER

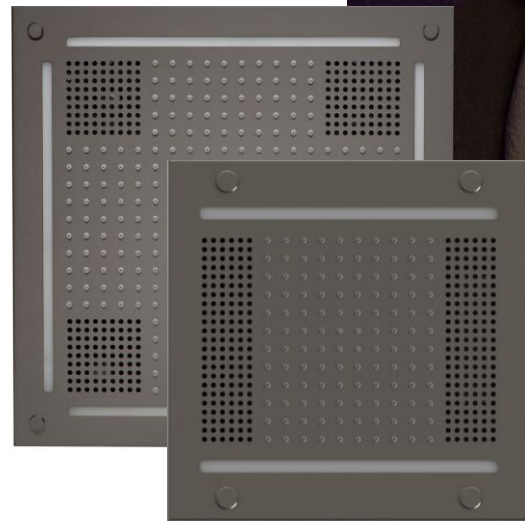

The award-winning HydroVive rainhead integrates full-spectrum LED lighting and a premium sound system for the ultimate shower experience. HydroVive is an authentic “ahead-of-its-time” creation that brings the multi-sensory powers of light, sound, and water under the user’s complete control. Personalize every element of your wellness routine when paired with ThermaSol’s Digital Shower Valve and ThermaTouch2 or SignaTouch control.

## FEATURES:

- Solid Brass Construction
- Easy-clean neoprene jets
- Premium Hi-Fi audio output
- Bluetooth compatibility
- Full spectrum lighting + chromatherapy
- Requires ThermaTouch or SignaTouch controller to operate
- 15 designer finishes + custom

## Available in 2 Sizes:
